SEES HAND OF SOVIET

Daugherty Flays Senate Foes

Charges Wheeler-Brookhart Group is in League With Moscow Communists

Says Character-Assassination is Part of Plan to Wreck Faith in Government

[BY A. P. NIGHT WIRE]

COLUMBUS, (O.) April 23.—Harry M. Daugherty told an audience of friends and neighbors tonight that he had given up his Cabinet post rather than "contribute to a treasonable cause."

Files of the Department of Justice, he said, contained "abundant proof of the plans, purposes and hellish designs of the Communist Internationale."

"Bear in mind," he added, "that the files which I refused to deliver to the Wheeler investigating committee at the time my resignation was requested, were demanded by Brookhart and Wheeler, two United States Senators who spent last summer in Russia with their soviet friends—those same soviet and Communist leaders who preach destruction of constitutional government, destruction even of human life."

Mr. Daugherty charged that "pilgrimages to Moscow by United States Senators" had been arranged for by the Communist authorities after their efforts to capture American labor organizations had failed.

GOT NEW IDEAS

"There (in Russia,) no doubt, new inspirations were advanced," he continued, "as to what steps should be taken to cripple the government of the United States and crumble the columns that support it. It may fairly be inferred that one step in this direction was to capture, by deceit and design, as many members of the Senate of the United States as possible and to spread throughout Washington city and in the cloakrooms of Congress a poison gas as deadly as that which sapped and destroyed brave soldiers in the late war.

"Time will not permit me to give on this occasion the details of the various plans and efforts undertaken to influence the Senate as a body and individual members thereof. When the country is willing to hear and in condition to comprehend it, the whole story will be made known. For protec-

WOMAN WOUNDED BY MAN WHO KILLS SELF

[BY A. P. NIGHT WIRE]

DES MOINES (Iowa) April 23.—Richard M. Boore, 60 years of age, shot and killed himself in Waveland Park last night after shooting Mrs. Edith Kelso, 32, who is said to have rejected his proposals of marriage. Mrs. Kelso's condition is serious. She is the mother of two children and has been separated from her husband for about two years.

TEMBLORS TERRORIZE POPULACE

Residents of Area Near Famous Kilauea Fleeing Panic-Stricken

[BY CABLE AND ASSOCIATED PRESS]

HILO (T. H.) April 23.—Earth shocks which began two days ago in the Puna district, near the famous Kilauea volcano, were continuing this afternoon, according to reports from Kapoho, and terrorized Japanese and Filipino residents are said to be fleeing from the region in every possible form of conveyance.

The quakes, which have been occurring at brief intervals, are circular in motion and have opened up great cracks across the roads. Some of these cracks are ten feet deep, extending toward the sea. One fissure extends for a quarter of a mile into the jungle.

All telephone lines are down and the only communication is by way of railroad.

R. H. Finch, assistant volcanologist at the Kilauea observatory, reports progressive cracking along the rift line eastward from Kilauea and says there is a possibility of a flow of lava either at Puna or in the ocean off Puna. Thirty tremors were recorded by the Hilo seismograph last night.

BRITISH LIKE PRESIDENT'S PRESS TALK

London Newspapers and Labor Government Favor Coolidge Policies

[BY CABLE AND ASSOCIATED PRESS]

LONDON, April 23.—President Coolidge's speech at the luncheon of the Associated Press in New York yesterday has been very favorably received here, both by the press and by the officials of the MacDonald Labor government.

It is expected the Prime Minister will take the earliest opportunity to proclaim his wholehearted support of the American Executive's proposed conference for further world disarmament.

When the time comes for formal invitations to a second World Disarmament Conference, to which America has given the lead, the answer from Great Britain will be forthcoming as readily and as spontaneously as when the first call was issued by President Harding, according to observers in close touch with the MacDonald government.

Although the President's reservation that further world disarmament depends upon a definite reparation settlement will naturally result in delay, perhaps in prolonged delay, British officials are anxious to see even in this coupling of disarmament with the reparation problems further evidence of American efforts to lend a helping hand to Europe whenever possible.

RECEIVER IS NAMED

PHOENIX, April 23.—In the United States Court W. D. Campbell has been appointed receiver for Cal Messner, a local automobile dealer, who has filed a petition in voluntary bankruptcy. The liabilities are given as $114,576 and the assets as $94,021.

COOLIDGE SWEEPS JERSEY

Wins 31 Delegates in Primary by Nearly 10 to 1 Over Hiram Johnson; Lead Gains in Pennsylvania

[BY A. P. NIGHT WIRE]

NEWARK, April 23.—President Coolidge swept New Jersey in yesterday's Presidential preferential primary, winning all of the State's thirty-one Republican Convention delegates. President Coolidge polled 106,558 preference votes against Senator Hiram W. Johnson's 12,076 with only a small rural vote missing.

The seven Coolidge delegates-at-large led their Johnson opponents by more than 70,000 votes and twenty-four district delegates finished with substantial leads in ever district, not one Johnson man giving the victors a doubtful count. Neither opposition of the Anti-Saloon League to two Coolidge delegates-at-large nor splits within the President's forces served in any case to turn away his supporters.

STRASSBURGER GAINS

PHILADELPHIA, April 23.—Returns from yesterday's State primary continued to increase the lead today of Ralph Beaver Strassburger over Gov. Gifford Pinchot for election as delegate-at-large to the Republican National Convention.

Figures from 6234 out of the 8119 districts in the State gave Strassburger a lead of 214,417. The figures were:

Strassburger, 432,787; Pinchot, 218,370.

PINCHOT EVEN IN COUNTRY

Up-State counties, particularly those in the agricultural sections in which the Pinchot strength was believed to center, gave the Governor little more than an even break, while Allegheny county figures rapidly added to the major-ity which Strassburger received in Philadelphia.

The six other candidates who, with the Governor made up the slate of delegates-at-large indorsed by the State Republican organization, generally received the vote which the party leaders anticipated.

The number of candidates for Democratic delegates-at-large—17 for the eight places—resulted in few complete county returns being received.

INDORSED IN OKLAHOMA

[BY A. P. NIGHT WIRE]

OKLAHOMA CITY (Okla.) April 23.—The State Republican convention here today indorsed the nomination of President Coolidge and instructed the twenty-five delegates from Oklahoma to the national convention to support him.

WOMEN LAUD COOLIDGE

[BY A. P. NIGHT WIRE]

BUFFALO, April 23.—The board of directors of the National League of Women Voters, in executive session preceding tomorrow's opening of the fifth annual convention of the league, commended President Coolidge's renewal of his indorsement of the permanent court of international justice, as expressed in his address at the annual luncheon of the Associated Press in New York yesterday.

MUSHROOM RICHES VANISH

Chicago Paper Millionaires Heavy Hit by Wall-Street Raids on Yellow Taxicab Stocks

[EXCLUSIVE DISPATCH]

CHICAGO, April 23.—Thousands of Chicagoans, who thought they were wealthy a few months ago and went ahead on the basis, buying automobiles, diamonds and other luxuries, have found their paper riches swept away by the mysterious and spectacular Wall-street raid on Yellow Cab and Yellow Manufacturing.

The bear raid has resulted in a decline of $48,000,000 and the unfortunate "mushroom millionaires" eagerly watched the ticker today to see what effect the "war chest" of $6,000,000 raised yesterday by friends of the stocks would have on the market. The effect was gratifying, although the advances were small.

The story of the financial ruin that has overtaken these speculators is best told by the prices. Yellow Manufacturing stock reached a high value of $114 a share late last year. On Monday, when the $6,000,000 "war chest" was filled, the stock had declined to $48.50 a share. There are 600,000 shares of this stock outstanding and the shrinkage from the high point represents a loss of $40,500,000.

Last January the stock of the Yellow Taxi Company sold at $64.75 a share. Monday this stock was selling at $42.25 a share. This means a loss of $7,800,000 on the 400,000 shares outstanding. The total shrinkage of Yellow Manufacturing and Yellow Taxi stocks, therefore, was $48,300,000.

Many of the investors made enormous profits and got out. Others attempted to "pyramid" their wealth and went from paper riches to poverty as a result.

Many people who have been riding in costly limousines will use street cars for a long time to come. The manufacturing stock opened on the Chicago exchange today at $53.24 and the Yellow Taxi stock opened at $46.50 a share. Lasalle street is trying to solve the mystery of the bear raid, which began shortly after the Yellow issues were listed on the New York Stock Exchange.

Bodies of Three Trappers Found Shot to Death

[BY A. P. NIGHT WIRE]

BEND (Or.) April 23.—The bodies of Dewey Morris, Edward Nichols and Roy Wilson, three trappers missing since about January 15, were found early tonight in Little Lava Lake, near here by deputy sheriffs who dragged the lake, according to a telephone message received here tonight. All three men had been shot through the head.

CUPID AIMS AT PRINCE

Match for British Heir in Making

Visit of Rumanian Rulers to London Stirs Rumors of Royal Romance

Betrothal of Princess Ileana and Wales May be Sought During Sojourn

[BY CABLE—EXCLUSIVE DISPATCH]
[Copyright, 1924, New York World.]

LONDON, April 23.—There is strong reason to believe that the visit of the King and Queen of Rumania to King George and Queen Mary during the coming London season has for its principal object discussing the betrothal of Queen Marie's youngest daughter, Ileana, who is not yet 16, to the Prince of Wales.

Queen Marie, famous as the ablest statesman of the Near East, has already married two daughters, one to the deposed king of Greece, and the other to the ruling monarch of Jugo-Slavia. Not long ago at a court reception, with what may have been calculated indiscretion, she informed an Ambassador laughingly that she intended to marry Ileana "to the handsomest and most powerful of princes."

This remark which at once flew about among European court circles appears in view of information obtained from a personage of great importance in the British court to have had some foundation.

UP TO PRINCE

The whole success of the project depends upon the wish of the Prince of Wales who has hitherto been averse to matrimony. Some eight months ago according to this informant, the King and Queen decided to stop badgering the Prince on the subject since which time he has evidenced more interest in marriage than when he was having his duty to wed dinned into him on all occasions.

The Prince's attitude on marriage in general may have been indicated by his remark recently to a member of Parliament that "when I marry I must marry a girl who knows the job, for it would be unfair to ask any one who has not been trained to such work to take it on."

The Prince's attitude to the young Balkan Princess appears not unfavorable. He is known to have referred to her as a "jolly little kid" and a "good sport."

WALES WILLING

From a Rumanian quarter it is learned that the Prince of Wales has replied to the sounding exercised on behalf of Queen Marie in a manner not discouraging. This attitude, as indicated to Queen Marie's envoy, is stated to be as follows: He promises to think things over seriously, and says he has asked his parents to become acquainted with Princess Ileana, and that if they approve of her and think her qualified he will not refuse to consider their wishes provided he and Ileana hit it off.

He feels, however, that since the Princess is so young—she will be 16 in December—and since he has got some more colonial tours to make before he settles down, there is no need to hurry. Apparently as a result of the second-hand information conveyed to King George as to what the Prince had said the subject of marriage is not now mentioned between the King, the Queen and Prince owing to the family difference over the matter in the past—the King has invited the Rumanian sovereigns here on short notice. This lends plausibility to the belief that King George and Queen Marie are favorably inclined.

PRINCESS BEAUTIFUL

Princess Ileana is asserted to be a bride worthy of a fairy prince. She is described as beautiful, slim, tall, graceful as a deer, strong and healthy, fair-skinned with masses of silky hair and eyes shaded by such long, dark lashes that it is difficult to ascertain their color. She is oval of face with small, clear-cut features and tiny hands and feet.

Ileana is clever, quick of tongue, a musician, showing signs of skill in painting and needlework, but her chief charm to the British upper classes, and perhaps to the Prince himself, lies in her outdoor accomplishments. She rides superbly, swims well and has won several prizes as a gymnast. In disposition she is gay, full of laughter, but inclined to be dreamy and emotional. She is a great-great-granddaughter of Queen Victoria through her mother, Queen Marie, who is the daughter of Victoria's second son, Albert.

Ruth Alexander Safe at Anchor North of Eureka

[BY A. P. NIGHT WIRE]

SAN FRANCISCO, April 23.—The Admiral Line steamer Ruth Alexander anchored off Trinidad Head, north of Eureka today when water was discovered in Lower No. 2 hold, but the vessel is in no danger, according to a wireless message received tonight by the Pacific Steamship Company, owners of the ship, from Capt. N. E. Couzzens, commander of the liner.

The message said: "Turned back off Turtle Rock to safe anchorage inside Trinidad Head, when water was discovered in Lower No. 2 hold. Pumps now working. Have ordered tug from Eureka in case of necessity. No danger."

SOLDIER INSURANCE-BONUS BILL PASSED BY SENATE

Cash Option Amendment Rejected After Long Debate; Measure Goes to President Soon

[BY A. P. NIGHT WIRE]

WASHINGTON, April 23.—The Senate, following in the footsteps of the House, passed the soldiers' insurance-bonus bill today by a majority sufficient to carry it over a Presidential veto. The vote was 67 to 17. President Coolidge has declared against a bonus, but proponents of this particular kind of adjusted compensation legislation are hopeful that it will meet with his approval. Before the bill reaches him, however, it must go to conference for adjustment of minor difference with the House.

Assured by Republican leaders that they would vote to override a veto of this bill, but would support a veto of a cash-bonus measure, the Senate resisted all efforts to add a cash option.

The test on this question came with the rejection, 48 to 37, of an amendment by Senator Copeland, Democrat, New York, which would have left with the former service men the choice of full cash payments or the insurance certificates provided for in both the Senate and House bills.

Many Democratic Senators who voted for the measure in its present form denounced it as a "miserable makeshift" and a "gold brick" and formal notice was given that at some future time efforts would be made to amend it so as to enable the veterans to get cash.

PARTY LINES BROKEN

On the final vote on the bill, nine Democrats and eight Republicans opposed it, while thirty-three Republicans, thirty-two Democrats and the two Farmer-Labor Senators supported it.

The roll call follows:

For the bonds:

Republicans—Brandegee, Brookhart, Bursum, Cameron, Capper, Colt, Cummins, Curtis, Dale, Elkins, Fess, Frazier, Gooding, Hale, Howell, Jones of Washington, Keyes, Ladd, Lodge, Mccormick, McKinley, McLean, McNary, Norbeck, Norris, Oddie, Phillips, Shortridge, Spencer, Stanfield, Sterling, Warren and Willis—34.

Democrats—Adams, Ashurst, Broussard, Caraway, Copeland, Dill, Ferris, Fletcher, George, Gerry, Harris, Harrison, Heflin, Jones of New Mexico, Kendrick, McKellar, Mayfield, Neely, Overman, Owen, Pittman, Ralston, Ransdell, Sheppard, Simmons, Smith, Stanley, Stephens, Trammell, Walsh of Massachusetts, Walsh of Montana and Wheeler—31.

Farmer-Labor—Johnson of Minnesota and Shipstead—2.

Total—67.

Against the bonus:

Republicans — Ball, Borah, Edge, Ernst, Fernald, Pepper, Smoot and Wadsworth—8.

Democrats — Bayard, Bruce, Dial, Edwards, Glass, King, Shields, Swanson and Underwood—9.

Total—17.

Of the twelve Senators absent, four were paired for the bill with four against it and four were without pairs. Those paired were: Lenroot for with Reed of Pennsylvania against; Cousens for with Weller against; Watson for with Green against; Johnson of California for with Moses against.

Senators Robinson, Reed of Missouri, and Harreld were announced as in favor of the measure, while no announcement was made as to Senator La Follette's position.

VOTE FOR CASH OPTION

Six Senators who voted against the bill voted in favor of the cash option feature. They were: Borah, Republican, and Dial, Glass, King, Swanson and Underwood, Democrats.

The roll on the cash option follows:

For:

Republicans—Borah, Brookhart, Frazier, Ladd and Norris—5.

Democrats — Adams, Ashurst, Broussard, Caraway, Copeland, Dial, Dill, Fletcher, George, Glass, Harris, Harrison, Heflin, Jones of

(Continued on Page 2, Column 6)

HARD BLOW TO PINCHOT

Crushing Defeat Seen as Rebuke

Capital Views Primary Vote as Expression of Faith in President

Hostility of Pennsylvanian to Administration Held Chief Factor

[EXCLUSIVE DISPATCH]

WASHINGTON, April 23.—Gov. Pinchot's defeat in yesterday's Pennsylvania primary election was the topic of absorbing interest at the national capital today.

By Republican members of Congress, party chiefs and politicians, it was held as significant in three respects:

First, it was construed as a rebuke to the Governor for his alleged hostile attitude toward the Coolidge administration.

Second, it was regarded as another demonstration of the President's tremendous hold on the rank and file of his party.

Third, it was considered as marking at once the decline of Gov. Pinchot as a power in Pennsylvania politics and the ascendancy of Secretary of the Treasury Mellon.

SEEN AS CANDIDATE

From the beginning of his public attacks on Secretary Mellon for the alleged failures of the Federal government in enforcing the Eighteenth Amendment, the Pennsylvania executive has been looked upon at Washington as an active if not an avowed candidate for the Republican Presidential nomination.

Whether justified or not, the opinion became prevalent at the national capital that, while the Governor's sincerity as an advocate of rigid prohibition enforcement was beyond all question, he nevertheless was forcing the issue as a means of promoting his own Presidential ambition.

This view was not changed when Senator Pepper prevailed upon his colleague, Senator Reed, and other Republican leaders of Pennsylvania to include the Governor in their slate of candidates for delegate-at-large at the Cleveland convention.

The capital was amazed when it developed recently that Mr. Pinchot was, behind the movement sponsored by Senator Cousens of Michigan to employ Francis J. Heney to conduct a hostile investigation of the Treasury Department.

AIMING AT PRESIDENT

This revelation clinched the conviction that the Governor was not only out to "get" Secretary Mellon, one of the most esteemed

(Continued on Page 2, Column 2)

THIRTY DIE IN TRAIN WRECK

Many of Fifty Injured Expected to Succumb as Result of Crash of De Luxe Trains in Italy

BY HENRY WALES
[BY CABLE—EXCLUSIVE DISPATCH]

PARIS, April 23.—Two international de luxe tourist trains coming from Zurich and Milan, respectively, crashed in a head-on collision shortly before dawn this morning, killing thirty and injuring fifty, of which twenty are probably fatally injured.

Both "millionaire" trains were carrying a heavy quota of "starving" German spendthrifts who were leaving gay resorts and seeking new pleasures in other expensive tourists' meccas.

REPORTED VICTIMS

Dr. Halmar Schacht, director of the German Reichsbank; Dr. Helfferich, leader of the Nationalist party and Count Della Torre, Italian Minister to Denmark, are reported to be among the victims. Confirmation of the report has not yet been received because of the difficulty of identifying the burned corpses.

The train from Milan was crowded with wealthy Germans returning home after spending their new wealth among the Italian and Riviera resorts.

The Zurich express was bringing German tourists from home en route to join thousands of European fellow-countrymen touring Italy.

CRASH IN DARK

The cause of the collision is unknown yet. The two expresses were speeding through the darkness when they crashed head on near Bellinzona, on the Swiss-Italian border. The clash of the giant locomotives was heard throughout the region and sent echoes through the mountains.

A single pile of twisted smoking metal is all that is left of the locomotives while the first two cars of each train lay with broken backs like crushed eggshells.

The cars, made in Germany, are lighted by gas and immediately burst into flames. Wrecking crews frantically summoned from the north and the south tried in vain to save the lives of those pinned under the wreckage. This evening rescuers found twenty-five bodies all so horribly burned that identification was impossible. The injured were rushed on an emergency express to Milan hospitals.

ORDER INQUIRY IN DAM BODIES

House Committee to Look Into Expenses

Backers of Swing Bill Are Under Fire

Leatherwood Indicates Quiz to be Startling

[EXCLUSIVE DISPATCH]

WASHINGTON, April 23.—A thorough investigation of all expenditures made by the Boulder Canyon Dam Association and the Imperial Valley Irrigation Company in furtherance of the Swing Boulder Dam bill was ordered today by the House Irrigation Committee on demand of Representative Leatherwood of Utah, who, while not disclosing what he knows about these expenditures, gave indication that a full and detailed statement will prove far more interesting and startling than figures thus far have been made public.

Whether there has been a corrupt use of money, or merely an injudicious expenditure, was not made manifest, but Mr. Leatherwood gave warning that "in his own time he will discuss the legal as well as the ethical effects" of some of the expenditures which he knows have been made. He wants the expenditures certified, however, by those who made them.

Mayor Evans of Riverside, head of the Boulder Dam Association, and one of the leading exponents of the Swing bill, was unable while testifying today to furnish figures demanded by Representative Leatherwood, but on request said he would furnish a complete statement of the receipts and expenditures of his association.

ITEMIZED EXPENSES

The committee, at the same time, called upon the Imperial Valley Irrigation Company to itemize some of the lump sum expenditures which they previously reported. Until these financial data are forthcoming hearings on the Swing bill cannot be concluded.

Mr. Evans, who was recalled to Washington by the committee, denounced the Federal Power Commission for its stand and launched upon a strong defense of the Swing bill.

"All our people are in favor of Boulder Dam, and against the report of the Power Commission," he said.

Representative Leatherwood interrupted and read telegrams from various mayors of California cities, letters and telegrams from chambers of commerce, boards of trade and other civic bodies in California and extracts from California papers, all commending the Federal Power Commission report.

MONEY SPENT

In answer to further questions by Representative Leatherwood, Mr. Evans admitted that the Boulder Dam Association had spent considerable money in spreading the idea that the Federal Power Commission was trying to do something unholy in boosting the Swing bill.

"But everything we did was done openly. Our cards are on the table," he added.

"Table," he added.

"That is fortunate," replied Leatherwood, "for if they were concealed I should feel constrained to have them brought on the table face up."

Mr. Evans admitted he had charge of the books of the Boulder Dam Association, but when asked about receipts and expenditures of that association after April 22, 1923, he could not recall dates.

"The Imperial Valley Irrigation Company was your principal contributor, was it not," asked Mr. Leatherwood. Evans said he did not remember. When his memory was refreshed he recalled that "for several months that company had contributed $1500 a month." That money was expended on publicity, sending speakers and agents about boosting the Swing bill and otherwise creating sentiment which was intended to influence Congress.

PERFECTLY PROPER

"But it was perfectly proper to do all that," he added. He also thought it proper for the Imperial Valley Irrigation Company to take a committee of Congress down there last spring.

After calling for a full statement of receipts and expenditures of Boulder Dam Association from April 1, 1923, to November 1 last, Mr. Leatherwood asked:

"How many people did you employ at $25 a day?"

"I do not recall any," answered Evans.

"Do you deny that you had at least one employed at $25 a day?"

"I don't recall any, he repeated.

Evans said the books of the association would show and on order he promised to furnish not only the expenditures but names of those employed, "particularly on the pay roll at $25 a day."

SWING EXCITED

Representative Swing, not a member of the committee, became somewhat excited and started to explain, but Mr. Leatherwood headed him off, saying: "If my distinguished friend from California will be patient I will get this information through the ordinary channels."

Mr. Swing then wanted to know from what document Representative Leatherwood was reading—the document which prompted his questions.

"This is the auditor's report on the books of the Imperial Valley Irrigation Company," said Leatherwood.

"Where did you get it?" asked Swing, now decidedly excited over the turn the questioning had taken.

"That is no concern of yours," said Leatherwood. "It is sufficient for the gentleman to know that I have it and other information."

"Do you mean to imply that report shows any improper use of money?" askd the aroused Swing.

SWING SUBSIDES

"If my dear friend from California will be patient," replied Leatherwood, "at the proper time I will express to him and to the world what my ideas are as to these expenditures and the whole transaction. In due time the gentleman will learn what I think about it and the legal effect of these expenditures."

Swing then subsided.

Mr. Leatherwood cited some omissions from the report of expenditures by the Imperial Valley Company, previously put in the record, and got permission to insert some "interesting items" that had been overlooked. He also called on the company to itemize an expenditure of over $20,000 made last year, which they previously returned in a lump sum.

For a time Mr. Evans proceeded with his testimony, and told of the great benefits of municipally owned power plants, as they operate in California. He contended they effect a great saving to the people. Mr. Leatherwood wanted to know how they could sell power cheaper than private companies when all rates are regulated by the State Commission.

MOTIVE DISCLOSED

"But municipal plants are not under the regulation of the California Commission," said Evans, thus disclosing for the first time why some California cities are so insistent in their support of the Swing bill that will enable them, without State regulation, to handle their own power and fix their own rates, regardless of what the cost might be to them at Boulder Dam.

Evans eventually took occasion to denounce a Mr. Hamon who had investigated the affairs of the Imperial Valley Irrigation Company, his report forming the basis of the grand jury report which recommended suits to recover moneys contributed by the settlers, which had been wastefully spent by the company. He also condemned the grand jury action.

Under questioning by Representative Leatherwood, he admitted that the directors of the Imperial Valley Irrigation Company had hired W. A. Barton to make a report intended to whitewash the company and make answer to the grand jury charges. He also admitted that Barton's report, when submitted had been suppressed, and was only given publicity when the court at El Centro ordered it published.

ATTACKS OWN MAN

This report showed that in 1922 the Imperial Valley Irrigation Company had collected from owners of land in Mexico irrigated from the Imperial Canal a total of $600,000 which was enough to pay the whole cost of furnishing water to the lands of the Imperial Valley in California and netted an additional profit of $60,000 to the company. Evans said he was not familiar with Barton's report, but declared Barton was "only a newspaper man, not competent to make the report, and was asleep when he made the report."

"Well," retorted Mr. Leatherwood, "if Barton's report is to be discarded because written when he was asleep, I will introduce in evidence the report of the grand jury. They certainly were not asleep. If your own investigator, who reported against you, was asleep," added Leatherwood, "that was your lookout." The grand jury report will be placed in the record at a later hearing.

If the Swing Boulder Dam bill is not sidetracked because of impending disclosures as to expenditures of money, it likely will be sidetracked in the very near future anyway, as Chairman Smith announced today that he intends calling the committee in a few days to give consideration to the pending reclamation bills recommended by the fact finding commission.

REWARD IN HUNT FOR DEATH CAR

Auto Club Offers $250 for Information; Boy Killed, Driver Flees

Search is under way by police for the driver of the black touring car, which last Sunday crashed into an automobile driven by M. R. Daniels and then raced away. Neff Glotfelty, a boy riding in Daniels's car, was killed in the accident.

A reward of $250 has been offered by the Automobile Club of Southern California for information leading to the arrest of drivers who flee from the scene of accidents.

This reward will be paid for such information in the present case, it was announced by officials of the club yesterday.

GOV. PINCHOT GIVEN REBUKE

(Continued from First Page)

members of the Cabinet, but that he was aiming to discredit the President himself.

That the Republican voters of Pennsylvania also formed this impression and were determined to show their resentment is indicated by the election returns, say the political observers here.

There is a tendency to discount the effect of Representative William S. Vare's eleventh-hour declaration of war on the Governor notwithstanding the huge anti-Pinchot majority rolled up in Philadelphia by his organization.

The belief is expressed that Mr. Vare merely took advantage of the feeling against the Governor to increase his prestige as an organization chief and take credit to himself for the impending Pinchot defeat.

Surgeons Finish Operation With Hospital Burning

[BY A. P. NIGHT WIRE]

NEW YORK, April 23.—While 200 patients were being removed from a wing of St. Mary's Hospital, Brooklyn, in which a fire was burning, surgeons in the operating room on the roof of the building today performed a major operation on a woman.

It was necessary, for the safety of the patient, to complete the operation and nurses watched the progress of the fire closely while the surgeons worked.

Firemen soon checked the fire and the damage was slight.

COUNTY PAYS SHARE

FRESNO, April 23.—Madera county yesterday tendered Fresno county $7888.75 as one-half of the cost of repairing the Firebaugh bridge, work on which was completed recently. Fresno county did the work under a contract with Madera county which agreed to pay half the expense.

PLUMMER AT SHIPPING QUIZ

Would Defer Operation of Section 28

Discounts Rumors on Fleet Corporation Plans

Lasker's Action on Claim is Questioned

[BY A. P. NIGHT WIRE]

WASHINGTON, April 23.—Deferment of the operation of Section 28 of the Merchant Marine Act, restricting preferential rail rates to shippers using American flag vessels was advocated today by Vice-Chairman Plummer in testimony before the House committee investigating the Shipping Board.

Representative Davis, Democrat, Tennessee, committee prosecutor, in examining Mr. Plummer, referred to reports that President Palmer of the Fleet Corporation intended to withdraw about seventy vessels from service in the face of efforts to enforce Section 28, which, it is said, will necessitate additional tonnage being placed in operation to meet the needs of shippers.

DISCOUNTS STATEMENTS

Mr. Plummer discounted statements credited to Mr. Palmer, and called attention to the latter's report to the board that 200 ships could be put in condition to meet any requirements arising out of enforcement of the preferential provisions.

Aside from Section 28 another feature of the day's proceedings was the questioning by Representative Connally, Democrat, Texas, of the propriety of former Chairman Lasker of the board in calling in Senator Pepper, Republican, Pennsylvania, as an unofficial referee on claims against the board by the Atlantic Corporation of Portsmouth, N. H., formed to build ships for the government.

He charged that reference of the claims to the Pennsylvania Senator "seemed to be part of a concerted plan to delay action," but in fairness to Lasker, he said the records showed he was in favor of the Atlantic Corporation "coming across."

LUNCHEON BILL

One of the claims which totaled more than a million dollars and which the board rejected, according to the report read by Mr. Connally, was for $2500 to recover expenses incident to a ship-launching luncheon at which Senator Moses, Republican, New Hampshire, was the principal guest. Plummer said the board had rejected this as well as all other claims filed by the corporation and that "Mr. Moses deprecated the proposition" in regard to this phase of the claims.

Senator Pepper's "findings" were dissented from, the witness testified, and the matter is now in the hands of the board's legal department for presentation to the courts.

THAW HELD BY FORMER WIFE'S FEAR

Release from Asylum is Halted by Evelyn's Suit for New Trial

[EXCLUSIVE DISPATCH]

PHILADELPHIA, April 23.—Evelyn Nesbit's fear of her former husband is all that bars Harry K. Thaw from freedom. He will remain in the insane asylum where he has been confined for the past seven years until the court acts upon a motion for a new trial, notice of which was made by William A. Gray, attorney for Miss Nesbit, immediately after the jury declared Thaw sane last night.

Under the Pennsylvania law, such motion and reasons for a new trial must be filed within four days after the finding of the verdict.

Thaw's mood of jubilant incoherence continued today. He intends, he said, to create a trust fund out of which Evelyn Nesbit will receive $10 a day as long as she lives.

Whether Miss Nesbit will accept what she terms "the Thaws' dirty money" is a question, the answer to which Thaw has not yet received.

SENATE TO PRESS TAX CUT FIGHT

Mellon Income Rates to be Center of Bitter Legislative Battle

[BY A. P. NIGHT WIRE]

WASHINGTON, April 23.—The tax reduction bill was made the unfinished business of the Senate today within five minutes after the passage of the soldier bonus measure.

After two hours given over to the consideration of minor measures, the Senate will plunge tomorrow into what is destined to be the bitterest legislative battle of the session. The Mellon income-tax rates will be the center of the controversy.

Chairman Smoot of the Finance Committee, in moving to take up the revenue measure, predicted that a minimum of two weeks would be required for its disposition. Other leaders, however, are less optimistic.

TENNESSEE EDITOR AND McADOO MANAGER DIES

[BY A. P. NIGHT WIRE]

CHATTANOOGA (Tenn.) April 23.—George Fort Milton, 55 years of age, owner and editor of the Chattanooga Evening News and one of the best-known men in business and politics in Tennessee, died suddenly early today in Murfreesboro, Tenn. Death was due to heart disease. Mr. Milton was State manager for William Gibbs McAdoo in his Presidential campaign and had established his headquarters in Nashville.

DENBY LEASING POLICY UPHELD

Expert Oil Man Says Reserve Was Being Drained

Rapid Development Declared Only Way to Save It

Serious Damage Seen in Loss of Gas Pressure

[EXCLUSIVE DISPATCH]

WASHINGTON, April 23.—The policy of former Secretary of the Navy Denby, who was for getting the naval reserve oil out of Teapot Dome and into storage as expeditiously as possible, was sustained in testimony before the Senate oil committee, by the most careful speaking oil expert who has come before the investigators thus far.

That expert was young, clear-headed James O. Lewis consulting petroleum engineer, of Marietta, Ohio, and Tulsa, Okla., and deviser of a method—which works—for obtaining oil from apparently exhausted sands by forcing air into the sands. This application of artificial force supplies the absence of the natural gas which makes wells flow, and by the use of his method Mr. Lewis has recovered from supposedly exhausted wells as much oil again as they had produced in their prime.

SEES HEAVY LOSS

This practical oilist who is also a university trained oilist—and when he makes important statements often qualifies them with Charles Darwin's phrases of noble humility, "in my opinion" and "as I understood it."—said this about the situation which might—which probably would—confront the American Navy were Teapot Dome's precious contents let lie in the ground:

"In 60 per cent of the Teapot Dome area, the loss in twenty to thirty years would be 50 per cent of the oil recoverable by ordinary methods."

The real damage, Mr. Lewis said, would be by loss of gas pressure under the surface through the operation of wells near that area.

"Without the gas," he said, "you have 'dead oil' capable of extraction only by artificial means. Such means at Teapot would not always be practicable. Over periods of ten, twenty, forty years, the damage would increase progressively, and the amount of recoverable oil would be very seriously impaired. In twenty years you would find 60 to 70 per cent of low pressure area in Teapot."

DELAY DANGEROUS

"What was the right thing for the government to do in Teapot Dome in view of perils of drainage and pressure reaction by commercial operations in nearby areas?" Senator Spencer asked.

"The government," Mr. Lewis replied, "should have gone in there and drilled immediately and drilled immediately and drilled rapidly. The delay jeopardized the amount of oil."

Senator Spencer: Would damage from the loss of gas pressure be serious enough to require the leasing of all of Teapot Dome?

Mr. Lewis: I would say develop the whole.

He added this important statement:

"If Teapot Dome were rapidly developed today—that is so as to meet war conditions— the recoverable oil could be got out in two years. Otherwise, with the gas pressure exhausted, it would take twenty to fifty years and be very expensive. The loss of gas pressure would, in short, unfit Teapot Dome for an emergency."

ESTIMATES SHRINK

Mr. Lewis said the amount of oil in Teapot Dome had proved "very disappointing"—twelve to twenty-four million barrels instead of the Bureau of Mines' estimate of 135 millions.

All this testimony sustains Mr. Denby, who was for getting the oil out of the ground.

Mr. Daniels was for keeping it in.

"Obdurate about that," said Com. H. A. Stuart, U.S.N., in a carefully prepared 1500-word statement to the Senators. He was in special charge of the naval oil reserves under Secretary Daniels, who the commander claims, was wary in making leases.

This is the most important paragraph of his statement:

"I will state that all of us found Mr. Daniels very obdurate when it came to getting any leases for lands within the reserves, even where the producing well law applied or where we who were more or less familiar with the details of drainage and water conditions felt that some action looking to leasing or other disposition should be taken. After the result of the 1920 election Mr. Daniels particularly stated that he had consistently refused to open up the reserves and that he would not change that policy before leaving office."

BURGLAR IS WOUNDED BY ROBBED MAN

Break for Freedom May Cost Life of Youth, Shot on Way to Police

A break for freedom after he had been captured in the act of ransacking the home of A. Marster, 4203 Cumberland street, last night, will probably cost the life of Efren Ypez, 20 years of age, according to the police.

The burglar suspect was shot through the left lung by Marster as he ran when Marster was taking him to summon a policeman, it was reported. At the Receiving Hospital, physicians said the wounded man is not expected to recover. Only one shot was fired, Marster said.

Marster told Hollywood police he entered his home last night and found Ypez searching the rooms. Marster obtained a pistol and took charge of the intruder. Marster said he shouted to Ypez to halt several times before he fired.

Police were led to believe that two burglaries reported in the vicinity of Marster's home were also committed by Ypez a short time before he entered Marster's home. The reports said they were at 4221 Sunset Drive and at 4103 Camero street. The amount of loot obtained had not been determined. Hollywood police are investigating.

BOND ISSUE FOR POWER UNDER FIRE

C. A. Luckenbach of Gas Company Declares Sum in Excess of Needs

Stressing the fact that the proposed bond issue of $21,000,000 is far in excess of the amount required by the Bureau of Power and Light to improve the municipal electric plant, Charles A. Luckenbach, vice-president of the Los Angeles Gas and Electric Corporation addressed a large audience in the new Realty Building on South Flower street. Realty men and their friends are taking keen interest in the coming election on May 6 and the debate last night was the result of a desire on the part of prominent business men to get the facts. W. L. Brent, president of the Los Angeles Realty Board, was chairman.

Councilman Ralph Criswell and L. E. Moselle of the Bureau of Power and Light for the city, endeavored to explain away some of the facts which Mr. Luckenbach declared are immutable as the laws of the Medes and Persians.

"The Los Angeles Gas and Electric Corporation," said Mr. Luckenbach, "builds power lines on wooden poles, with 33,000-volt transmission lines at a cost within the city of less than $7000 per mile. The Turlock Irrigation District has just completed a steel-pole line carrying wires of 66,000 voltage at a cost of less than $5000 per mile."

Facts and figures were fired at the speakers for the city by Mr. Luckenbach, who refused to be switched from the issue. He confined himself rigidly to the power question, declaring that it is not a question of municipal ownership.

"This city already has municipal ownership," said Mr. Luckenbach, "and what Mr. Criswell proposes to eventually have is a municipal unregulated monopoly of the electric business. This would mean a serious handicap to this city.

"Would you drive an industry out of business that has grown up with this city for the past forty years? If you would then you deliberately discourage industries that we as citizens and taxpayers of Los Angeles are trying to bring into our municipality. There is danger in Propositions 4 and 9 and 10, and I advise you to vote "No" on these propsitions on May 6."

COURT SAYS JAIL AFTER COURT ROW

Fondness for Tennis and Racket Skill Gets Player Ninety Days

Overfondness for the game of tennis, coupled with a near-Tildenlike ability to wield a racket, cost C. P. Francisco, a civil engineer, ninety days of freedom yesterday.

The manner in which Francisco's love for tennis brought him into conflict with the law was explained in Police Judge Crawford's court by officers and the victim of his racket-wielding ability.

Francisco, it appeared, arrived at the public tennis court at Griffith Park last Sunday with the intention of showing the populace how the game should be played. He engaged Fred Boynton and Mrs. Boynton in a game and lost. Customarily the loser leaves the court to the victor, but Francisco could not see it this way. There was an argument and the racket intended for contact with tennis balls came into rather sudden contact with Boynton's head.

The result was that Boynton had to be carried from the court and Francisco carted to the City Jail in a police automobile. Yesterday Judge Crawford sentenced the tennis-loving engineer to ninety days in the City Jail for assault and battery.

Red Cross First Aid Trophy for Scouts Awarded

Boy Scouts of Troop 82, Hollenbeck Heights district, yesterday were found by computation of the score cards to have been winners in a competition in first aid demonstrations conducted by twenty teams at the Armory Building, Exposition Park, Saturday afternoon. They were awarded, for the year, the ten-year trophy shield of the American Red Cross.

Comprising this team are twin brothers, Lester R. and Leslie O. Scott, Ray Giddings, Isadore Thompson and Milton Freeman. They were trained in first aid and life-saving work by Scout-Master Frank Bruning and Assistant Carl McElvy.

A team from Troop 88, which held the trophy last year, was a close second, the score cards showing a difference between the two teams of 1 point. Members of the first team, after receiving the Red Cross shield from Roy West, of that organization, were later decorated with silver medals by Scout Executive E. B. De Groot. Members of the second team received bronze medals.

This annual Red Cross first-aid contest, which attracted a crowd of physicians, Red Cross officials and leaders of first-aid organizations, covered ten events of oral questions, Schaefer respiration, broken bones, triangular bandaging, roller bandaging, left and drag carries, electric accidents, tourniquets and litter drill.

COOLIDGE URGED TO SIGN PENSION BILL

[BY A. P. NIGHT WIRE]

WASHINGTON, April 23.—Proponents of the Bursum bill increasing pensions for Civil War and Spanish-American War veterans, having won their fight in Congress, carried their contest today to the White House where the bill awaits action by President Coolidge. National officers of the Grand Army of the Republic and Spanish War veterans called at the White House to ask the President to sign the bill. Mr. Coolidge did not commit himself.

SENATE PASSES BONUS MEASURE

Democrats—Bayard, Bruce, Edwards, Ferris, Gerry, Ralston, Ransdell, Robinson, Shields, Smith and Walsh of Massachusetts—11.

Farmer-Labor—Shipstead — 1.

Total 48.

MAIN PROVISIONS AGREE

There is no difference between the Senate and House on the main features of the bill. Each has approved the major provisions which are:

Cash payments to veterans whose adjusted compensation would not exceed $50.

Twenty-year endowment insurance policies based on adjusted service pay at the rate of $1 a day for domestic service and $1.25 a day for overseas service.

Provision is made in the insurance feature under which the veteran after a period of two years from the date of the issue of his certificate may obtain loans from banks up to 90 per cent of the current cash value of the certificate.

AMENDMENTS ADOPTED

The more important amendments written into the House bill by the Senate are:

That cash payments be made available immediately instead of after nine months from the date of the enactment of the measure.

That the insurance certificates would be issued after July 1, 1925, instead of after January 1, 1925.

That veterans should be relieved of paying compound interest to the Treasury upon redemption of certificates which had been allowed to lapse as security for bank loans.

Placing entire control of the administration of the act under the directors of the Veterans' Bureau instead of under the Secretary of War and Secretary of the Navy.

Eliminating employees of the Public Health Service from the benefits of the bill.

Making the legislation applicable to female yeomen of the Navy, female Marines, the Philippine Scouts, and the Porto Rico regiment of infantry.

HOPES FOR CASH OPTION

Senator Walsh, Democrat, Massachusetts, author of the amendment to defer for six months the time of issuing the certificates, explained privately that the purpose was to hold up the certificates until the newly-elected Congress might have opportunity to amend the measure to include the cash option.

Eight hours of oratory and voting on amendments preceded final passage of the bill. Senators Underwood of Alabama and Glass, Virginia, Democrats, led the opposition today to any kind of bonus legislation. Senator Underwood spoke for an hour, characterizing the insurance proposition as a "sham and a fraud" and urging that the Senate give attention to tax reduction rather than to bonus legislation.

Announcing that he had always been against the bonus and always would be against it, Senator Glass declared that it was uneconomic and that the service men themselves and their children after them would pay the cost.

Leading the fight for the legislation were Senators Copeland, New York, McKellar, Tennessee, and Heflin, Alabama, Democrats, with their energies directed particularly toward the support of a cash option.

ATTACK BUT VOTE FOR IT

After an amendment embodying that option had been rejected, there was a general assault on the insurance bill from the Democratic ranks, but Senator Curtis, Kansas, assistant Republican leader in charge of the measure, finally obtained a vote.

Toward the last there were frequent efforts to shut off Senators with cries of "Vote! Vote!"

Senator King, Democrat, Utah, made an eleventh hour attempt to have the bill recommitted, but on a viva voce vote, his proposal was buried.

Undaunted, Senator King proposed to recommit the measure so as to have it rewritten with provision for increased compensation for the man who actually fought on land and sea. Again voted down, he announced amid laughter, that he had several other recommittal proposals to offer, but saw the futility of offering them.

At the finish there were general warnings by Democrats that the fight for what they termed a "real bonus" had not ended.

Senator Simmons of North Carolina, the ranking Democrat on the Finance Committee, vehemently declared that the service men would find this bill a "gold brick," just as the farmers had found the Republican tariff to be a "gold brick."

"There will be another opportunity for Senators to vote on this question," he said, "at a time when Senators are not restrained by threats coming from the White House. If the President signs this bill after he has declared against a bonus, he will do so because he does not think it is a bonus."

Senator Ralston, Democrat, Indiana, declared the bill would do all that should be done for the World War veterans.

BONUS HELD DISHONOR

Opening the debate today, Senator Underwood, Democrat, Alabama, renewed the attack against the bonus. He advocated a pension law but declared it impossible to compensate the former soldiers for their service.

"You dishonor these protectors of our nation by offering them dirty dollars," Mr. Underwood said, "or by proposing to give them these insurance policies.

"The man who fought on the first line of battle will have to carry this country in the next twenty years. You very cunningly fixed this bonus so that it won't be paid for twenty years and propose that these men instead of you will have to pay for it.

"You're adding under this legislation an enormous tax to an already heavy burden. The doctors disagree as to the cost of the bill. One estimate says it will cost $2,300,000,000. The Treasury actuary, Mr. McCoy, says it will cost $3,600,000,000 and the Treasury is probably right.

NOT MEASURED IN MONEY

"A price must be paid for everything worth having," Senator Underwood continued. "That is true of government—the most essential factor in civilization. You pay in loyalty, in service as well as in taxes. The 'bond' every citizen is born under is carried in that section of the Constitution providing that Congress has the power to raise and maintain armies. The duty cannot be measured in money.

"I want it distinctly understood that I shall vote against any bonus measure presented here. It would be a reflection on the service given by my son."

"Yet, the Senator would reflect on it by letting war profiteers keep their profits," declared Senator Brookhart, Republican, Iowa.

"That is not the issue here," returned the Alabama Senator. "They already are hidden behind tax-exempt securities."

When Senator Brookhart insisted that those securities were only a small part of the national security issue, Senator Underwood expressed regret that he could not "keep up with the Senator's imagination."

WOMEN IN PLEA FOR WORLD COURT ENTRY

[BY A. P. NIGHT WIRE]

WASHINGTON, April 23.—Comprising twelve great rolls, the petition of 25,000 Iowa women for American entry into the World Court was presented today to Chairman Lodge of the Senate Foreign Relations Committee by Mrs. J. P. Mills of the Iowa Federation of Women's Clubs. Mrs. Mills told Senator Lodge the State viewed with dismay the long delay of the proposal in the committee.

MORE TO FIGHT STOCK DISEASE

Fifty New Veterinarians to Join War on Scourge

Coolidge Again to be Urged to Help Lift Embargo

Federal Officials Ready to Take Charge of Fight

[BY A. P. NIGHT WIRE]

WASHINGTON, April 23.—California's plight because of the foot-and-mouth disease and embargoes of Western States against products of her soil will be placed again before President Coolidge, who recently telegraphed governors of ten Western States, suggesting an immediate conference and modification of the State embargoes.

Senator Shortridge of California was authorized by the State's Congressional delegation today to confer with the President, and C. C. Teague, chairman of Gov. Richardson's committee, now here meeting with Federal authorities, also has an engagement with the President tomorrow.

The fight against the disease itself is being waged vigorously by the Department of Agriculture whose bureau of animal industry is sending fifty additional veterinarians into the State to augment the forces of more than 130 Federal officials now there. Secretary Wallace was ready tonight to have his officials assume full charge of the fight in California upon receipt of Gov. Richardson's formal, unqualified request.

HOUCK TO BE HEAD

Messages are ready for dispatch to Dr. U. G. Houck of the Department of Agriculture, ordering him to take supreme command of the State's forces and unify control of the Federal and State officers, with headquarters at Sacramento.

Dr. Houck has had his Federal headquarters at Los Angeles, while the State's forces have been controlled from Sacramento.

It is expected the State will be divided into three times as many districts as at present, and each placed in charge of a Federal or State veterinarian responsible to the Federal commander-in-chief at Sacramento as soon as the government assumes full control.

The fifty additional men being dispatched by the department will be distributed throughout the infected territory and also will be assigned to inspect the cattle which will be transferred from uninfected districts to the national forest reserves for the summer grazing under special Federal permit.

Thirty-five men from New York, North Carolina and other States are en route to California, four more received orders today and eleven others are being selected from the bureau of animal industry's forces throughout the country.

COMBAT EMBARGOES

California's Congressional delegation went over the situation with Gov. Richardson's committee at a meeting today and initiated a movement to combat the embargoes against California fruits and vegetables. Senator Shortridge in a statement afterward said:

"Nearly all of the embargoes placed by surrounding and other States against products of California soil were ordered in the mistaken belief that these products were germ carriers, whereas the contrary is true. In all of the six outbreaks of foot-and-mouth disease in the United States, not once has infection been traced to any product of the soil. European products are shipped freely all over the United States even from districts where foot-and-mouth disease is prevalent, and yet no case has ever been discovered where these products introduced the disease into the United States."

In describing the situation to the California delegation Mr. Teague said every precaution is being taken by Federal and State inspectors to prevent spread of the epidemic and that embargoes against products of the soil are useless as well as unnecessarily expensive to both the California shipper and grower and the selling agencies in other States.

Department of Agriculture officials were endeavoring today to obtain from other government departments machinery suitable for assisting in trench digging to facilitate the burial of condemned cattle. Steps are being taken by them also to ascertain whether secret service agents of the Department of Justice are available for assignment to aid in enforcing the quarantines in California.

DISINFECTION CHANGE

[EXCLUSIVE DISPATCH]

OXNARD, April 23.—A new system of disinfecting automobiles entering Ventura county will be inaugurated as a result of action taken by the special executive committee appointed by the Board of Supervisors, consisting of Supervisors Gabbert, Rotzler, Farm Adviser Stanton, Horticultural Commissioner Call, J. D. McGrath, Charles Donlon, vice-president of the Pacific Southwest Bank here, and Fred Yost.

Pits will be built on the highways at the county lines in which disinfectant fluid will be placed about a foot deep. The pits will be about forty feet long. This will allow every car to be thoroughly disinfected underneath. It will be required to stand in the liquid two minutes. The running boards will be swabbed off and possibly some spray will be used. By doing this the county will cut down the number of men necessary from fourteen to seven and will save the county some $125 a day.

All motorists from the East who have with them tents and similar equipment will have to enter Ventura county by way of Castaic where there will be a specially constructed fumigation station to fumigate such articles. Resorts in Ventura county have been closed, including Wheeler's Hot Springs and Matilija Hot Springs. Fishing season will be delayed at least sixty days.

BRIDGE IS BARRED AFTER 150 PASS OVER

SAN BERNARDINO, April 23.—After permitting the passage of about 150 motorists across the Colorado River bridge at Topock, the State of Arizona at 5 o'clock this afternoon restored the quarantine and officials announced that no more persons will be permitted to pass under any circumstances. Each of the motorists was fumigated.

All eastbound motorists now are using the Arrowhead Trail, via Goffs and Las Vegas, Nev., and avoiding Arizona.

HARDSHIP IN STORM

[BY A. P. NIGHT WIRE]

YUMA, April 23.—The occupants of seven cars, held at Knob Siding in the desert west of here by Arizona's foot-and-mouth quarantine, shivered and shook last night through the worst wind and sand storm of the season. The storm was still raging today.

The night of discomfort disheartened all but two auto loads. The other five announced today that they would return whence they came as soon as they learned whether the roads were passable after the night's storm.

Despite the announced "airtight blockade" at the western entrance to the Yuma Indian Reservation, half a dozen or so cars filtered through yesterday and last evening to the river bank opposite here.

SHIPWRECKED TRIO ADRIFT MANY DAYS

[BY CABLE AND ASSOCIATED PRESS]

MANILA, April 23.—After drifting for eighteen days in the open sea in a small boat after their fishing vessel had sunk, three Japanese, the only survivors of a crew of ten, have landed on the coast of Pangasinan Province, Luzon, according to word received here today. The three said they saw a number of passing ships but were not able to attract attention.

SCHOOL CLOSES FOR PROFESSOR'S RITES

[EXCLUSIVE DISPATCH]

PORTERVILLE, April 23.—In tribute to J. B. Gunter, Porterville Union High School teacher who died suddenly Saturday evening, and for whom funeral services were conducted this afternoon, the high school closed today noon. Mr. Gunter was teacher of mathematics and chemistry in local high schools. He held degrees from the University of Indiana and the University of Arizona. He formerly was a member of the faculty of Arizona Normal at Flagstaff and had been a local teacher for two years. He is survived by his wife and two children. Elks had charge of the ritual at the grave.

HOW TO INSERT A TIMES WANT AD

You can bring it or send it to the Times Main Office, Broadway at First, or to the Times Branch Office, 621 South Spring; hand it to any Times Agent; deposit it in one of the Times Collection Boxes, located in lobbies of principal downtown office buildings, or phone MEtpoltn 0700.

CHANCE TO LEARN LINOTYPE TRADE

Linotyping is one of the best-paid trades. It is easily learned by the average man or woman. There is a great scarcity of linotypers throughout the United States. For price of tuition and other information, inquire at 419 Wilcox Building or telephone 885-387.

I. W. W. IN PLAGUE PLOT

Plan to Spread Disease and Harmful Propaganda Is Reported; Two New Cases in County

Asserted launching by members of the I.W.W. of a campaign to violate quarantine regulations of the areas infected with foot-and-mouth disease and to spread the malady throughout the State, was under investigation yesterday by Federal and State authorities.

Quarantined areas were being watched for an anticipated appearance of "foot-loose wobblies" bent upon penetrating infected areas and gathering materials that can be used to spread the disease in unaffected parts of the State.

Part of the vicious plan is said to embrace the circulation of thousands of pamphlets in all parts of the United States warning against the use of California products because of the supposed but actually nonexistent danger of spread of the disease to other States by such means. The pamphlets are said to be filled with faked interviews with medical men containing sensational statements of the danger of transmission of the disease.

Instigators of the program are named as two notorious "wobbly" propagandists, both of whom have served terms in Federal prisons. One was released from prison in June, 1923, upon the condition that he would be law-abiding and loyal to the United States and the other was given a pardon in December of the same year.

The entire plan to nullify the efforts to cope with spread of the foot-and-mouth disease and to utilize the disease to spread a false impression of its terrors is laid by organizations keeping close data on "wobbly" movements to the enmity aroused among anarchists and plotters against the government generally by the passage of the Criminal Syndicalism Act and its enforcement in California. It is reported to be an offshoot of the "boycott" against California products that was launched by the wobblies in January last, published in I.W.W. periodicals and asserted to have been sponsored by the General Defense Council of the I.W.W. at the San Francisco headquarters.

The spurious interviews in the foot-and-mouth disease pamphlets are seen by investigators as an effort to bolster up the attempted boycott and to terrorize people unfamiliar with the actual effects of the malady into shunning any product from California on the claim that such products will spread the disease throughout the nation and that foodstuffs will carry various diseases to humans.

The pamphlets are said to be under preparation in San Francisco, where the plans are under way to give them nationwide circulation.

Two new cases of foot-and-mouth disease were discovered yesterday at Lankershim and Long Beach, both in already infected areas. They were in a herd of fourteen dairy cows in the Lankershim district and a herd of 270 cows near the infected Long Beach hog farm.

As a result of the outbreak in San Bernardino county the Supervisors of that county have closed all roads through the national forests of San Bernardino county except Cajon Pass, according to instructions received by R. H. Charlton, supervisor of the Angeles National Forest. This action leaves open only one main highway to the Arizona line through San Bernardino county. All roads in the Angeles National Forest remain closed with the exception of Mint Canyon Road, Ridge Road and the Soledad Road, the latter leading to Yuma by way of Banning.

Persons who wish to get into Arizona by train do well to plan to get there by the 27th inst., according to word received from Gov. Hunt's secretary yesterday. Beginning on the 28th all persons getting off trains from California at any Arizona station will have to undergo a thorough fumigation and disinfection.

Through passengers will not be molested unless they alight from the train in Arizona. Diners are being planned where stops are usually made for meals so that passengers may comply with the regulations.

Presence of the foot-and-mouth disease in the large herd of hogs on the city hog ranch on Signal Hill does not constitute a menace to the people of Long Beach, it was stated yesterday by Dr. Ralph Taylor, director of sanitation of Long Beach. The big hog ranch at Signal Hill which is owned by a group of sixteen Japanese who control the Long Beach garbage disposal, continues to receive the city garbage, which is consumed by the unaffected hogs. In the meantime Long Beach officials are rushing plans for a huge incinerator to replace the present method of garbage disposal.

Heavy fines were assessed by Justice Baird yesterday in cases of violation of foot-and-mouth quarantine regulations brought before him. There were nineteen cases of which ten were adjourned until today and five dismissed. August Penkert was fined $200, and W. H. Hunt, E. Sanchez and M. S. Anderson were fined $300 each.

A full report of the situation in Imperial county where a number of tourists are being halted at the Arizona line was called for yesterday by United States Attorney Burke from L. L. Odie, superintendent of the Fort Yuma Indian Reservation.

Dist.-Atty. Utley and Sheriff Gillet of Imperial county, yesterday complained to Mr. Burke that Superintendent Odie and Arizona quarantine officers had closed a road on the reservation, detaining automobile tourists. As Imperial county claims to have title to the road at Knob's Siding, where the tourists are being held, the county officials asserted that they had a right to open the road. Superintendent Odie yesterday sent to Mr. Burke a telegram he had received from Washington, ordering him to maintain a quarantine over the reservation.

There are now only a few tourists at Knob's Siding, several hundred having gone across the State line into Yuma last week. Mr. Burke is reserving decision pending his investigation as to the ownership of the road.

Steps were taken yesterday by the County Supervisor to check up on the expenditures being made to fight the disease here by the county. They have called for a detailed statement from the Sheriff, the County Forester, the live-stock inspector, and the county health department, all of whom are engaged in combating the epidemic, and this investigation is being made with a view of eliminating duplication of effort.

QUARANTINE FIGHT METHODS CRITICISED

Quarantine measures employed in the fight to stamp out the foot-and-mouth disease were criticised at a meeting last night of the American Animal Defense League at the Alexandria. Approximately 300 persons present indorsed resolutions calling upon the city, county and State authorities to pursue "more effective and less cruel" restrictions. Rosamond Rae Wright, vice-president of the organization, presided in the absence of Mrs. Fannie Thompson Kessler. Among the speakers were City Councilmen Wheeler and Gregory, Dr. William Turner, D. J. Reynolds, John Knox, Mrs. Annie Riley Hale and St. Clair De Jacques.

END ARGUMENTS IN PACKERS' SUIT

California Canneries Close Oral Appeal

Joined by Armour and Swift Companies

Fight Decree Limiting to Meat Industry

[BY A. P. NIGHT WIRE]

WASHINGTON, April 23.—Oral arguments were concluded today in the Court of Appeals in the case brought by the California Co-operative Canneries to have set aside the consent decree under which the packers agreed to confine their activities exclusively to the meat-packing industry.

Armour & Co., and Swift & Co., during the oral presentation, joined with the canneries in contending that the decree was invalid and should be set aside. They took the position that although they had joined in signing it, and Swift & Co. had complied with its terms, the decree was void and could not be enforced.

APPEAL FOUGHT

The two packing concerns insisted that the decree would prevent them from continuing in lawful lines of business.

The National Wholesale Grocers' Association of the United States and the American Wholesale Grocers' Association joined the government in urging that the terms of the consent decree be enforced.

Edgar Watkins, counsel for the American Wholesale Grocers' Association, contended there was ample showing made before the court to warrant entering of the decree and that there could be no doubt the court could enforce it as valid.

UNDER OTHER NAME

The California Co-operative Canneries, Watkins said, were Armour & Co., under another name, and while the latter did not have grounds upon which it could challenge the validity of the decree it was now attempting to do so indirectly through the California Association.

The packers had agreed to the decree, he argued, to escape prosecutions under the Sherman Act and upon the strength of the decree had obtained favorable action before the Interstate Commerce Commission and Congress.

Russia Is Told France Did Not Try 'Meddling'

[BY CABLE—EXCLUSIVE DISPATCH]

PARIS, April 23.—Premier Poincare telegraphed today to Foreign Minister Tchitcherin of soviet Russia, saying that in recently transmitting the appeal of the French intellectuals for clemency toward their imprisoned Russian confreres the French government had no intention of mixing in the internal affairs of Russia, as M. Tchitcherin charged in his reply.

"The government of Moscow," said the Premier's message, "is free to take cognizance or not of the considerations of humanity which were presented to it.

"As regards the assertion that the condemned persons at Kiev had collaborated with the French secret service, it is absolutely false."

SUIT WON BY RADIO STATIONS

Federal Judge Dismisses Case to Halt Music for Copyright Payment

[BY A. P. NIGHT WIRE]

CINCINNATI, April 23.—A victory for broadcasting stations using musical numbers on which a copyright has been granted, was won in the United States District Court here today, when Judge Smith Hickenlooper dismissed a petition filed to halt the broadcasting of such numbers without paying the holder of the copyright.

The suit was filed by Jerome N. Remick & Co., New York music publishers, against the American Automobile Accessories Company of Cincinnati, a manufacturer of radio receiving sets and parts.

Judge Hickenlooper, in his opinion, said he does not think the rendition of a song in the seclusion of a broadcasting studio is a public performance within the intendment of Congress in enacting the copyright law.

Plans for Rigid Examination of Auto Operators

[BY A. P. NIGHT WIRE]

SACRAMENTO, April 23.—Will H. Marsh, chief of the State division of motor vehicles, announced today that he would recommend an amendment to the Motor Vehicle Act, providing a rigid examination, for all applications for licenses to drive automobiles, at the next session of the California Legislature.

The proposed amendment will not only include thorough tests in driving and handling cars, but also exhaustive inquiry into the applicant's physical ability to drive, Marsh said.

"Under the present law this division has no means nor authority for determining whether an applicant has ever driven a car or is physically capable of driving," said Marsh.

STATE SAVES LARGE AMOUNT ON BOOKS

FRANK SMITH SHOWS SAVING EFFECTED IN PRINTING FOR SCHOOLS

[EXCLUSIVE DISPATCH]

SACRAMENTO, April 23.—State Printer Frank J. Smith states that since taking office he has printed $243,729.51 worth of school books for the Board of Education, at a reduction of $22,137.87 under the bills submitted to that body for a similar amount of work by the previous administration.

"In connection with this decrease in production costs," said the State Printer, "it is only fair to say that much credit is due the Civil Service Commission, through whose co-operation it has been made possible to run the State's big plant of an efficient, nonpolitical basis. The saving achieved indicates that taking the State, Printing Office out of politics has raised the old 90-cent political dollar to its full purchasing power as a manufacturing medium.

"To a financier the saving of $22,000 may appear a negligible item, but the overage cost of printing school books is only about 25 cents each. Estimated on this basis, this reduction provides 88,000 volumes more than was produced for the same sum of money by the former administration."

MRS. MATSON SAYS SON KILLED SELF

HUSBAND AND ANOTHER SON MET VIOLENT DEATHS, ALSO, IS REPORT

[BY A. P. NIGHT WIRE]

UKIAH, April 23.—Mrs. Anna G. Matson, 60 years of age, held in the investigation of the death by poison of her 24-year-old son near here yesterday, told the district-attorney today that her son had, in her belief, committed suicide by taking poison kept in the house for killing squirrels.

Mrs. Matson is in custody at the County Poor Farm as there is no place for detention of women in the County Jail.

Officials investigating the case said that Mrs. Matson's husband was found with his head crushed twenty years ago and that another son was shot and killed five years ago. Both deaths occurred at the Matson home on the Coast in this county, about forty miles from Ukiah.

Near the son who died yesterday was found a stick, according to the District Attorney, on which was penciled and scratched "good-bye."

PANAMA CHIEF DOES NOT FEAR ABROGATION

[BY CABLE AND ASSOCIATED PRESS]

PANAMA, April 23.—Discussing the possibility of the United States insisting on abrogation of the Taft agreement on May 1, President Porras today said: "I do not anticipate the Canal Zone being thrown open for business if the Taft agreement is abrogated on May 1 as proposed by the United States government. Such action would be tantamount to strangulation of the small, poor and defenseless republic of Panama." The United States is Panama's best friend, he said.

RUM FINES LESS THAN LEGAL TAX

Revenue Assessments Are Larger Than Fines Imposed by Courts

Fines assessed by courts for violation of the Volstead Act are small in amount compared with taxes and penalties assessed against violators of the prohibition law by the Internal Revenue Bureau, records in the office of the collector of internal revenue disclose. One case involving a San Diego bootlegger, recently fined $500 in the Federal Court for possession of liquor and property designed for the manufacture of liquor, is said to represent the largest prohibition assessment in the history of the Revenue Bureau in Southern California.

Reports on the case show that following the bootlegger's fine in court the Revenue Bureau proposed an assessment of $1000 as a specific penalty for failure to pay the manufacturer's tax, $1333.33 to be paid by the defendant as a distiller, a specific penalty and tax of $1333.33 assessed against him as a retail dealer, $40 tax on his manufacturing equipment, and $420.53 tax on seized liquor at $6.40 a gallon. The total assessment was $4627.19 for the collection of which a levy was made on the bootlegger's property.

CHIROPRACTOR OFFERS ALIBI IN ATTACK CASE

OFFICE IN ANOTHER PLACE, HEALER TESTIFIES IN REPLY TO CHARGE

An alibi was offered yesterday for W. E. Purviance, a chiropractor, accused of a statutory attack upon Mary Sands Schwalm in March, 1923. The girl swore the attack was made on her at Purviance's office in a downtown office building, while Purviance asserted his office was in another building at that time. He also denied attacking the girl.

Purviance is on trial before Judge Hahn and a jury. Rebuttal testimony will be introduced today by Dept. Dist.-Atty. Ryan. Attorney Shenk appears for the defense.

GIRLS' CLUB DRIVE WORKERS TO MEET

Superior Judge Walter Guerin and Vierling Kersey, assistant superintendent of the City Schools and director of part-time schools, will speak to 400 members of the Business and Professional Women's Club of Los Angeles and workers in the drive for $50,000 for the Business Girls' Clubhouse at headquarters in the Biltmore Hotel tomorrow. At the rally, which will be presided over by President Orfa Jean Shontz, reports of the week of solicitation for funds will be made by captains and majors in the drive.

FILM ACTOR'S WIFE CHARGES EJECTION

Herbert Hunt, motion-picture cowboy, jerked her out of bed about midnight one night, forced her into his automobile, drove around for several blocks and then left her in the middle of the street with the statement that he was through with marriage, Mrs. Marie Hunt said in a suit for separate maintenance filed yesterday. The couple were married on October 19, 1923, and separated, she said, in the middle of the street at midnight on the 5th inst.

ILLINOIS REUNION

The ban on State picnics has been lifted and the Illinoisans will be the first to go to the Sycamore Grove Park next Saturday for the all-day rally. The usual picnic features will be carried out and all the suckers of the Illinois brand are invited.

OREGONIANS TO RALLY

Former residents of the State of Oregon are invited by the new president, A. G. Vaughn, to rally at the Walker Auditorium, 730 South Grand avenue, Saturday evening. A program of readings and music will precede the dancing.

APPEAL FOR SACRAMENT WINE FILED

Holy Rosikrucian High Priest Sends Petition to House Speaker

A Congressional investigation with the object of amending the national Prohibition Act to allow the Holy Rosikrucian Church to obtain wine for sacramental purposes has been asked by Karl H. M. Gardner of Los Angeles in a petition received yesterday by Speaker of the House Gillett. The petition was referred to the Judiciary Committee.

Mr. Gardner holds the position of chief priest and master supreme.

The complaint was carried to Washington after Mr. Gardner had been unsuccessful in indueing State Prohibition Director Sam Rutter to grant him a permit to buy wine.

Mr. Gardner, in a letter to The Times, asked that his church, organized in 1914, be not confounded with the Rosicrucian Church, which, during the last three years, has had several sessions in Federal Court with prohibition agents.

The Rosicrucian Church was brought into being by Attorney Frank A. McDonald and Richard Ferris, both of Los Angeles. Master Supreme Gardner declares that McDonald "is an apostate from and an ex-communicate of" the Holy Rosikrucian Church, and that there are on file in hte Los Angeles County Clerk's office records to prove the statement.

Los Angeles prohibition agents, in 1922, seized 1000 gallons of wine from the Rosicrucian Church. Mr. McDonald prosecuted a suit to regain the wine, and was granted a hearing before the late Federal Judge Trippet May 15, 1923. Later the wine was destroyed.

THE PICCADILLY

THE CHOICE OF ALL WELL-DRESSED MEN WHO PREFER THE DOUBLE-BREASTED SACK SUIT. CORRECT IN EVERY LINE.

Where Backbone Counts

A LITTLE moisture or a fair amount of sun will soon make a shapeless mass of a once good-looking "snow-man." He made a good "first impression"—but he didn't last—he wasn't built right—he lacked backbone.

How true is this of the clothes you wear. Unless the backbone is there—built right into the "makings" of the suit—a little moisture is a dangerous thing.

That is why Goodman & Suss Clothes, "23 Point Hand-Tailored," are expertly fashioned by hand to the shape of your body—not pressed into shape like the snow-man. You'll find it in the easy swing of the coat—the set of the shoulders—the complete freedom and graceful conformity to every movement and posture of the body.

23 vital points provide the backbone that is the fundamental of good appearance and lasting satisfaction.

POOR ANDY FUSSED UP OVER TOUR

Min's Nagging Flusters Mr. Gump as Shopping Trip Nears

Andy Gump is all fussed up over The Times Shopping Tour which starts next Tuesday morning.

He has been working on 348 for the last two days but he can't get the thing to run. Min has made him give up the idea of using it for the shopping tour, as several automobile concerns have offered them the use of a new car. They have decided to use a different car each day.

What a list of things Andy is going to buy! He's got a list of things that covers four pages. The Gump family will visit furniture stores, department stores, music shops, radio shops, hardware stores and just about every kind of store in Los Angeles.

Poor old Andy can hardly sleep or eat. Min has been cleaning house and Chester is on his tiptoes continually nagging Andy. Andy is afraid he will forget to mark down something they need. Min says he will probably be in hot water most of the time.

The Times will publish a schedule of the Andy Gump Shopping Tour Saturday.

Joe Murphy, who plays Andy Gump on the screen, will make the tour with Fay Tincher as Min and Jackie Morgan as Chester. They will wear their make-up.

The Andy Gump Shopping Tour has been arranged in conjunction with the showing of the first of the new series of Andy Gump comedies, "What's the Use?" at the California Theater Saturday.

Motion pictures will be taken of every visit made.

REAL ESTATE RULING

According to a ruling received from Washington by the collector of internal revenue, building and loan associations dealing in real estate, except when such dealing is incidental to foreclosures, automatically thereby lose their exemption from taxation. The Treasury Department holds that the legitimate activity of building and loan associations does not include the purchase of lots and the erection of houses thereon.

HELD IN AUTO THEFT

When R. L. Griffin tried to flee with an automobile bearing a theft signal on the front tire, he drew a crowd and was pursued and stopped by pedestrians and Officers Adams and Davidson, it was said yesterday when Griffin was arraigned before Justice Blake. His hearing was set for Wednesday on a charge of attempted grand larceny.

Given Minimum Penalty in Theft of His Son's Bond

[BY A. P. NIGHT WIRE]

SAN FRANCISCO, April 23.—Ubaldo Buonaccorsi of Santa Rosa was sentenced today in Federal Court to one day in jail and payment of a $25 fine for forging by means of a thumb print papers necessary in the sale of a $100 Liberty Bond given him for safekeeping by his son, Pietro Buonaccorsi.

The son, when he found his father had realized on the bond to buy American clothing for relatives just from Italy, endeavored to stop the prosecution. The fine and imprisonment were the minimum possible. The son paid his father's fine.

NOYES AGAIN HEADS ASSOCIATED PRESS

MANY OFFICERS RE-ELECTED BY NEWLY ORGANIZED DIRECTORS' BOARD

[BY A. P. NIGHT WIRE]

NEW YORK, April 23.—Frank B. Noyes of the Washington Star today was re-elected president of The Associated Press by the newly organized board of directors.

E. H. Butler of the Buffalo News was elected first vice-president and C. P. J. Moony of the Memphis Commercial Appeal second vice-president.

The counselor, Melville E. Stone, was re-elected secretary and the general manager, Frederick Roy Martin, was re-elected assistant secretary. J. R. Youatt was re-elected treasurer.

The executive committee was re-elected with one exception. Members are: E. Lansing Ray, St. Louis Globe Democrat; Clark Howell, Atlanta Constitution; Charles Hopkins Clark, Hartford Courant; Elbert H. Baker, Cleveland Plain Dealer; Frank B. Noyes, Washington Star; Adolph S. Ochs, New York Times and Robert McLean, Philadelphia Bulletin, who was elected to succeed his father, W. L. McLean.

FRANC RISE LAID TO FOREIGN SPECULATION

[BY CABLE AND ASSOCIATED PRESS]

PARIS, April 23.—A vast speculative movement directed from New York and London is responsible for the continued rise in the franc, it was declared in qualified financial circles in Paris today. French financial interests have been out of the exchange market since the operation by which the dollar was brought down from 27 to 21 francs in three days during the second week of March, it was asserted by the Bank of France.

GEORGE VON ELM EQUALS PAR TO WIN MEDAL HONORS AT FLINTRIDGE

Introducing a Notable Collection of Champions

The great and near great gathered at the Commercial Board luncheon at the Biltmore yesterday noon, and after feeding their faces the more prominent of the diners adjourned to have their physiogomies photographed. Reading from left to right the dazzling group is as follows: James J. Donahue, former all-around Olympic champ; Maurice McLaughlin, ex-world's champion tennis payer; Jack Dempsey, heavyweight boxing titleholder; Grandpa Alma Richards, winner of the high jump in the 1912 Olympics; Bob Weaver, champion booster for Southern California track athletes; Duke Kahanamoku, record-breaking swimmer; and Fred Kelly, former hurdling phenom, and winner of the high hurdles at the 1912 Olympics.

EIGHT PLAYERS SURVIVE

Friedenberg Beats Donovan in Red-Hot Match in National Handball Tourney

BY BILL HENRY

The National Handball Championship is going to stay in California and the chances are 50-50 between Los Angeles and San Francisco as a result of yesterday's play which brought things down to the round before the semifinal. Today four local players will tangle with as many San Franciscans, which is certainly fair enough. The local stars are George Klawitter, Frank E. Garbutt, Bill Ranft and Maynard Leavell, all of the L.A.A.C. The northerners are McMillen, Coleman and Murray of the Olympic Club and Dr. Friedenberg of the South End Rowing Club.

A couple of hundred superheated spectators jammed themselves into the little half-portion gallery and sweltered and gasped for two hours, while Dr. Friedenberg and Jack Donovan of the Olympic Club settled an argument of long standing and considerable ferocity in a three-game match. Friedenberg's clever court tactics finally carried the tide of battle, 9-21, 21-8, 21-13.

It was a nice friendly contest in which the boys got in each other's way and all that sort of thing. Donovan was the chief offender as is shown by the box score, which credits Friedenberg with hitting his Irish opponent in the tonneau nine times, while only taking two wallops himself, one in the chassis and one in the battery.

With the betting something like 2 to 1 that Donovan wouldn't take a game, the Olympic Club player proceeded to walk right through his frail and mournful-looking opponent in the first fracas, which only went nine innings. Donovan made 6 in the third hand, 5 in the seventh and ran out 4 for the game. Score:

Friedenberg	2	1	1	1	2	0	2	1	0	9
Donovan	1	0	0	0	0	1	0	0	0	2

Friedenberg switched his tactics in the second game, deciding to give Donovan a bit of much needed exercise. He placed his shots to all corners of the court and Donovan ran farther in half an hour than the round-the-world flyers have flown in a month. After Brother Donovan was thoroughly winded, Friedenberg would slap a little teaser in a corner. This game went fifteen innings, as follows:

Donovan	0	1	1	0	0	1	0	1	0	2	1	0	0	3	0	0—9
Friedenberg	1	0	0	2	0	0	2	0	1	0	2	1	1	0	1	2—11

The pace told heavily on Donovan and Friedenberg started out on the deciding game as though he wouldn't give the Olympian a point. He ran up 7 markers before Donovan broke the ice and held that much advantage just about all the rest of the way. Donovan fought hard, but both of the players were thoroughly exhausted from their efforts and neither was capable of making any extended run of points. The final game went eighteen innings before Friedenberg won. Score:

Friedenberg	0	4	1	0	3	1	0	0	0	1	2	1	3	0	0	0	2—18
Donovan	0	1	1	1	5	0	1	0	0	0	0	1	2	0	1	0	0—13

Frank E. Garbutt, one of the heavy favorites in the upper half, got a first-class workout from Wolf, a dark horse from the Olympic Club, who led him in the first game, 8 to 3, and was never headed until the local player made a run of 7 points in his thirteenth

JOHNSON TO BATTLE ROMERO

[EXCLUSIVE DISPATCH]

NEW YORK, April 23.—Floyd Johnson hopped off the rattler today just in time to annex his signature to a set of articles calling for a fifteen-round battle with Quintin Romero, the heavyweight kid from Chile, who has been here these many weeks craving a fight with some sort of an American boxer. Johnson tossed in the mean signature, which means that he agrees to take Quintin over the course at Madison Square Garden on May 9.

Romero had already agreed to meet any scrapper Rickard might pick for him. As a matter of fact, the South American walloper wants a whole flock of fights and will get them if he lives by that Johnson man.

Rickard is enthusiastic about the stranger. Tex says he will stake his reputation as a fight picker on Romero. "He's the best-looking youngster that I have seen around here in some time. I think he is going to prove a great fighter," said the promoter after glancing at the big fellow.

When asked about Firpo, Rickard said that he expected to hear something definite from the wild bull in a couple of days which would determine whether or not Luis is coming back here. However, if Firpo does come back he will have to fight Wills before getting another peg at Dempsey, according to Rickard.

GREB AGREES TO BOX FOR MILK FUND

[BY A. P. NIGHT WIRE]

NEW YORK, April 22.—Harry Greb, middleweight boxing champion of the world, today agreed to defend his title at the Milk Fund Show here June 27 against any opponent selected by the committee in charge. Ted Moore, English boxer, Jock Malone, Paul Berlenbach, Jack Delaney and possibly Mike McTigue, world's light heavyweight champion, who is reputed able to make the middleweight limit, were mentioned as possible foes.

OLYMPIC PLANS EXPLAINED

Bob Weaver Tells Commercial Club How We Will Do Our Bit; Kings of Sport at Lunch

Two hundred members of the Commercial Club yesterday listened to Bob Weaver explain how the Southern California Olympic Games Committee plans to raise the money to send twenty-five to forty of the flower of American athletes to Paris this summer.

As guests of the Commercial Club at the Biltmore luncheon such celebrities as Jack Dempsey, world's heavyweight champion; J. J. Donahue, former Olympic all-round champion; Fred Kelley, former world's hurdling champion; Alma Richards, winner of the high jump in the Olympic Games of 1912; Maurice McLoughlin, former world's tennis champion, and other athletes of more or less renown, were on deck to add luster to the gathering, including the famous Duke Kahanamoku, swimmer de luxe.

QUOTA IS $25,000

Southern California's quota for the Olympic Games fund, which is to be used to send American athletes to Paris, is $25,000. None of this is to be raised by public subscription, as has been the case in the past, Weaver said, but a strenuous campaign is to be waged to sell enough tickets to fill the 75,000 seating capacity of the Coliseum for the western try-outs next month. If that is done Southern California will go over the top with a bang, Weaver said, but a have enough money besides to send a whole herd of athletes to the final track and field tryouts in Boston. About $17,000 will be necessary for this purpose alone, he said.

In raising its quota through the sale of ducats for the Coliseum tryouts, which will bring together the cream of the athletes in this

(Continued on Page 2, Column 3)

FRED WRIGHT CLOSE BEHIND

Von Elm Leads Field by Two Strokes With 71

Frank Godchaux Scores 74 in Invitational Event

Match Play Opens With First Rounds This Morning

BY CHARLES WEST

George Von Elm regained some of the prestige he lost last week at Annandale when he won the medal honors in the Flintridge Country Club's invitational golf tournament with a card of 71, yesterday. Fred Wright had the second best score with a 73, while Dick Smith, who led the early qualifies Tuesday, shares third place with Frank Godchaux of New Orleans, both navigating the course in 74. Willie Hunter's 75 placed him fifth.

Von Elm undoubtedly obtained a lot of satisfaction out of winning the qualifying round. Not that victories and trophies are uncommon in the life of the Rancho star, but in this particular tournament he not only outplayed a strong field of golfers, but also took a little revenge for the beating Fred Wright gave him at Annandale last week. Winning in medal play from Wright on his home course is no small achievement.

Unfortunately, most of the acknowledged star players have found it impossible to continue with the tournament, Wright, Hunter, Harlow Hurley and Von Elm being among several who will not play through. However, the tournament still retains such men as Godchaux, W. W. Campbell, Arthur Thompson, J. M. Wetherby, and Dick Smith to battle for glory, and plenty of excitement is anticipated before the

(Continued on Page 2, Column 2)

No Wonder the Judges Award Her Honors

After seeing Miss Betty Becker, national diving champion, in action at Brookside Park yesterday afternoon it's not hard to figure why judges pick her as the best in these United States. Beautiful Betty is shown in the accompanying photo soaring through the ozone for one of her justly celebrated spread-eagle dives. The champion, who hails from the Ambassador Swimming Club of Atlantic City, is in Pasadena to compete in the national championship scheduled for Saturday. Inset shows Miss Becker caught in the act of trying to vamp the photographer. Needless to say it wasn't a hard task.

[P. & A. Photo]

HOLD BOXING TRY-OUTS

Tennis Champion Spurns Offer to Dine With Davis Cup and Olympic Committee

[EXCLUSIVE DISPATCH]

NEW YORK, April 23.—William T. Tilden II, national tennis champion, declined today the invitation of Julian S. Myrick, chairman of the Davis Cup and Olympic committee of the National Lawn Tennis Association, to dine with that committee in New York Friday night, and presumably discuss the champion's resignation from the two teams.

"I regret that I am unable to comply with your suggestion to dine with you, owing to a previous engagement," the champion wrote Mr. Myrick. "I suppose you desire to discuss my resignation from the Davis Cup and Olympic squads of the United States Lawn Tennis Association, although you say nothing to that effect in your letter to me.

"The amateur rule report of Mr. Halcombe Ward was made public and I should judge partially re-written after the executive committee meeting I attended and at

(Continued on Page 2, Column 6)

TIGERS IN PHILADELPHIA

[EXCLUSIVE DISPATCH]

PHILADELPHIA, April 23.—The Occidental College relay team arrived late last night to take part in the Pennsylvania University annual relay carnival which takes place Friday and Saturday. They made a favorable impression among the coaches who witnessed their workout this morning on Franklin Field.

The boys from Los Angeles came here direct from the Kansas relay races in which they won the quarter, half and medley races. They are already picked as the class of the short distance relay races in the forthcoming meet.

Argue and Spangler, the fastest quarter-milers on the Coast, will compete against some of the best sprinters in the world in the dashes. Leddell of Edinburgh University, Scotland, and Brush, 100 and 220-yard champion and record holder, are entered in the dashes and the Coast Conference boys will have their work cut out for them to keep step with the Scotch flash as well as with the American stars entered in these events.

With the arrival of the Occidental squad from Los Angeles and Cambridge from England, athletes separated by 6000 miles were brought together. With England, Scotland, Canada, California and other States represented on Franklin Field this afternoon the Pennsylvania relays assumed international flavor.

Jack Dempsey Will Fight Unnamed Opponent Here Next Month

COLISEUM SITE OF EXHIBITION

Heavyweight Champ to Appear at Olympic Try-outs

Promises to Go Three Rounds for American Fund

First Local Showing Since Winning Title

Jack Dempsey, world's heavyweight champion, will box three rounds at the Los Angeles Coliseum on May 24, it was announced yesterday. The champ will tangle with an opponent yet to be selected as one of the big features of the Olympic Games track and field try-outs. It will be the first time Dempsey has boxed publicly in Los Angeles since he won the title from Jess Willard at Toledo several years ago.

Bob Weaver, chairman of the local committee in charge of raising the Los Angeles quota of $50,000 to aid in sending the United States athletes to Paris this summer, is responsible for securing Jack's services at the try-outs. Only the fact that Dempsey is such a strong supporter of amateur sports made the task an easy one.

STARTS AS AMATEUR

"I will gladly do anything to help out those competing in amateur sports," said Dempsey yesterday. "It was as an amateur that I got my start and if I can do anything to help the coming champs to their stuff I'll be there. It would please me considerably if I were able to go to Paris with the United States boxers this summer, but unfortunately I am no longer an amateur."

The champion will box three rounds with some opponent and will also show the spectators what sort of training stunts he goes through when preparing for a big fight. Dempsey will do his work in a regulation ring raised in the center of the Coliseum field so that all can see what is going on.

Motion pictures of the heavyweight champ in violent action and also of the surrounding crowd will be taken by the Universal company, by which organization Jack is being starred in a feature production called "The Champion." Jess Robbins, Dempsey's director, will act as one of his seconds on that day.

TICKETS ON SALE

Tickets for the try-outs, which will bring together some of the best track athletes in Southern California, Arizona and New Mexico, are now on sale at all of the leading sporting goods houses. Seats are $1, $2 and $3, plus tax.

EIGHT PLAYERS SURVIVE EVENT

(Continued from First Page)

two northerners to emerge victorious.

In the lower half Joe "Red" Murray, national champion, will match his ferocious wallops and even more ferocious gestures against the devastating "murder ball" of Bill Ranft, former titleholder. Murray is expected to win by the majority, although anybody with a kill like Ranft has can never be counted out. Doc Friedenberg will try his stuff against Maynard Laswell, local favorite, in the lower eighth.

Yesterday's results in the singles—McMillian (OC) defeated McPhee (OC) 21-13, 21-77; Klamitter (LAAC) defeated Bruns (SERC) 21-9, 21-8; Garbutt (LAAC) defeated Wolf (OC) 21-18, 21-15; Coleman (OC) defeated Orr (OC) 21-10, 21-4; Murray (OC) defeated Spalty (LAAC) 21-5, 21-4; Ranft (LAAC) defeated Cranfield (OC) 21-18, 21-14; Friedenberg (SERC) defeated Donovan (OC) 9-21, 21-8, 21-13; Laswell (LAAC) defeated Leaver (SL) 21-7, 21-17.

The doubles results follow: McMullin and Donovan (O. C.) defeated Welton and James (L.A. Y.M.C.A.) 21-16, 21-18; Grandeld and Wolf (O. C.) defeated Burke and Rosen (S.E.R.C.) 21-13, 21-12; Stern and Donnell (L.A.Y.M.C.A.) defeated Hausman and Orr (O C.) 21-10, 21-10, and Clark and Allen (L.A.A.C.) defeated Stalty and Chittenden (L.A.A.C.) 21-11, 21-14.

FRED WRIGHT CLOSE BEHIND

(Continued from First Page)

event closes with the finals Saturday.

Over 175 golfers teed off in the tournament during the two days of medal play—the largest entry on record for a Flintridge event. However, due to excellent work on the part of the club professionals, Dave Findley and Paul Scott, there was very little congestion.

Godchaux, a scratch player, is naturally favored to win the tournament. However, he has the hardest half of the draw, being bracketed with Arthur Thompson, W. W. Campbell, and J. K. Wetherby.

The Flintridge tournament committee has shown exceptional taste in selecting trophies. The golfers are competing this week for what is undoubtedly the most handsome set of prizes ever offered in an invitational tournament in Southern California. The idea of practical trophies has been carried out, and even the winner of the defeated eight in the last flight will be awarded a trophy he can be proud of.

BOXING RESULTS

The following were the results of the boxing bouts at the Venice Arena last night: In the main event Eddie Trambley got the decision over Sam Langford. In the semi-wind-up, Jack Spencer was awarded the verdict over Bobby Moran. Johnny Vallardi and Harry Lewis fought a draw. Ted Frenchie defeated K. O. Lewis. Young Thomas knocked out Harry Foley in the second round and Shorty Smith and Kid Manuel went to a draw.

GAME CALLED OFF

The Occidental-Los Angeles Athletic Club baseball game that was to have been played yesterday at Patterson Field was called off on account of the weather. No definite date has been set for the game in the future.

DE PALMA TO SWITCH CHARIOTS

Roaring Ralph May Use Larger Car Against Sig Haugdahl Sunday

The Bozzani Sweepstakes, feature race of the card at Ascot Speedway next Sunday, will not be a battle-royal with Sig Haugdahl playing the role of the center man against whom seven will be fighting. Contrary to a popular impression all the other stars who are entered in the big event are not De Palma partisans, willing to sacrifice their own chances that the Italian may defeat the Scandinavian. The fact is, Haugdahl will have more assistance from the other drivers than De Palma will be able to muster.

So far as all but one pilot are concerned Sir Ralph will have to fight his own fight once the flag is dipped by Paul Derkum. Leon Duray is the only one who will own up to being pro-De Palma. The big Frenchman, stung by the speed leash of the Nord on last Sunday is openly boasting that he will give the Italian all the assistance in his power. But, among the speed sharks who know how the Ascot game must be played to win, the prevailing impression is that De Palma will not be able to use any assistance from another driver.

Either "Hug" or Ralph it is figured, will jump into the lead with the other close behind. Both cars are good for at least a thirty-seconds-lap at the start and such a drive will gain a good lead over the cars of the other six pilots. The pole position, such an important factor in Ascot racing, will be determined by the fastest time made in the qualifying trials. The car which De Palma will use is unsettled. He is being urged by his friends to accept Harry Miller's offer of the use of a 183-inch car which has a stronger rear-end. Haugdahl was out for practice yesterday, using two of his cars. De Palma was busy installing the new rear-end gears he received during the afternoon from Oakland.

The Italian Colony Victory Crown, a beautiful headpiece presented President Bentel to replace the old Ascot Helmet was placed on exhibition yesterday. The crown is of very elaborate design and was made by Sausto Tasca. The presentation committee was composed of Italian Consul Cav. Enrico Piano, G. Andreini, "Jimmy" Val and John Val. It is valued at $2500 and will be contested for each Sunday. The winner must drive around the track after having the trophy placed on his head.

OLYMPIC PLANS ARE EXPLAINED

(Continued from First Page)

section, Los Angeles will accomplish something attempted to the same degree in no other city in the country. San Francisco raised its $25,000 in sixteen minutes, it is said, but did it all through popular subscription. Other cities have not been so fortunate, and New York has had a terrible time collecting its apportionment of shekels for the athletes in that territory.

DEMPSEY TO BOX

Several of the athletes gave short talks, and a telegram from Charles Paddock, the "human flash," who is on his way to run in the Drake relays next Saturday, was read, expressing regret over enforced absence from the meeting. Jack Dempsey delivered a short oration, tearing himself away from the film studio where he is working long enough to tell all present that at heart he is an amateur and that he will do all in his power to help the good cause along. In addition, he promised to box an exhibition in a specially erected ring at the Coliseum during the tryouts. This will be the "to boot" part of the track program, Dempsey having caught Kearns in a weak moment and made him promise not to attach any of the box-office receipts.

Zack Farmer, impresario of the Coliseum, wound up the program with an enthusiastic exhortation to the papas present to interest themselves and other kids' papas in the track-and-field tryouts and make the Coliseum bill a howling success.

Col. Quentin, champion of many countries with the broadsword, was introduced, and declared that after traveling all over the world he would rather have the hoof-and-mouth disease in Los Angeles than be a king in any other country.

The Northern California Medical Golf Association is playing a match with the best physicians in Southern California for all-State honors.

PALO ALTO IN LIMELIGHT

[BY A. P. NIGHT WIRE]

PALO ALTO (Cal.) April 23.—The biggest crowd in the history of field athletics in this region is expected to attend the thirty-first annual dual track meet between Stanford University and the University of California, to be held in the Stanford stadium here Saturday afternoon.

Reports from the East indicate that the meet is being watched with interest because of its bearing on the national intercollegiate meet (the I.C.A.A.A.A. events) at Harvard, May 30 and 31. For the last three seasons the University of California, after the winning of the Stanford meet, has gone East and annexed the national title. This year, however, California already has been defeated by the University of Illinois, and Stanford, easily victor in all its meets, is considered to have the strongest team.

Both Stanford and California may enter teams at Harvard, though if Stanford loses the dual meet, it may not go East, its athletic authorities say.

PICK CHANDLER TO LEAD BRUIN SQUAD

[BY A. P. NIGHT WIRE]

BERKELEY, April 23.—Edward G. Chandler has been elected captain of the University of California tennis team for 1925. He is ranked second in the national junior singles and doubles as he competed in the finals of both events at the last national tournament.

The California tennis team defeated all its rivals this spring.

More dangerous than a lion or tiger is the wild ass in captivity, according to claims of one keeper.

BILL TILDEN TO STAND PAT

(Continued from First Page)

which I offered my services for this year. Had I had knowledge of the official wording of the report of March 24 of the amateur rules committee wherein player-writers are held up as a harmful influence to and an evil influence in the game I could not have agreed to play in the Davis Cup competition.

"Mr. Ward states that I as a player-writer am violating the amateur rule even though technically I cannot be declared a professional under it until January 1, 1925, providing existing conditions continue.

"Self-respect and a desire to maintain the highest standard of international sport leaves me no course but to refuse to play until my amateur status is definitely fixed and recognized. Once my amateur status is established beyond question, it will give me great pleasure to help defend the Davis Cup for my country."

Mr. Myrick has expressed great surprise at Tilden's resignation, and said there was no doubt regarding the champion's present amateur status.

MANAGER KRUG IS SUSPENDED

[BY A. P. NIGHT WIRE]

OAKLAND, April 23.—Marty Krug, manager of the Los Angeles club in the Pacific Coast baseball league, was suspended for two days by Harry Williams, president of the league, today, for arguing with Umpire Bill Guthrie in the game yesterday between Los Angeles and Oakland. Ten other Los Angeles players who "talked back" to Guthrie were sent to the clubhouse by the umpire.

over the left-field fence for the round trip.

Krause blanked the Angels in the second, but they got after him again in the third and scored another pair. Then Harry retired and Kuns went to work and did his job mighty well. A run was scored off him in the fifth on a base on balls, a sacrifice and an infield hit, but that was all.

OAKS COUNT THREE

The Oaks got in the ball game in the fifth when they scored three runs. Steward and Kuns got singles and Adams bunted them along a base each. Brubaker scored both men with a double and counted himself on an infield out and Cather's slash that Jacob's knocked down but could not field.

The tying run was scored in the sixth on a single by Lafayette and Baker's double. The squeeze play failed and that robbed the Oaks of another run. They put over the winning tally in the eighth, however, when Cather opened with a double. Guisto bunted him to third and Lafayette scored him with another double.

Myers had been complaining of a sore back and today was his first full game of the season. He had plenty of stuff in the early rounds, but was no puzzle from the fifth inning on. Score.

TODAY IN COAST LEAGUE CIRCLES

1920—Fritz Ormsbie of Salt Lake helped himself to a 4-for-4 win over Portland by clouting the doubling runs with his hit and scoring twice—each and five counts. He permitted the hits. 1921—Jimmy Caveney of Sacramento made three hits in seven times at bat in the double-header with Vernon. Two of Agnew's drives were for two and one a double.

1922—Harry Krug, Portland second-baseman, handed two of eleven chances in the game with Salt Lake.

1923—Jimmy Caveney batted three chances at short for San Francisco in the game with Vernon.

1924—Manager Orvie Johnson, playing short for Salt Lake, had a busy day against Oakland. In addition to handling seven chances in the field he made two of the team's hits, one a double, and scored two of his club's runs.

1924—Four pitchers were pitched in the second game between Del Monte and Fresno, Del Monte finally winning, 7 to 6.

1924—Two four-hit shut-outs were pitched in the league opener, Del Monte defeating Fresno, 2 to 0, and Chief Johnson of San Francisco defeating Los Angeles, 1 to 0.

1924—Portland's opening game with the Francisco went fourteen innings to 2 to 1 win, Gaston batting the pitcher in the beloved Dolman way (Fiddler).

Jack Kenneth Penner, Sacramento pitcher, born in Florence, Ala.

BAMBINO HITS SECOND HOMER

Ruth's Hitting Helps Yanks Wallop Boston

Braves Vanquish Phillies in Fifteen Frames

Cleveland Noses Out Tigers in Ten Innings

[BY A. P. NIGHT WIRE]

NEW YORK, April 23.—The New York Yankees opened the American League season here today with an easy victory over the Boston Americans by a score of 13 to 4. Pennock had no difficulty in holding the Red Sox in check, while the Yanks knocked out Ehmke in three innings, and continued to pile up runs on Fuhr and Howe, his successors. The champions made fifteen hits for thirty-one bases, Ruth leading with a homer, double and single. The game was attended by Mayor Hylan, Commissioner Landis and a military detachment from Governor's Island, which rolled in a big base ball which was started on its way in Chicago a week ago. The Yankees raised the American League pennant and Commissioner Landis presented each of the New York world champions with a diamond studded watch. The score:

BOSTON	AB	R	H	O	A	NEW YORK	AB	R	H	O	A

MACKMEN ANNEX

[BY A. P. NIGHT WIRE]

PHILADELPHIA, April 23.—The Philadelphia Americans opened their home season today with a 6-to-4 victory over Washington. The game was a pitchers' battle up to the seventh when Marberry weakened and the locals scored all six of their runs. Harris relieved Helmach in the ninth after the Senators had scored three runs. A homer by Hauser with Strand on first was the feature of the game. Score:

SUMMARY

Errors—Mostil, Crouse, Barrett. Two-base hits—Mostil, McManus, Barrett, Jacobson, 2; Pruett. Sacrifices—Hooper, Cruise, Collins, McManus, 2. Stolen bases—Hooper, Barrett, Sisler. Double plays—Gerber to McManus; Sisler to McManus; Collins to Sheely; Sisler to Gerber; Robertson to Gerber to Sisler. Hit by pitched ball—By Lowell, Gerber. Bases on balls—Off Lowe, 1; off Pruett, 1. Struck out—By Danforth, 1; by Pruett, 2. Pitching records—Off Danforth, 8 hits, 6 runs, in 6 2-3 innings; off Pruett, 8 hits, no runs, in 4 1-3; off Lowe, 11 hits, 7 runs, in 6 2-3; off Lowell, 1 hit, 3 runs, in 1 2-3. Left on bases—St. Louis, 5; Chicago, 3. Time 2h. Umpires—Hildebrand, Moriarty and Ormsby. Winning pitcher—Pruett. Losing pitcher—Lowe.

CUBS WALLOP CARDS

[BY A. P. NIGHT WIRE]

CHICAGO, April 23.—Chicago inaugurated the National League season here today by defeating St. Louis, 13 to 1. The Cubs were in a batting mood, driving out five doubles and a brace of homers in their collection of hits. "Big Jeff" Pfeffer was unable to withstand the attack and retired after the second inning. Vic Keen, for the Cubs, pitched a steady game, allowing but three hits until the ninth when Bottomley's double and Freigau's single saved the visitors from a shut-out. Score:

BRAVES WIN OUT

[BY A. P. NIGHT WIRE]

BOSTON, April 23.—Singles by O'Neil, Stryker and Bancroft in the last of the fifteenth, with none out, scored the run which gave Boston a 3-to-1 victory over Philadelphia in the opening game of the National League season here. Stryker pitched the last seven innings, held the visitors to two singles, no runs, and made two hits himself. Stengel's triple and Padgett's infield single tied it for Boston in the ninth. Couch pitched the full game for Philadelphia. Before the game a wreath was placed at third base in memory of the late Norman "Tony" Boeckel and Mayor Curley gave a short memorial address. He pitched the first ball with Maj.-Gen. Clarence R. Edwards at bat, Lieut.-Gov. Alvan T. Fuller catching, and John A. Heydler, president of the National League acting as umpire. Score:

TRÓJAN NINE TO TACKLE ARIZONA

Seventeen University of Southern California ball players, accompanied by Coach Sam Crawford, Manager George Freeman, and an umpire, left yesterday afternoon for Tucson, Ariz., where they will engage the University of Arizona nine in a three-game series. A week from Friday the Trojans meet St. Mary's in two games at the Coliseum.

BOWLERS MIX NEXT SATURDAY

More Than Four Hundred Play in Singles Events

Present Champions on Hand to Defend Titles

Mayor Parkhurst Will Start Maple Ball Rolling

With more than twice as many entries as competed last year the stage is all set for the opening of the ninth annual Pacific Coast bowling congress at Venice Saturday evening at 8 o'clock. There are no less than 440 singles entrants and the number of players entered in other competition is correspondingly large.

Mayor Parkhurst of Venice will roll the first ball Saturday night. Chief of Police McCausland, Mayor Berkeley of Santa Monica and Thornton Kinney will also take part in the demonstration which will officially start the balls rolling.

All of the present title-holders will be on hand to defend their laurels. The San Jose five-man team, last year's winner, recently returned from Chicago where it placed eighteenth in the American Bowling Congress, there being more than 2100 teams entered.

The Venice Billiard Academy holds the five-woman team title, while Oteri and Cantelow of San Jose are the championship doubles team. R. A. Whitney of Oakland is singles champion.

Entries have been received from Salt Lake and Spokane. San Diego is sending nine teams. Marco Hellman, local banker, has personally financed six Los Angeles police teams and these will all compete in the first play Saturday night.

The tournament is scheduled to continue until May 16. Vincent B. Hayes, president of the Pacific Coast Bowling Congress, is down from San Francisco for the matches. Last year's congress was held at San Jose.

POET PREP NINE IN WIN OVER PASADENA

By staging a rally in the seventh inning yesterday the Whittier High School nosed out the Pasadena preps, 13 to 8. The game, which was played at the Whittier diamond, was a see-saw affair, and only by bunching four runs in the seventh round did the home team cinch the battle. McCaslin's two-bagger, scoring Blackman and Stratton, put over the tallies that won the game. Hill was the shining light on the mound, whiffing six men for the winning team.

Malone Given Decision Over Augie Ratner

[BY A. P. NIGHT WIRE]

BOSTON, April 23.—Jock Malone of St. Paul received the judges' decision at the end of a ten-round bout with Augie Ratner of New York here tonight. The decision was unpopular with the crowd. Malone weighed 155½ and Ratner 158¼.

The St. Louis Browns' outfield combination consisting of Williams, Jacobson and Tobin is starting its sixth consecutive season.

Made for Men
Who seek these results from Shaving Cream
By V. K. CASSADY, Chief Chemist

GENTLEMEN:

Some years ago we set out to create the ideal Shaving Cream.

We were qualified, as you know. This laboratory is 60 years old. It has created, for every purpose, some of the greatest soaps. One of them has become the leading toilet soap of the world.

First we asked 1,000 average men to tell us what they most desired.

Then step by step—by making and testing 130 separate formulas—we met those desires to the utmost.

The result is a new attainment, better in at least 5 ways than any shaving cream you know.

Men have welcomed it as they never have welcomed anything else in this line. Millions of delighted men have changed from old-type shaving creams.

So will you when you know.

The results men wanted

Abundant lather. Palmolive Shaving Cream multiplies itself in lather 250 times.

Quick action. It softens the beard in one minute.

Lasting lather. It maintains its creamy fullness for ten minutes on the face.

A clean shave. The extra strong bubbles hold the hairs erect for cutting, so they don't lie down.

No irritation. The palm and olive oil content leaves the face in fine condition.

Let this test prove that we have secured these wanted effects—as no one else has done. Do this in fairness to yourself and us. Clip coupon now.

To add the final touch to shaving luxury, we have created Palmolive After Sh

GAS BAGS OFF IN LONG RACE

Seven Balloons Leave Kelly Field in Texas

Last Entry Cuts Loose Hour Behind the Pilot

Air Monsters Headed Little Northwest of North

[BY A. P. NIGHT WIRE]

SAN ANTONIO (Tex.) April 23.—The pilot balloon in the national elimination balloon race left Kelly Field at 4:43 p.m. and headed a little northwest of north. It is piloted by Lieut. George W. McEntyre, who has for his aids Lieut. C. S. Woolsey, both of Brooks field.

Capt. H. E. Honeywell, piloting the Kansas City Co-operative Club balloon, followed at 5:19, and B. H. Fournier of San Antonio, piloting his own balloon, which is of only 50,000 cubic feet capacity, at 5:22. Honeywell's aide is Capt. T. E. Boudenot of Kelly Field and Fournier's aide is H. E. Mills of San Antonio. Both balloons headed in a northerly direction.

Maj. Norman W. Peek, piloting United States Army balloon No. 1, left the balloon park at 5:32 o'clock. His aide is Lieut. William A. Gray of Scott Field. Peek's headquarters are at Akron, O.

Lieut. Ashley C. McKinley of Scott Field, piloting Army balloon No. 3, got into the air at 5:39 without difficulty, the big 50,000-foot globe rising directly over the huge crowd of spectators, estimated at 65,000. His aide is Lieut. Lawrence A. Lawson. Both are from Scott Field.

Two minutes late Capt. Edmund W. Hill and his aide, Lieut. James P. Powell, both of Scott Field, flying Army balloon No. 2, got away.

At 5:42 p.m., W. T. Van Orman, piloting Goodyear III, entered by the Goodyear Tire Company, left the field. The aide is C. K. Wollum.

The last balloon left the park at 5:53 o'clock, piloted by Herbert Von Thaden. The balloon is entered by the Detroit Aviation Club. Von Thaden's aide is Svend A. U. Rasmussen.

YANK RUGGERS LOSE

[BY CABLE AND ASSOCIATED PRESS]

LONDON, April 23.—The American Olympic Rugby football team was defeated by Black Heath at Peddington today, 12 to 9.

ENGLISH OVALS
CIGARETTES

AT clubs, tobacconists and taverns, the growing smoke among knowing smokers is English Ovals. Philip Morris blends them in the good old English way—a blend that makes a friend with the first spark from the tinder.

They're mild beyond words—which, know ye, is *mild*. And they're even mellower than that. Say "English Ovals Please"—*and they will!*

Blended in the Good Old English Way
PHILIP MORRIS & CO. Ltd.

MRS. ROOS IN SEMIFINALS

[BY A. P. NIGHT WIRE]

BURLINGAME, April 23. Mrs. Robert A. Roos of the Beresford Country Club, defending her title, won her way today into the semifinals of the Northern California women's golf championship play by defeating Miss Alice Knowles, Claremont Country Club, 5 and 4.

Oxy Swimmers Meet Franklin Mermen Today

The Occidental swimming team will splash water today in their first dual meet of the season. The Tigers are scheduled to take on the Franklin High mermen in the Pasadena tank, in what should be a well-balanced tilt. This match will be somewhat of a dope marker for the Bengals, as they are practically all new men and what can be expected of them is not quite known.

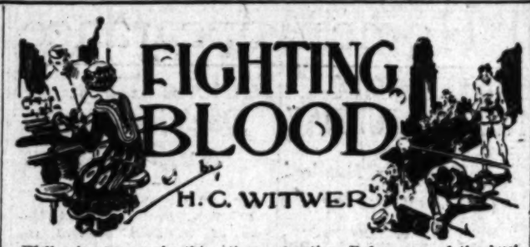
Parameter, the only veteran, will swim the 100 and 50-yard sprints, aided by Strajer and Hall. Larry Raymond will hold down the 220-yard dash and also the 50-yard breast stroke. Wilshire is the best bet in the 440, while Jacobson will plunge for distance. The relay team will contain Parameter, Hall, Raymond and Strajer.

WAR DECLARED ON PARIS "PROFITEERS"

[BY CABLE—EXCLUSIVE DISPATCH]

PARIS, April 23.—The first big battle against Olympic games profiteers, Parisians' new enemy, raged today when sixty stubborn, angry tenants refused to be ejected from an unfurnished apartment-house which the owner wishes to transform into a hotel for American visitors to the Paris games. French lawyers and police officials of various sorts vainly tried to make the tenants accept the ejection order, but all refused with volleys of picturesque French profanity.

FIGHTING BLOOD



H. C. WITWER

Well, along around this time the New York papers is full of nothing but the big merger Mr. Brock has brought about among the locomotive manufacturers with him at the head of the whole business. His picture is printed alongside of Rockefeller, Morgan, Ford, and a couple of other fellows which has promising futures, and he's spoken of as one of the richest men in the world. When he comes back to Drew City from putting over that merger in New York, he gets a reception like a king gets—in a movie—and it tickles him silly. It seems millionaires is human beings, even as you and me. So he turns right around and makes the town a present of a quarter-million-dollar hospital and he couldn't of give them nothing more to the point, because the hospital they already had there wasn't equipped to handle nothing more serious than, say, dandruff or chapped hands.

Well, the day the corner stone was laid is a day me and Drew City won't forget for a long time. Mayor Baxter pronounces it a legal holiday and the whole burg turns out for the ceremonies. Eddie Granger's Vesper A.C. Brass Band had a field day, the streets is buried under flags and bunting and speeches flowed like water. The principal spellbinders, as usual, was Lem Garfield and Judge Tuckerman. When they got through doing their stuff, Mr. Brock tied in. Then comes the big surprise of the day—to me anyways. I am sitting on the speaker's platform with Spence and Judy when Mr. Brock finishes his speech amid a tornado of applause. He turns around and sees me and a big smile spreads itself across his face. Then he nods for me to come over to him. I can't imagine what he wants with me out there before all that crowd of mingled friends and enemies, but up I get and walk over while the mob looks on in astonishment. Mr. Brock lays one hand on my shoulder and holds up the other one for silence. He gets immediate service, like usual.

"Fellow citizens!" he says, in his booming voice. "I wish to bring to your notice the most interesting object in Drew City—Mr. Gale Galen. Yesterday a penniless, friendless, ambition-driven wanderer; today, world's champion light-heavyweight boxer with a modest fortune and a handsome income; tomorrow who knows? Who can say to what heights this remarkable young man will go? He is still a mere boy, yet consider what he has already accomplished. You young men who are ambitious and determined to make your mark in the world, don't waste your precious time reading the lives of successful men, written by flattering biographers, observe the progress of Gale Galen, use him as a living textbook, for one day you will be proud of having produced him in Drew City!"

Well, that's just a preliminary. He says a lot more about me, while my face gets so red I bet you could of saw the reflection a mile away. When he finishes, Spence starts some applause which grows till it gets to what the "Daily Sentinel" the next day calls a ovation.

Mr. Brock's speech about me makes a awful hit with Spence, Judy and her mother. They act as proud as if I had really did something to deserve all that praise from a man like him. But it likewise made me a few more enemies, as envy is a staple product of a small town. But in particular, it broils Rags Dempster and his father. They already hated me, and after Mr. Brock got done telling the world what a knockout he thinks I am, why, their feelings for me before was infatuation alongside of the way they loathe me now.

The first comeback I get from the effects of Mr. Brock's speech on them babies is when the Board of Trade puts on the ice for me and my partners. Although we are owners of a theater in the town, we are not called into any of the conferences the board holds with the other business men for the praiseworthy purpose of making the natives blow their dough in Drew City instead of taking it into New York. They frame up all kinds of schemes, bargain days, "Help Local Merchants!" weeks, and this and that, inviting all the other storekeepers to turn in ideas, but they don't give us a tumble. When I go around to solicit ads for our screen, the only guy I can line up is old Ajariah Stubbs. The rest of these bozos just laugh me off.

I don't have to consult a fortune teller to find out what all this means. Sore at the interest Mr. Brock is taking in me, Rags and his father is simply bearing down on me through the Board of Trade, hoping I'll get discouraged and leave town. But, they didn't know me as well as they thought they did! Of course, this stuff annoys me, but the ring ain't the only place where I can take punishment. In fact, I don't get good till the going gets tough! So I go right ahead planning publicity stunts and business getters for our theater, giving the customers as much as I can for their jack and still make money. It ain't long before I had built up a regular trade which packed the place every night. The mob was all pleased and me and Nate and Kayo was winning dough on our investment.

Then one day Mr. Brock wants to know why I don't appear at the Board of Trade meetings with the other business men. I am no squawker, so I simply says I have never been invited and let it go at that. He gives me a shrewd look.

"Never been invited, eh?" he says, frowning. "So that's the way the wind blows. Well, son, you will be invited!"

"I don't think so, sir," I says. "I can't make them like me if they don't want to."

"No?" he says sharply. "Well, I can! There will be a meeting of the board at 10 tomorrow morning. Be there!"

As life to me those days was just one big surprise after another, it took a whole lot to give me a kick, but what happened at that Board of Trade meeting the next day furnished me with a thrill I'll be a long time forgetting. The board appears astonished at seeing me in the hall, but before Mr. Brock got through with 'em they was double dumbfounded. He's president of the board, but seldom shows up at the meetings, as he's too busy with his other interests. When he does show up the fur flies, and this day was no exception. Before any of the business of the meeting could get under way, Mr. Brock calls 'em to order. Then he takes the floor, with me standing beside him.

"Gentlemen," he says, "let me introduce Mr. Gale Galen, proprietor of the Judith Theater, on Main street, and one of the most promising young business men of Drew City. He would be a credit to any city and should be encouraged to stay here and assisted to prosper. I want to see him at these meetings, because his youth, enthusiasm, and ambition will probably make this a real Chamber of Commerce, instead of a gathering place for knockers and calamity howlers as it is now. I therefore, move that Mr. Galen be appointed a member of this board!"

That goaled 'em!

Rags Dempster's father looks like he's on the brinks of death from apoplexy, and my enemies rallies around him, bawling angry protests. Mr. Brock says nothing at all, leaving it to the bootlicking jassboos which worships the ground he walks on to take his part and mine. At the end of a boisterous half hour I have been elected to the Drew City Board of Trade by a vote of 20 to 4.

Old Man Dempster immediately resigns and takes the air.

Well, now that I was out of the ring I didn't have to train no more and I found time hanging heavy on my hands. I never was born to stall around, that's a cinch! Even if I had a million I'd find something to do and don't think I wouldn't, but as things stood then I was far from a millionaire. I lost a frightful bunch of jack promoting that fight with Gunner Slade, and the fire we had in our theater also put a heavy dent in the old bank roll. I'm commencing to get worried and restless. The papers is still riding Nate for not matching me with somebody, and of course, Nate's still riding me.

Not only are my hands itching for the feel of the padded gloves, but I actually need the money. So I make up my mind I'll take a long chance and tackle Judy on the subject of box fighting again, not that I got much hope that she'll remove the ban, but a marvelous offer from a big New York promoter for a fight drives me to doing something. So one day in the office I put it up to Judy cold.

"Eh—say, Judy, would you mind if I went back to the ring for just one more scuffle?" I stammers, losing forty pounds of nerve with every word as she stares at me with wide open eyes and a gathering frown between 'em.

"I thought we were all through with that subject, Gale," she says in kind of pained surprise. "You are well started on a business career, a member of the Board of Trade, your theater is making money, and—"

"Just a minute, Judy," I butt in. "The theater is making money all right, but when the profits is divided between me and Nate and Kayo Kelly, why, none of us gets enough to go wild about. As far as being started on a business career is concerned, maybe I am, but I don't think I got the right kind of a start. In other words, I feel that to wind up merely as part owner of a small-town picture theater, after all my trials and tribulations, is much ado about nothing, as Willie Shakespeare says!"

Judy don't say a word. She just sits there looking out the window at Drew City and tapping her desk with a lead pencil. So I took heart and trot out some more facts and figures.

"I wouldn't of mentioned the adjective box fighting to you, Judy, under no circumstances," I says, "only Nate's got a offer for me to fight Jack Martin, this new sensation which has been flattening one and all of the light-heavyweight class. There's $75,000 in it for me and with that amount of jack added to the little dough I already got I could go into some business with a more exciting future to it than running a picture theater in Drew City. Seventy-five grand would be important money to Rockefeller, and I certainly can't dismiss it with a curl of my lip!"

"Nevertheless, Gale," says Judy, swinging around and facing me, "if you return to the ring, our—our friendship comes to an end. There is no use arguing about it because I will never change on that point. The picture theater is only a beginning, and you are young. With Mr. Brock's influence and your own prestige here you have a splendid and honorable career facing you. If you go back to the prize ring, you will lose all of that—everything you have been striving for—"

"Including you, Judy?" I butt in.

"Including me!" she says—and then, her face suddenly flaming red, she flounces out of the office.

Well, I'm in a fine state of mind and don't think I ain't. I don't want to lose my chances with Judy no more than I want to lose my neck, but at one and the same time I can't get no kick out of my position in life then, no fooling. However, I let the subject drop as far as Judy is concerned and continue studying every book I can lay my hands on and attending lectures with her at Columbia's College, New York.

In the meanwhile Rags is put in charge of the carpet factory by his father, which is forced to go to Europe for his health, according to the Drew City "Sentinel." However, a few days later it comes out in the New York papers that he just dropped $300,000 in Wall street, so I guess he went across the bounding main to get over his dizziness, and I don't blame him. Anyways, old Mr. Dempster must of been still suffering from shell shock when he made Rags manager of his rug plant, because Rags is no more fit to handle men than I'm fit to handle Dempsey. He ain't been on the job a week before he brings about a strike through his surliness, inexperience, and high-handed methods of dealing with trained workers which had been years on his father's pay roll. So for the first time in its history the Dempster and Company mill shuts down. Then Rags pulls the boss boner of a lifetime devoted to making boneheaded plays. When a delegation of the men comes to pay him the honors of a visit, Rags refuses to treat with 'em, calls 'em ungrateful hounds, and slams the door in their faces. Not satisfied with a stunt like that, this 87-carat dumbell brings down a lot of gunmen and the like from New York to take the places of the strikers at about twice the wages the old hands was getting.

Then the fun began!

At first, the strikers just parade and hold mass meetings. Then one morning Rags drives down to his office and discovers every window in the factory has been broke during the night. After that a couple of mysterious fires in the plant is just discovered before they get going good. This would of been the tip-off to anybody but a egg like Rags that the time had arrived to get a rush of brains to the head and talk matters over with the strikers, before they quit kidding with him and do something serious. But Rags is one of these thick-headed babies which has got to die of pneumonia before they learn that neglecting a cold is dangerous. He keeps on aggravating the men till he's got 'em all ugly enough to cook him and one night they try to do that.

I am buzzing along the State road near the carpet factory in my car with Judy when we hear a yelling and shouting like I've often heard at a ringside when a fellow is getting knocked stiff. The next minute we swing around a bend and I got to jam on the emergency brake to keep from running into a howling, milling mob which completely blocks the road. A lot of them is running around tearing open pillows and gathering up the feathers, and on one side is a barrel of boiling pitch. Two fellows is prancing around with a long fence rail between 'em, hollering for the others to speed things up. None of 'em gives me and Judy a tumn.

"What's all the excitement?" I call to one fellow which comes up with his arms full of feathers.

"We got this young Dempster skunk," he snarls, "and we're gona teach him he can't take the bread and butter out of our mouths and get away with it. We're gonna tar and feather the yellah dog!"

"And ride him on a rail out of town!" adds another ex-carpet weaver joyfully.

Judy gasps and I must say for a split second I felt highly tickled. Rags has double-crossed, framed, and fouled me so often that I wouldn't be human if I didn't get a kick out of seeing him get the worst of it, a reward he richly deserves. I step on the gas and start to steer my bus back through the mob and then all of a sudden I stop dead. I don't know what's the matter with me, but I'm simply crazy about fair play! If just one guy had wanted to tar and feather Rags I would of declared the scheme a good thought and wished him the best of luck, but there's over 200 of these strikers, and 200 to one is no fair, not even against a Rags Dempster, now is it? So I dash out of the car and shove my ways through the crowd. I know nearly all of 'em and all of 'em knows me and even in the excitement they make room for the world's light-heavyweight champion.

Rags is in the center of the mob and he sure looks like he's been through the mill, he does for a fact. Half his clothes has been tore off by willing hands, his chalk-white face is all bruised and scratched and two or three husklies is pushing him around between 'em like he's a medicine ball.

"Lynch him! String him up! Get a rope!" they commence to howl on the outskirts of the mob.

Rags looks wildly about, recognizes me all of a sudden and grabs me. "Save me, Galen, save me—they're going to kill me!" he babbles.

The fellows around him falls back and glares at me. Some of 'em jostle against me, and I backed away carefully, pushing Rags behind me. I didn't make the mistake of hitting nobody. That would of spoiled everything—including me.

"Well, what are you buttin' in for?" growls a big guy, shoving out his chin invitingly.

"I am butting in to prevent you babies from committing murder," I says. "I don't like this Dempster no more than you do, but if he dies as the results of your nursery sports here tonight the grand jury will indict the lot of you for manslaughter. What's the use of getting yourselves in a jam like that on account of a fellow like this? Look at him. He's half dead now—a total loss if there ever was one!"

There's plenty growling, but the ringleaders around me looks thoughtful. The mention of "manslaughter" and "grand jury" had cooled 'em off a bit and then at this critical minute Rags slumps down to the ground in a dead faint. The crowd begins to melt away around us and somebody tells the others which comes crowding up to see what stopped the festivities that Rags has dropped dead. That was enough! In twenty minutes there was nobody on hand but me and Rags and Judy and we drove the slightly shopworn young man home.

SEALS STOPPED BY KEN PENNER

(Continued from First Page)

the bat. Singles by Penner and Menosky, Blakesley's double and triples by Deal and Rod Murphy accounted for the rookie's christening. Vernon got another run in the eighth on a trio of singles, while the Seals got their final tally in the ninth on Agnew's two-base hit followed by Hunky Schorr's double to right. Kelly also got a single in this inning, but it didn't mean anyth'ng.

The Tigers yesterday announced the purchase of Pitcher William Vine, a right-hander from Cincinnati. Vine won twenty-one games and lost seven while pitching for the Binghamton club in the New York-Pensylvania League last year.

For hair that just won't stay in place—

try this

Today — look around you! Hair that is smooth, well-kept, always in place—that is what you find.

Stacomb is responsible for this great change. It has made straggly hair unnecessary.

One touch of Stacomb in the morning means soft, natural, perfectly-kept hair *all day long*. If your hair is dry and unruly, as most men's is today, you will find Stacomb what you have always wanted. Even after a shampoo, it will keep your hair just as you want it.

Women find Stacomb excellent, too, especially for bobbed hair. In jars and tubes, at all drug and department stores.

Keep the White Spot—White!

TWELVE YEARS AGO we began to manufacture DURARD desks in Los Angeles in a small way.

TODAY we have a large modern factory, equipped with the most up-to-date machinery, operated by a force of skilled and efficient artisans.

The patronage which made this growth possible came through the Quality and Superior Features of the product itself.

We would like the opportunity to show the business and professional men of this city why they can buy DURARD desks with entire confidence and in this way encourage a desirable industry of Los Angeles — and keep the white spot — WHITE!

RADIO NO RIVAL TO NEWSPAPER

Broadcasting Valuable Aid, Publishers Told

Smaller Units Give Way to Leading Outfits

Ample Supply of Newsprint is Predicted

[BY A. P. NIGHT WIRE]

NEW YORK, April 23.—No evidence that dissemination of news by radio would affect the publication or demand for newspapers was reported today by a committee on radio at the opening session of the annual convention of the American Newspaper Publishers' Association.

"At present the radio broadcasting stations of large newspaners engaged in this experiment," the committee reported, "can still be regarded as an expensive publicity feature producing intangible but undoubtedly valuable good will."

The report disclosed that although in October, 1922, there were 100 newspapers operating broadcasting stations, the number since had fallen to forty-five. This was due, said the committee, to the perfection of long range receiving apparatus, the wider influence of large central broadcasting stations with better programs and the consequent elimination of smaller local broadcasting units.

AMPLE PAPER

The American Newspaper Publishers' Association was assured by officers and committee heads that there would be plenty of newsprint available during the next year; that prices probably would remain at the present level, and that the outlook was for excellent transportation service.

"The newsprint situation is wholly favorable from the publishers' standpoint," said the association president, Paul Patterson of the Baltimore Sun, in his opening address.

He declared that "new problems that have arisen with regard to labor," the most serious difficulty of publishers during the year. He pointed out that in the three years the committee on arbitration contracts had existed, it had been able to conclude arbitration agreements with one printing trades union—the International Printing Pressmen and Assistants' Union.

SUPPORT URGED

Mr. Patterson urged the association to support the McKinley amendment to the Mellon bill, proposing re-establishment of the 1919 postal zone rates. He also spoke in opposition to the recommendation of Postmaster-General New to Congress that rates on second-class postal matters be increased sufficient to add $4,985,000 annually to Postoffice Department receipts.

A committee report which summarized a canvass of daily newspapers made during February and March, disclosed that 945 were running strictly union composing-rooms, 158 nonunion and 480 open shop; 820 pressrooms were on the open-shop basis and 745 union; 798 stereotype rooms were operating nonunion or open shop and 752 were union.

The report indicated, further, that there were 480 plants running all departments open shop, 722 all union and 150 nonunion.

NEW ZEALAND SHIP SERVICE CUT DOWN

VANCOUVER (B. C.) April 23. With many of the Canadian Government Merchant Marine steamers going on the United Kingdom and Montreal service from this port, New Zealand will be given a call only every other month. The Canadian Australian Royal Mail line has become only a fast mail and passenger line and is not expected to give New Zealand a lumber or low grade freight service. This leaves room for the Pacific Australian line to make good inroads into British Columbia lumber business as this line gives a regular monthly service to New Zealand.

Forever Sealed to Rest Undisturbed

Crypt Entombment in Reinforced Concrete, Faced with Marble, Provided by California Mausoleum Co.

Those whose thoughtfulness and consideration for their beloved dead have led them to lay their departed away in the beautiful Mausoleums in Inglewood and Hollywood Cemeteries have the intense satisfaction of knowing that as much as can be done has been done to perpetuate the inviolability of the deceased.

Individually entombed in solid reinforced concrete, faced with marble, in a structure designed to endure and grow more beautiful with age, bodies laid away under such conditions are inviolate. Perpetual endowment for maintenance of dignified and tasteful surroundings completes the imposed trust, so far as human hands and hearts can provide.

Whoever has seen a deserted graveyard, or one that has been surrounded by a city's noisy growth, can appreciate the advantages, to the living as well as the dead, of the methods provided by the California Mausoleum Company in its two chaste "Temples of the Dead" — and will respect them. They are not for the rich only — crypts may be had for little more than ordinary burial would cost. Telephone MAin 1534 for the beautiful booklet issued by the Company, wherein by word and picture the details of the Mausoleum idea are explained. The offices of the Company are at 206 Harris Bldg., 110 West 11th St.—[Advertisement.

GLOBE TRIP JUST STROLL TO HIM

Champion of Street Car Skippers Has Gone 1,822,500 Miles

[BY A. P. NIGHT WIRE]

CHICAGO, April 23.—Almost 2,000,000 miles on a street car is the mileage record claimed by Edgar Dickens, 74 years of age, for fifty years a Chicago motorman. Dickens reckons that in horse cars, cable and electrics, he has gone 1,822,500 miles.

CHURCHES IN ARIZONA ASK DRY BORDER

Strip Fifty Miles Wide on South Side of Border is Plea by Presbytery

[EXCLUSIVE DISPATCH]

PHOENIX, April 23.—At a recent meeting of the Presbytery of Southern Arizona at Globe, Rev. A. G. Cheney, superintendent of the Presbyterian Mexican mission at Warren, was elected moderator, and Rev. F. J. Hart will represent the presbytery at the General Presbyterian Assembly in Grand Rapids, Mich., on May 22. The presbytery passed a resolution urging that the United States be asked to close the border at 8 p.m. every day, and that a dry border fifty miles wide, south of the international border be established.

The new Trinity Presbyterian Church building at Tucson will be started at once. The first unit will cost about $40,000, and will be ready for occupancy October 1. Plans have been made for a structure that will cost about $150,000. Rev. B. Wrenn of Webb, executive of the Arizona synod of the Presbyterian Church, will have his residence in Tucson. He is from Dallas, Tex., where for five years he was executive of the Texas synod.

Grace Episcopal Church at Tucson is being remodeled and enlarged at a cost of $12,000, of which $5000 is a legacy from Miss Nellie Pomeroy, who died last year.

A parish house 32x80 feet, containing an auditorium, guild room and rector's room is being built by the Episcopal congregation in Douglas.

Rev. A. O. Hulshaw, late of Florence, Colo., now is pastor of the Globe Christian Church. Rev. Otto Scheibe of Pomona, Cal., has accepted the pastorate of a Congregational Church at Tombstone. Rev. W. T. Loomis, formerly pastor of the Methodist Church at Williams, has accepted a call to the Garfield mission in Phoenix.

Rev. John P. Frey of the Lutheran Church, for two years a pastor in Phoenix, has resigned, and will be succeeded by Rev. H. W. Koch of Prescott. Rev. H. C. Jones will take charge of the Murphy Congregational Church near Phoenix, and also will supply Tombstone and Mayer.

Twins Drink as One, Appear in Court as One

[EXCLUSIVE DISPATCH]

DETROIT, April 23.—Everything they do they do together. In fact, Ronald and Thomas McCaffrey, 28-year-old twins, are so devoted to each other they drink out of the same bottle, police said.

Because they were inseparable, the twins were locked up on charges of drunkenness. It all came about at 2:30 a.m. when a motorman left his trolley car and running up to Patrolman Henry Morgan informed him two men were blocking traffic by refusing to move from the tracks.

Morgan found two men sitting on the curb. Each held his head between his hands and wept disconsolately. When the patrolman approached they looked up in unison. Together they were taken to the station.

"We're twins," the taller of the two told the lieutenant, "and everything we do we do together."

"Good," replied the lieutenant. "I'd hate to see you break that rule, so you'll both appear in court together."

EVIDENCE IS TAKEN IN STEEL MILL CASE

[BY A. P. NIGHT WIRE]

SAN FRANCISCO, April 23.—Evidence was taken here today by Federal Trade Commission Examiner Dinnen in proceedings instituted by the commission into operation of the Steel Mill and Foundry Supply Company, formed in 1922 by steel mills in Seattle, Portland, Oakland, Los Angeles and Phoenix. The Steel Mill and Foundry Supply Company acts as purchasing agent of steel and iron scrap. Similar hearings have been conducted in Phoenix and Los Angeles.

BROKER RETURNED TO FACE CHECK CHARGE

J. E. King, a stock broker, was brought back from Santa Barbara yesterday by Assistant Captain of Detectives Winn and Detective Lieutenant Curtis to face trial on a charge of passing a check without sufficient funds. It is charged that he gave a check to a local hotel, which was later returned by the bank. King said he did not know his account had been exhausted.

REFORESTATION BILL IS PASSED BY HOUSE

[BY A. P. NIGHT WIRE]

WASHINGTON, April 23.—Ex[illegible] of $2,700,000 annually to the Secretary of Agriculture for protection and reforestation of timberlands would be authorized under a bill passed by the House today and sent to the Senate.

CITY HEAD, REBUFFED, QUITS JOB

Mayor of Sierra Madre Resigns When Successor is Chosen by Board

[LOCAL CORRESPONDENCE]

SIERRA MADRE, April 24. — Robert Mitchell, who for six years has been Mayor of Sierra Madre, resigned today following a clash with the City Board of Trustees. A successor will be appointed by the Trustees next Thursday evening.

Every two years the Board of Trustees meets to elect a Mayor. For six years Mr. Mitchell has been re-elected to that position without opposition. Last night the Trustees met for the same purpose, but Mayor Mitchell was not re-elected. He resigned immediately thereafter.

Last week at the municipal election Earl D. Topping, leader of the faction opposing Mayor Mitchell and his policies, was elected to the Board of Trustees. At the meeting last evening Mr. Topping nominated J. D. Sparks for the position of Mayor and succeeded in having him elected.

On numerous occasions during the last six years Mayor Mitchell has been criticised for some of his policies. During the recent sanatorium disagreement he was asked to resign on numerous occasions. Each time he refused.

Mayor Mitchell had two more years to serve on his present term of office. J. D. Sparks, the new Mayor, is a retired minister and is an active worker in the Congregational Church. He is also well known as an orange grower.

Underneath where irritation starts

the real trouble is reached and soothed away

DO NOT expect ordinary surface remedies to remove a rash, eczema or itching skin disorder. Not on the outside, but down in the under layers of the skin is the real trouble.

Pores clogged with poisonous germs, body cells and tissues swollen and inflamed — these are what must be soothed back to normal before a skin disorder will disappear.

Yet there is a way that brings almost immediate relief. To cleanse the pores, kill germs, and start the skin again acting normally, physicians have for twenty-eight years been prescribing Resinol in their daily practice.

If you have today any spot, rash or irritation on your skin, apply this soothing, healing Ointment. Spread a coating on the affected surface and smooth it in very gently with the fingers. One application will, in many cases, stop the itching completely. Resinol is absolutely harmless. It will not irritate an infant's delicate skin, or even raw exposed flesh. Get a jar at your druggist's today, or send for a free trial sample to Dept. 26, Resinol, Baltimore, Md.

Microscopic cross-section of the layers of skin. It is in the under layers that the irritation lies.

Investigation Meanwhile to be Long Dragged Out

[EXCLUSIVE DISPATCH]

WASHINGTON, April 23.—With bonus legislation out of the way one of the next battles in the Senate will be the disposition of the contempt cases against Mal S. Daugherty, brother of the former Attorney-General, and Howard Manington of the "little green house on K street" fame.

A radical procedure will be followed here if the resolution which is being prepared by orders of Senator Smith W. Brookhart, chairman of the Daugherty investigating committee, and Senator Wheeler is adopted against the opposition which the Daugherty forces are mustering. The Brookhart-Wheeler plan is to bring Daugherty to the bar of the Senate and keep him constantly in custody until he agrees to produce the books of the bank in Washington Court House, O., where secrets of the Daugherty family finances are held.

FIGHT PREDICTED

A counter-resolution citing the case to the District Attorney, as was done in the Harry Sinclair case, is also in sight, with a battle on the Senate floor certain. The question involves the whole power of the Senate in the investigations and is a case with few, if any, precedents. The committee has retained Washington lawyers to prepare the resolutions and arguments.

With the former Attorney-General on the warpath in Ohio, calling the Senators who have attacked him Bolsheviks and enemies of their country, the Brookhart-Wheeler committee is showing no disposition to shorten or stop the inquiry, and another month of testimony is in sight before the "defense" will have a chance.

The Wheeler indictment committee with Senator William E. Borah as chairman assembled this morning to hear the testimony of L. V. Beaulieu, Los Angeles attorney, formerly retained by the Gorney, Campbell interests of Montana. The indictment charges that Campbell paid Senator Wheeler to represent him before the Department of the Interior in oil permit matters.

Senator Thomas Sterling of South Dakota appeared in the role of prosecutor of Senator Wheeler. Behind him sat Blair Coan, the investigator sent to Montana by George Lockwood of the Republican National Committee.

The witness said he had been employed as Campbell's attorney in Montana from October 1, 1922, to September 1, 1923. He said he was chief counsel for Campbell and took care of all his titles.

"Did you have any conversation with Senator Wheeler about what he thought of certain government permits?" asked the chairman.

"Yes."

OBJECTION WITHDRAWN

Senator Sterling objected to the conversation being repeated.

"It might not be in Senator Wheeler's favor," said Chairman Borah. "It is my intention to limit this hearing to legal evidence and if you object I will not permit it."

Senator Sterling withdrew his objection and the witness said:

"Wheeler lived in Montana where they speak plain. He said: 'I don't know a — thing about government permits—would not know one if I saw one and I don't want a thing to do with government land. I told Campbell that I would only appear in the State courts.'"

Mr. Beaulieu said he drew most of his pleadings in the State cases for Campbell and was a little hazy as to just what the Wheeler firm did.

"Campbell doesn't like lawyers and when he hires one he hires two or three others to watch him," he said. He said Campbell owed him money and had assigned to him a land lease which had previously been assigned to some one else on the payment of another debt.

Senator Sterling, reading from a long typewritten memorandum which had been furnished him, asked the witness many questions about whether Campbell had controlled more acreage than he was entitled to under his permit. He also asked regarding a letter which Edwin Booth, former solicitor of the Interior Department, had written to Campbell, giving detailed information as to what must be done in Washington about the Campbell leases.

The chairman objected to many of the questions on the ground that Senator Sterling was asking for "hearsay" evidence and confined the questions strictly to what the witness knew, which was little along these lines. He insisted that Wheeler had not acted for Campbell in any permit matters but that a Washington law firm had been employed for this purpose.

Another session will be held tomorrow.

WHEELER REPLIES TO DAUGHERTY'S CHARGES

[BY A. P. NIGHT WIRE]

WASHINGTON, April 23.—Replying to recent criticism by former Atty.-Gen. Daugherty of the Senate investigation, Senator Wheeler, Democrat, Montana, prosecutor of the Daugherty committee, declared in a statement tonight that "the evidence thus far adduced from the committee is but a drop in the bucket."

"The 'achievements of the Department of Justice' of which Mr. Daugherty boasts," he added, "cannot be fully revealed until the Ohio gang, known at Columbus as 'us boys' and numbering almost a dozen high officials in the department, is ousted."

SEEK REDLANDS' FINEST ROSE

Judges to Visit Gardens of Millionaires and Lowly Cottages

[EXCLUSIVE DISPATCH]

REDLANDS, April 23.—Where will the most perfect rose among the millions in Redlands now be found, in the garden of the millionaire or the humble rose plot of some cottage?

This is the main competition event for the annual spring flower show which is to be conducted this week. A beautiful cut-glass rose vase will be the award for the most perfect rose that is found in Redlands this year. There are millions of roses here now and most of them seem perfect.

Size counts for but ten points, form counts for thirty, the condition of the stem for fifteen and of foliage, fifteen, making the perfect, 100.

"Dying" Fiance Fined for His Ardent Wooing

[EXCLUSIVE DISPATCH]

DETROIT, April 23.—Informed by her brother over the telephone that Jack Horne, her former fiance, from whom she had recently been estranged, had taken poison and was dying, Miss Ellen Cohill, 21 years of age, hastened to his home in a taxicab.

But instead of at death's doorway, she found him emerging from his own, and with eagerness and alacrity.

When she attempted to regain the taxicab to drive away, Horne seized her.

In Judge John Faust's Court Horne said he was merely trying to make peace with Miss Cohill.

Unfortunately for Horne, however, his method of making the peace appealed to eyewitnesses as being peculiarly suggestive of breaking it. They called the police and Patrolman Frank Burke arrived on the scene just as Miss Cohill fell from the arms of her too ardent suitor to the ground. At least Horne said she fell. Miss Cohill testified Horne knocked her down.

Judge Faust took Miss Cohill's view of the matter and fined Horne $15 or ten days.

SACRAMENTO RIVER CONTROL SUGGESTED

WAR DEPARTMENT WARNS NAVIGABILITY MUST BE PRESERVED

[BY A. P. NIGHT WIRE]

SACRAMENTO, April 23.—An intimation that unless the water users along the Sacramento River agree on the establishment of a water master and on certain other agreements, the War Department way feel called on to maintain navigation on the river to the extent of prohibiting water diversions during the coming summer was contained in a letter from Maj. U. S. Grant, district engineer of the War Department, made public today by George J. Bradley, chairman of the river committee of the Sacramento Chamber of Commerce.

"The War Department does not wish to take such action," the letter said, "if its postponement can be justified. . . . However, if those who divert water from the river persist in doing so regardless of the rights which the War Department is supposed to protect, and if no measures are taken to use economically the little water available and to reduce diversions to the minimum necessary, it is quite possible that the War Department will feel itself called upon to intervene and take action for the protection of the navigability of the river."

Bradley expressed the belief that the water users, at a meeting here tomorrow, will clear up the situation and reach an agreement along the lines desired by the War Department.

OBJECT TO GLAD HAND

Police Handcuff Candidate and Order Him from Town

[EXCLUSIVE DISPATCH]

BERWICK (Pa.) April 23.—Handcuffed, taken to his automobile and ordered out of town when he resisted arrest, because several local women objected to his electioneering, William Miller, Mifflin township, candidate for the General Assembly, is pondering the difference between soliciting women's and men's votes.

Miller appeared in Berwick with his election cards. He stopped women on the street, shaking their hands heartily and asking their votes. Some women rebuffed him and complained to the police. Miller was warned he was becoming a nuisance, according to police, but doggedly persisted, declaring "this is a free country."

The police finally became angered and handcuffed him forcibly, giving him his choice of leaving town or being jailed.

DRIVE FOR STREET DECORATIONS OPENS

[EXCLUSIVE DISPATCH]

PORTERVILLE, April 23.—Work was started today by the Citizens' Committee, headed by W. C. Little, to raise $2000 in subscriptions to provide a fund for permanent and uniform decoration of Main street for all patriotic occasions. This committee is composed of representatives from the American Legion, Chamber of Commerce and Merchants' Association. The plan, as inaugurated by the American Legion, calls for at least 200 large American flags on staffs to be placed in holes bored in the cement sidewalks along either side of the street at intervals. Streamers and smaller flags for overhead decorations are also included. The American Legion started the fund with a subscription of $300.

HANGMAN THWARTED BY SUICIDE

Confession of Brutal Wife Murder Followed by Leap to Death

[EXCLUSIVE DISPATCH]

CHICAGO, April 23.—James Petrucci, alias De Joy, who last night after hours of grilling at the detective bureau confessed in broken English to having lured his wife, Anna Kohnke Petrucci, whom he bigamously married, to the forest preserve near Riverside, Ill., and there brutally murdered her, cheated the hangman today by plunging through a window to his death.

The self-admitted murderer was being posed on the third floor of the detective bureau preparatory to having his picture taken when suddenly he tore from his captors and plunged headlong through the window to the street below. He dived head first and so quick was his leap that Sergt. Benjamin McCarty, standing near the window, was unable to grab him.

His body was picked up on the sidewalk.

Arrested yesterday, Petrucci vigorously maintained that he had never known Anna Kohnke, his bride of last November. Finally under a severe grilling he admitted luring his wife into the woods. He said that during a quarrel he stabbed his wife in the throat, then severed her head, wrapped it in a newspaper and hid her body in the brush.

During his recital of the grewsome murder Petrucci completely lost control of himself.

ONE FOR THE FILMS

Applicant for Jail Bed Leaves Call for Six-Thirty

BOSTON, April 23.—Michael J. Lyons of Condon street, East Boston, walked into the East Boston Police Station in slightly intoxicated condition and asked for a place to sleep for the night. The sergeant on the desk was obliging and gave him a police escort to one of the cells downstairs.

As he was leaving the desk Lyons turned to the sergeant and said: "I would like to be called at six-thirty tomorrow morning."

"It isn't the usual custom," returned the sergeant, "but I will see that you are called." Lyons walked down to his cell and went to sleep.

HOSPITALITY DECLINED

Lack of Niceties in Russian Trade Visitors Irritates British

LONDON, April 23.—The delegates of the Russian government who came to England to negotiate with the British government on propositions attendant on the recent recognition of Russia by England maintain the same irritating lack of diplomatic niceties that has so exasperated this government ever since it started to deal with the soviets. In the first place the Russians declined to accept British hospitality in the way of hotel accommodations, which even the Germans accepted when they came here almost three years ago for negotiations. But more than that, the arrangements for the conference were continually held up because the government here could not ascertain when the Russians would arrive or when they would be ready to begin negotiations. As usual, however, the British government declined to be perturbed and simply waited till they came.

VISITOR SCORES CHINESE LEADER

Social Worker Says Nation Would Welcome Change

Asserts President Tsao Kun Lacking in Character

Believed Danger of Foreign Conflict Not Passed

[EXCLUSIVE DISPATCH]

VICTORIA, April 23. — "President Tsao Kun of the Republic of China has neither education, backbone nor character, and the whole nation would welcome a change from a nominal leadership in which it never had any confidence," declared Dr. David Qui, administrator of the Chinese Y.M.C.A. at Shanghai, who arrived here recently on the Admiral oriental liner President McKinley.

Dr. Yui, a graduate of Columbia University, New York, is on his way to the United States with his family to spend a six months' leave of absence efrom his duties.

"It is a commonly accepted fact that Tsao Kun bought his way into the Presidential chair," stated Dr. Yui when asked how such a man as he described could have attained to the leadership of the Chinese nation. "He started life as a common soldier. He amassed a huge fortune through devious means, and it was this fortune which bought for him the support of Gen. Wu Pei Fu's army and sufficient votes for election to the Presidency.

CALLS HIM PUPPET

"Now he is but a puppet in the hands of Gen. Wu Pei Fu, for civil power in China is impossible without the support of an army."

Dr. Yui does not think that Gen. Chang Tso Lin, dictator of Northern China, with headquarters at Mukden, in Manchuria, would launch his much-heralded spring offensive against Gen. Wu Pei Fu, although he admitted that the Mukden war lord has been making extensive preparations for such a campaign, importing ordnance experts from France and Japan, buying airplanes by the score, and spending millions of dollars on his ammunition and artillery arsenals.

NO REAL DIVISION

"Chinese wars," he declared, "are not as bitter or as costly in human life as one might think. This is because each of the three leaders among whom the country is divided—Tsao Kun, Chang Tso Lin and Dr. Sun Yat Sen—head of the southern party at Canton—lacks a definite political platform, differing from that of his rival. None of the three has a slogan with which to rally his followers. There are no problems which might stir up the people to a fever heat of excitement. No question divides the country, as the slave problem divided the United States. Consequently there are no wars among the Chinese as bitter as was the conflict between the North and the South."

He could not believe that the danger of Dr. Sun Yat Sen embroiling China in warfare with the Allied powers over the Canton customs crisis had passed. Dr. Sen is an impulsive man of unquestioned courage, he stated;; and is altogether likely to carry out his threat of seizing the customhouses in defiance of the western nations who administer them, and who allocate to themselves certain of the receipts in payment of the Boxer indemnity and of the interest on loans.

PHILIPPINE LUMBER YARDS LOST IN FIRE

[BY CABLE AND ASSOCIATED PRESS]

MANILA, April 23.—The lumber yards of the Insular Lumber Company at Fablica, Negros Occidental, have been destroyed by fire. The loss is estimated at $400,000. Former Representative J. Sloat Fassett, who died at Vancouver, B. C., Monday, after landing from the Empress of Russia, was one of the largest stockholders in the company.

NOTICIAS MUNDIALES DE ULTIMA HORA

En obsequio a nuestros numerosos amigos de habla española, y para beneficio de los lectores americanos de "The Times" que estudien esa lengua, publicamos diariamente esta columna en castellano, con un extracto de las más importantes noticias de última hora.

Buena parte del futuro progreso de Los Angeles, que es la metrópoli de los Estados Unidos que más cercana se halla a territorio latino-americano, habrá de depender de las relaciones que logremos establecer con nuestras hermanas, las repúblicas del sur. Para que lleguen a ser enteramente cordiales, no hay nada tan importante como que nuestros ciudadanos se familiaricen con la lengua castellana. Tan se dan cuenta de este hecho nuestros habitantes, que hay al presente más de 25,000 personas que estudian español en Los Angeles. A ellas les conviene leer todos los días esta columna, en la que encontrarán español correcto y esteramente moderno.

NOTAS TEI EGRAFICAS

Noticias de Washington

WASHINGTON, Abril 23.—El Senado ha aprobado el proyecto de ley de la prima al soldado.

El Presidente Coolidge ha trasmitido al Senado la correspondencia con gobiernos extranjeros relativa a concesiones petroleras.

Ha recibido noticia el Ministerio de Estado de que se ha concertado una conferencia de paz entre las fuerzas contendientes en Honduras.

Ante la comisión de educación de la Cámara se ha opuesto un grupo de luteranos al proyecto de ley de Sterling y Reed para la creación de un Ministerio de Educación.

El Presidente Coolidge ha convocado a una conferencia nacional sobre recreos al aire libre, la que habrá de reunirse en Washington, del 22 al 24 de Mayo.

Sólo Quedan Seis Líderes Revolucionarios sobre las Armas

CIUDAD DE MEJICO, Abril 23. Sólo quedan en Mejico seis de los cincuenta o más generales rebeldes que tuvo en un principio la breve insurrección contra el gobierno de Obregón. Trece de ellos han sido, o muertos en combate durante la semana última, o ejectuados en el campo después de capturados.

Los generales de la Huerta y Estrada, inequívocos líderes de la fracasada revolución, han huído del país; pero se sabe que activamente trabajan en otro complot revolucionario contra el gobierno. Los seis jefes rebeldes que quedan, no son generales sino de nombre, y sus secuaces se han reducido a casi un puñado.

Cuatro de los trece jefes muertos la semana próximo pasada cayeron ante un pelotón de ejecución el domingo de Pascua. Seis generales rebeldes se hallan en las prisiones militares de aquí, pues son de los que se rindieron al gobierno poco después de iniciada la revuelta.

Cuando la insurrección alcanzó su apogeo, las fuerzas rebeldes se estimaban en 50,000 hombres mandados por más de cincuenta que fueron generales del ejército federal. La fuerza total de los insurgentes se estima en la actualidad en 3,000 hombres diseminados en toda la República. Los generales rebeldes restantes son, Manuel Chao, líder de las fuerzas villistas en el norte, Fortunato Maycotte y Guadalupe Sánchez, que, con Enrique Estrada, formaban el triunvirato original antiobregonista y que operan ahora en las regiones aisladas del Istmo de Tehuantepec; Juan Córdoba, en Tabasco; Cándido Aguilar, ex-Ministro de Relaciones Exteriores, y el más pintoresco de todos ellos, el nonagenario Higinio Aguilar, que no ha desperdiciado una sola revolución en los últimos sesenta años, pues en todas ha peleado, ya de un lado, ya del otro. Su especialidad es el atraco y descarrilamiento de trenes, y el despojo de pasaperos. En una ocasión atracó cinco trenes el mismo día, combatiendo contra Carranza; pero más tarde se rindió después de haber recibido 100,000 pesos de la administración del citado presidente.

El interés por la revolución casi ha desaparecido, pues se la considera terminada; pero la situación política está atrayendo más y más la atención. Todo el mundo discute la noticia dada hoy por los líderes del sindicato de agricultores nacionales, de que dicho sindicato apoyará incuestionablemente al General Angel Flores para Presidente. El sindicato citado se compone de los capitalistas y ricos terratenientes de Méjico, y su decisión de respaldar al general Flores va hacer a un lado, según se cree, las estrecheces financieras que habían temido los directores de su campaña, y que podrían haberle impedido trabajar su candidatura.

DEPORTES

Baseball

Los Tigres, debido al lucido juego de Ken Penner, se reivindicaron ayer y les dieron a las Focas visitantes una dosis mayor de su propia medicina, pues se llevaron al equipo de la ciudad de la Bahía por la hermosa anotación de 9 a 2, con lo que se emparejaron en la serie. Penner contuvo de un modo seguro los golpes de las Focas todo el tiempo, y les ayudó a sus compañeros en el asalto contra Burger y Griffin, que tiraban por los del norte, logrando tres golpes y marcándose tres carreras.

Your Next Car

Will be this Light-Six, if you learn the truth

WHEN you buy a car in the "thousand-dollar" class, here are some things you should know.

We made a canvass of men who bought rival cars in this class. And found that 96 in each 100 bought without knowing these facts.

So, for your sake and our sake, we want to present them to you.

Save $200 to $400

Studebaker builds 150,000 fine cars yearly. It has its model factories, fully equipped. It spent $30,000,000 in the past five years on new-day plants and equipment.

Such quantity and up-to-date-ness it saves large sums per car. A car like the Light-Six, built under ordinary conditions, would cost $200 to $400 more.

11.4% less to run

The supreme quality means lower operating cost. Owners of fleets of cars in this class made special records to prove it.

They compared 329 cars running up to 25,000 miles each. And they found that the Studebaker Light-Six cost 11.4% less to operate than the average of its class. This includes depreciation. The saving was nearly two cents per mile.

The reasons are these

The Studebaker Light-Six, in its class, represents the best we know. It leads in workmanship it is matched with the costliest cars we build.

It is designed and superintended by an engineering department which costs us $500,000 yearly.

Each steel formula has been proved the best for its purpose by years of tests. On some we pay 15% premium to makers to get them exactly right.

Each car in the building gets 32,000 tests and inspections.

* * *

The crankshafts are machined on all surfaces, as was done in the Liberty Airplane Motors. This extra care costs us $600,000 yearly, but it means perfect balance in the motor.

More Timken bearings are used in this car than in any competitive car within $1,500 of its price.

There are 517 operations in making this car exact to 1/1000th of an inch. And 122 are exact to one-half that.

Genuine leather cushions, ten inches deep. Unusual equipment. Scores of extra values.

Made by the leader

This is one of the cars which has made Studebaker the leader in quality cars. Our sales have almost trebled in three years. The trend toward Studebakers has become a sensation.

Last year 145,167 people paid $201,000,000 for Studebaker cars.

Back of this car is an honored name, which for 72 years has stood for high ideals.

Behind it are $90,000,000 of assets, staked on pleasing you better than others.

* * *

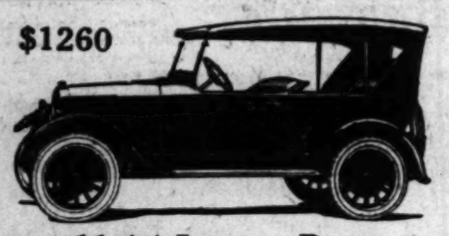
Before you pay $1,000 or more for a car, these are facts you should know and compare. You owe that to yourself.

Send for the book

Mail us the coupon below. We will send you free our new book that will inform you on five simple things which reveal the value of a car. For instance: It will enable you to look at any car and tell whether it's been cheapened to meet a price or offers true quality.

It will tell you why some cars rattle at 20,000 miles and others don't. It shows one single point in a closed car which measures whether you're getting top or medium quality. The book is free—clip the coupon below.

$1260



11.4% Less to Run

The Studebaker Light-Six Touring

Read the proof at the side.

Built by the leading fine-car maker, for whose cars last year people paid $201,000,000.

Each car, in the building, receives 32,000 tests and inspections.

Scores of extra values, due to quantity production in a model $50,000,000 plant.

Built by a maker whose name for 72 years has stood for quality and class.

Built of the finest steels used in motor car building—the same as we use in our Big-Six.

Wise Buyers Detect and Avoid the Danger Line In Choosing a Piano

REMEMBER, quality cannot be where price is TOO low! It is false economy that tempts one to buy an inferior piano for the sake of a few dollars. It is the part of wisdom to make selection where you have choice of only fine piano names—not one, but many of them! Let the firm who guarantees every piano it sells, serve you! Practice safe and sane economy by buying where you KNOW price is the lowest consistent with quality. Barker Bros. have, through forty-three years of service, built and maintained a reputation that embodies these principles.

Guaranteed Grand Pianos As Low As $495

Guaranteed Players As Low As $377.50

Guaranteed Uprights As Low As $295

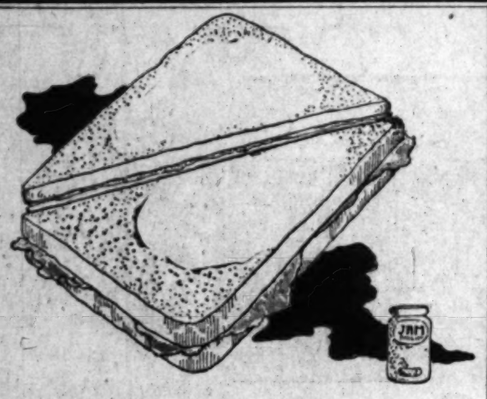
Are among the subjects covered in detail in the FARM AND TRACTOR MAGAZINE issued with the Los ANGELES SUNDAY TIMES.



What Kind Of Sandwiches?

—for the youngster in school?
—for the man who prefers a home-packed lunch?
—for the girl whose lunch time is limited?
—for any of those innumerables who must have a lunch packed daily! Here is a boon for the weary searcher of something "different"—appetizing—simple to prepare. All these sandwich requisites we know about, and this list is compiled with those things in mind. Try it, and watch your family ask for more!

Sandwich Fillings

Blue Ribbon Fig Meat; For Sandwiches. Keeps the kiddies healthy. In packages.
Bar-s-Lee:—It's new. A savory spread for sandwiches.
Derby Sandwich Delight:—A meat combination, in jars.
Purity X Deviled Chicken:—Pure and seatfut.
Deviled Ham; with chopped olives.
Cross & Blackwell's English Lobster and Sardine Paste:—In jars.
Beechnut Peanut Butter:—Fresh and pure.
Jevne's White Meat Tuna:—Spread with Jevne's 1000 Island Dressing.
Franco-American Potted Beef:—Delicately seasoned.
Welsh Rarebit, College Inn:—Used cold, makes a zestful, pleasing cheese sandwich.
Philadelphia Cream Cheese;—Fresh, pure, sweet.
Nuttolene:—A meat substitute for sandwiches.
Protose:—A meat substitute for sandwiches.
Welch's Maple Sugar Cream:—A good spread for bread.
Almond Butter:—An unusual sandwich spread, in jars and tins.
Puree of Foies Gras, Truffled:—For delicious sandwiches.
Norway Sardines:—Small fish in olive oil.
Ferndell:—Olive spread.

Just by way of Variation

Imported French Prunes:—Prepared. You'll enjoy this supreme delicacy. In 2 lb. jars.
Fresh California Dates:—Dos Palmas, in jars.
French Marrons:—In Vanilla Syrup.
Pickled Limes:—A collection of "The Hub."
Imported Malaga Raisins:—Selected clusters, in tins.
Calif. Salted Almonds:—Fresh Daily.
La Touraine Cheese Wafers: A dainty Tit-Bit in tins.
'H & P' Maitre D'Hotel Biscuits:—For afternoon teas.
Madeleines Lucullus: — A French wafer. Delicious with tea.
Jasmine Tea—For a discriminating taste. An afternoon tea of supreme, distinctive flavor.
'La Touraine—Vanilla and Chocolate. Roll Wafers, serve with tea. An epicurean delight.
Ovaltine—For Milady between meals. A food beverage of international renown. Taken before retiring induces sound sleep.

The success of a good sandwich is in its attractiveness to the eye. Only a keen-edged saw-knife can slice bread thinly. A special bread-knife—50c. If you would introduce a change in shape, get a round sandwich cutter. 50c.

BEES FEAST ON ORANGE BLOOMS

Apiary Owners Expect Good Honey Crop

Lack of Olive Lands Holds Back Plant

Lindsay Man is En Route to Church Parley

VISALIA, April 23.—It is orange-blossom time in Tulare county and beemen of the San Joaquin Valley are taking advantage of the season for a good honey crop. Movement of bees into this county has been quite heavy during the past two weeks and already in some sections of the county the bloom is falling. The colonies will later be moved from the citrus lands to the alfalfa fields and deciduous orchards until the next bloom of the navels opens.

The bloom on the Valencias has been very heavy this season and bees have dotted the orchards from one end of the county to the other, some shipments having been received from far to the north of Sacramento. Beemen expect a good honey crop with fair returns.

They recently experienced quite a fright when Tulare County Supervisors discussed advisability of placing an embargo on bees from outside the county for fear they might carry virus of the hoof-and-mouth disease. Beemen came forward with government statistics and statements denying that bees carried any disease. The bees were then allowed to come in after careful inspection under strict guard and only with a clean bill of health.

OLIVE LANDS NEEDED

STRATHMORE, April 23.—Lack of 400 acres of olive lands is holding back erection of an olive plant here, according to announcement following a check of the local situation. As the State association is anxious to secure the needed signed acreage it has named a man to close up the remaining acreage. Twelve hundred acres of olive lands must be signed by the 25th inst., and if this total is not met by that time it is probable that plans for construction will be dropped. Fairoaks, above Sacramento, has been selected as the plant site if Strathmore fails.

C. E. Weikert, State manager of the California Olive Growers' Association, was present at a recent meeting here, as were Mr. Sears of Sacramento and J. T. Curry of Tulare.

METHODIST DELEGATE

LINDSAY, April 23.—Mr. and Mrs. J. H. Turner of Lindsay are en route to Springfield, Mass., where Mr. Turner will attend the general conference of the Methodist church as a lay delegate from California. He will be a member of the committee on Epworth League and the committee on home missions and church extensions. Mr. and Mrs. Turner will visit in New Orleans, Washington and their former home, Boston, before returning to Lindsay in July.

Veterans Want Police Punished for Raid Damage

The board of directors of Post No. 1, Disabled Veterans of the World War, met last night to discuss the situation arising from a police raid in a hall in the veterans' building on the 18th inst.

According to H. B. Beaumont, post commander, the hall had been rented to an organization for a benefit entertainment and no members of the veterans' organization were present. Two girls and a man, professional dancers, were arrested for asserted nature dances. The vice squad reported that about 500 men were in the audience and that when it was announced the place was raided, the lights went out and a general scramble was made by the audience to get out of the hall.

The veterans charge that damage to furniture and the building in consequence of the raid amounts to $750. They sent a delegation to Chief of Police Vollmer requesting that Capt. Plummer, who was in charge of the raid, be suspended and that the participating officers under him be reprimanded and made to pay for the damage. Resolutions asking similar action have been passed by the City Interpost Council of the American Legion and the Veterans of Foreign Wars, according to Commander Beaumont.

Police Captains Jackson and Slaughter have been detailed by Chief Vollmer to investigate the matter.

Chorus Workers Are Rehearsing for Operas Here

Under the guidance of Alexander Bevani, well-known opera director, the chorus of the Los Angeles Grand Opera Association is rapidly completing preliminary work on the five operas which the association plans to present in Los Angeles during the fall. The work on the third opera has progressed so far that friends of the singers were invited to attend the rehearsal in the Y.M.C.A. auditorium last night.

Nearly a hundred voices have been enlisted for the chorus work in the projected presentation of operas. Most of the principals are to be imported from eastern operatic companies.

The operas will be presented in the Philharmonic Auditorium. They will represent several years of effort of music lovers to bring grand opera to Los Angeles.

HEARING POSTPONED

[LOCAL CORRESPONDENCE]

INGLEWOOD, April 23.—The second hearing on zoning of the area north of the Santa Fe tracks, scheduled for Thursday evening of this week, has been postponed until Friday evening, it was announced today by George E. Longan, president of the City Planning Commission. G. Gordon Whitnall, planning expert of Los Angeles, retained by the commission to conduct the hearings, will preside.

DENY INFLUENCE IN WILL MAKING

Son and Housekeeper Reply to Charges

Disinherited Daughter of Contractor Accuses

Attorney Named Proponent as Paper Executor

FRESNO, April 23. — General denial that they used undue influence to cause Emmett Riggins, former Fresno contractor, to make a will greatly in their favor is made in an answer filed in Superior Court yesterday by Stewart Riggins, a son, and Geraldine F. Miller to a petition asking that probate of Riggins's will be revoked.

Mary Blodgett, a daughter, filed the petition asking that the probate order be revoked, claiming that Mrs. Miller acted as Riggins's housekeeper and, as such, exerted her influence to cause him to leave her and Stewart Riggins the major portion of this estate.

Mrs. Miller denies she was closely or intimately acquainted with Riggins or that she held any authority over him. She asserted she in no way took any unfair advantage of the former contractor to induce him to make his will in favor of her or Stewart Riggins, or disinherit Mary Blodgett.

O. L. Everts, local attorney, was named proponent in the petition as he is executor of Riggins's will.

SEATTLE CRUSHES SACRAMENTO TEAM

[BY A. P. NIGHT WIRE]

SEATTLE (Wash.) April 23.—The Seattle team opened its home season here today by defeating Sacramento 9 to 2 before a crowd estimated at 12,000. Timely and heavy hitting of the Indians was the downfall of the Solons.

Although the Sacs outhit the northern club, Sutherland and Gregg kept the blows well scattered and Sacramento was only able to score in the seventh inning. The batting of Billy Lane, Seattle centerfielder, who garnered three doubles, featured the contest.

DUCKS BEAT BEES IN RED-HOT GAME

[BY A. P. NIGHT WIRE]

PORTLAND (Or.) April 23.—Portland beat Salt Lake today, 2 to 1, in an exciting pitchers' battle between Eckert and Singleton. The Beavers scored both their runs off Singleton in the first inning on a pair of hits, three walks and Peters's error, but thereafter made only one hit off him, a drive by Poole in the sixth. In the ninth the Salts got to Eckert for three singles and one run after two were out, but with two on Joe Jenkins, pinch-hitting for Lazerre, popped an easy one to Poole. Score:

WESTERN CITY IS NEW LOS ANGELES SUBURB

[LOCAL CORRESPONDENCE]

MONETA, April 23.—A new suburb of Los Angeles to be located at Western avenue and Riverside-Redondo Boulevard, was born yesterday as a result of a meeting of more than forty property owners of the district. The town will be known as "Western City." An electric sign to be erected at once at the intersection of the two boulevards, will be financed by the property owners. The erection of several business buildings within sixty days is said to have been promised by a Los Angeles concern.

Several Towns in Philippines Quake Damaged

[BY CABLE AND ASSOCIATED PRESS]

MANILA, April 23.—The villages of Caraga, Manay, Baganga and Catoel, along the east coast of Dvao province, were considerably damaged by the earthquake of a week ago, according to the officers of the Inter-Island steamer Samar, which arrived here today. The Samar was driven ashore at Caraga by a small tidal wave but was refloated without serious damage.

The town of Butuan, Agusan Province, was also badly shaken, several dwellings and the Catholic Church being damaged.

The fate of the villages along the eastern coast of Surigao Province is not known, telegraph communication being interrupted.

GERMAN MINISTER TO MEXICO IS DEAD

[BY CABLE AND ASSOCIATED PRESS]

BERLIN, April 23.—Count Adolph von Montgelas, German minister to Mexico and former head of the American section of the foreign office died today. He arrived recently from Mexico suffering from a nervous breakdown. Countess von Montgelas was formerly Miss Fannie Dickinson Hazeltine of Grand apids, Mich. She married the count in 1908.

CAMPAIGN WORKERS FILE SUIT FOR WAGES

PROGRESSIVE - DEMOCRATIC LEAGUE SHORT OF FUNDS, SAYS CANDIDATE

[BY A. P. NIGHT WIRE]

SACRAMENTO, April 23.—A suit was on file in uperior Court here today in which three men who declared they had solicited signatures for Progressive-Democratic League delegates to the Democratic national convention, asserted they had not been paid for their services. The men are Frank S. O'Brien, John F. O'Shea and E. A. Trimmer, and they sued for the amounts asserted to be due them from Morris Brooke, one of the League national convention delegate candidates, and W. W. Bedford of San Francisco, secretary-manager of the league.

The Progressive - Democratic League is an organization which is sponsoring an uninstructed delegation to the Democratic national convention. It is opposed to the candidacy of William G. McAdoo for the Presidential nomination.

Brooke, who is a realty dealer of Sacramento, charged that the filing of the suit, which asks small amounts, was a "political trick."

In discussing the asserted failure of the league to pay the salaries, Brooke said the Progressive-Democratic League is "a little short of funds, which is nothing new for a Democratic campaign."

"SCIATIC FOR 30 YEARS FREED BY INTERNAL BATHS"

Mr. Geo. E. Thurston of 1708 Hurst St., Portland, Ore., writes to the Tyrrell Hygienic Institute of New York:

"I have suffered nearly thirty years with Sciatic Rheumatism. Two years ago, I purchased a 'J. B. L. Cascade,' I haven't suffered one pang since I used it. It is a wonderful treatment."

The "J. B. L. Cascade" cleanses the lower intestine its entire length and keeps it always free of poisonous waste.

Thousands testify that Constipation, Indigestion, Stomach Troubles, Biliousness, Headaches and all the many serious troubles which they cause are absolutely relieved and prevented by this Nature Treatment.

We will gladly explain to you the simple operation of the "J. B. L. Cascade," why it is so certain in its results, and will give you free of cost, an interesting little book containing the results of the experiences of Dr. Chas. A. Tyrrell of New York, who was a specialist on Intestinal Complaints for 25 years in that city. Get a free booklet at

Owl and Sun Drug Stores.

Weak Eyes? Camphor

If you have weak, aching eyes try simple camphor, witch hazel, hydrastis, etc., as mixed in Lavoptik eye wash. One small bottle helps any case weak, strained or sore eyes. Aluminum eye cup free. At the Dickinson Drug Co., 300 So. Main St., and all druggists.—[Advertisement.]

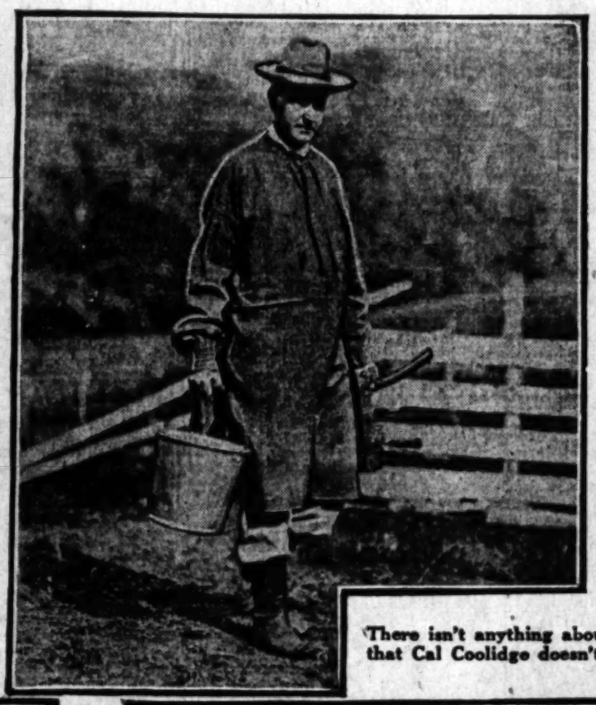
DOWN ON THE FARM WITH CALVIN COOLIDGE

What Boots It? A great deal, because Bossy is waiting to be milked.



There isn't anything about cows that Cal Coolidge doesn't know.

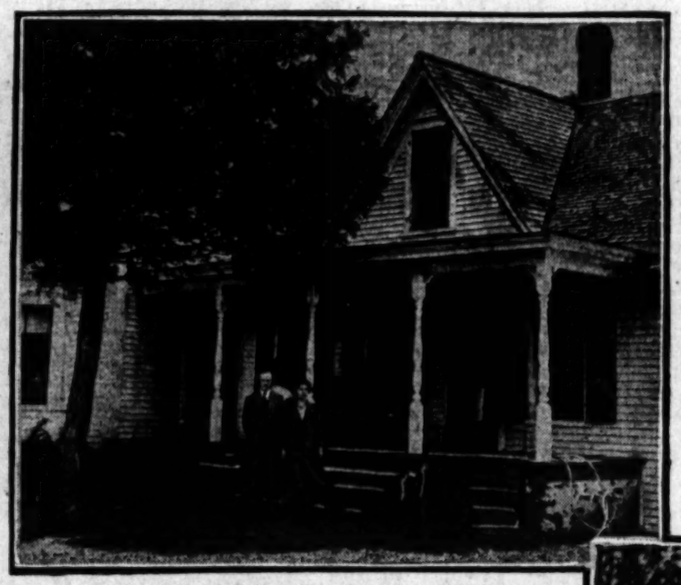
As this unconventional photograph proves. (Photos by George Chalmers, Rutland, Vt., made on the Coolidge farm at Plymouth, Vt.)

He can pitch hay—

Or drive the wagon. (P. & A. photos.)

Work on the Coolidge farm is a grind sometimes. (Chalmers photo.)

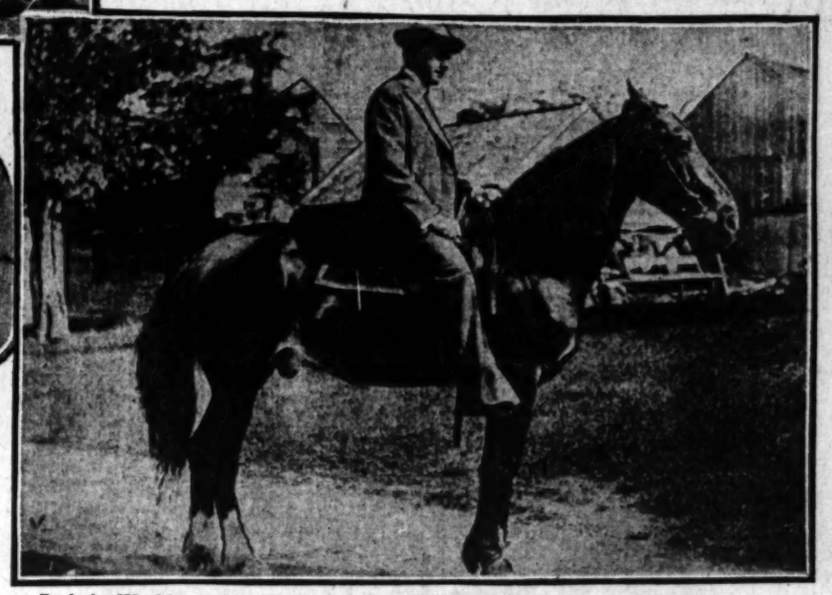
But the President's father usually manages to split things evenly. (P. & A. photo.)



In this humble farmhouse, the nation's Chief Executive first saw the light of day. He and Mrs. Coolidge are shown together here. (P. & A. photo.)

Here is a more extensive view of the Coolidge home place—

In this little Plymouth school the President was taught the three R's as a child. (Chalmers photos.)



Both in Washington and Vermont, the President's horse is one of his best-loved companions. (Chalmers photo.)

WIFE GETS NOTE FROM G. G. GREEN

Missing Pasadena Man Writes But Keeps His Location Secret

By a "Times" Staff Correspondent

PASADENA, April 23.—G. G. Green, scoutmaster, who mysteriously disappeared from his home, 53 North Marion avenue, more than three weeks ago, has been heard from by his wife, it was disclosed today. Mrs. Green received a letter postmarked "Los Angeles" in which her husband says he has been ill and unable to write sooner. The letter did not tell his whereabouts in Los Angeles nor did it give information concerning his future plans. He made no mention of returning home.

Mr. Green told his wife he was going for a walk. He never returned to his home. Boy Scouts, police and civilian searching parties immediately were enlisted and made a search of Eaton's Canyon and surrounding teritory.

Since that time an intensive search has been kept up but no clew as to his whereabouts was uncovered until the letter arrived today.

DELANO'S BOARD OF TRUSTEES ORGANIZES

[EXCLUSIVE DISPATCH]

DELANO, April 23. — Delano's new City Board of Trustees met and organized today. E. Curtis Clark, who polled the greatest number of votes at the recent city election, was chosen president of the board. Others who made up the board are: J. F. Krebbs and B. F. Stradley, who took their seats for the first time and Frank Pantro and D. L. Shiffler, who hold over from the old board. The office of City Manager was abolished, but A. L. Miller, who had held that office, remains with the city and will continue his work of general supervisor of streets, parks and cemetery.

INFECTION SOURCE FOUND

Contamination of South Pasadena Water Traced to Sewer Seepage Into Main Pipe

Bacterial tests made by chemists in Los Angeles and Pasadena of the contaminated water in South Pasadena showed there was no typhus germs present.

[LOCAL CORRESPONDENCE]

SOUTH PASADENA, April 23.—The source of contamination of water furnished to South Pasadena by the Pasadena Water Department has been traced definitely to the infiltration of liquid from a sewer line at Euclid avenue, Pasadena, into a twelve-inch pipe line carrying water from wells east of Euclid avenue to the Ohio street pumping station west of Euclid avenue, Chief Engineer S. B. Morris of the Pasadena Water Department announced today.

Bacterial tests of the wells themselves show no contamination, the water engineer said.

The contamination of the water is held responsible for an intestinal infection afflicting many persons in South Pasadena. None of the cases have been serious, it is reported. Symptoms of the illness are described as nausea and abdominal pains. The number of cases reached the scope of an epidemic yesterday before the supply of water from the Ohio-street plant was cut off, reports stated.

All residents of South Pasadena, persons living in Alhambra north of Alhambra Road and west of Wilson avenue, and residents of Pasadena living south of Colorado street between Euclid and Wilson avenues, were advised by the Pasadena water engineer today to continue to boil water used for household purposes. Fifteen minutes' boiling is advised.

All source of contamination was eliminated last night by the installation of a new cast-iron water main to replace the old steel main through which the contaminated water seeped, Chief Engineer Morris said.

ADEQUATE WATER SUPPLY PLANNED

By a "Times" Staff Correspondent

SANTA MONICA, April 23.—Emergency measures to make wet this city's dry spot, a section north of Alta and east of Twelth street, were adopted today by the Department of Public Works. Commissioner Morton this morning stated that a local contractor has been sent to Los Angeles to obtain pipe for water from the Mt. Olivet reservoir for that section named. It was asserted that plenty of water is on hand, but that water mains are too small to serve in distributing. Numerous complaints have been heard from that section of the city which is suffering. The city is now erecting a 100,000-gallon tank on Mt. Olivet to cope with the increasing population of the city and give added pressure to the high districts of Santa Monica. Temporary relief is expected immediately, it was announced.

THREE HELD FOR DEATH OF M'GUIRE

Los Olivos Justice of Peace Holds Both Downs Men and W. F. Crawford

[BY A. P. NIGHT WIRE]

SANTA BARBARA, April 23.—W. H. Downs, Taylor Downs and W. F. Crawford, prominent Los Olivos citizens, were held to answer to the Superior Court on charges of first-degree murder in connection with the death of J. J. McGuire at the end of their preliminary hearing before Justice George today. McGuire was blown to death in an explosion, which wrecked his home at Los Olivos on December 16, 1923.

Harvey Stonebarger, whose alleged confession to Dist.-Atty. Ward caused the arrest of the three men, testified that he had procured a sack of dynamite and fuse at the request of W. H. Downs and given it to Crawford on the day before the fatal explosion. He testified also that he knew of the alleged trouble between Downs and McGuire and assisted in the purported plot because he thought the aged man a menace to the peace of Los Olivos. He was not present when the charge was detonated.

Officers testified that the bits of fuse and wrapping found fitted Stonebarger's description of the explosive.

Most of the citizens of Los Olivos attended the hearing today.

NEW ASSISTANT CHIEF APPOINTED TO OFFICE

[EXCLUSIVE DISPATCH]

LONG BEACH, April 23.—William S. Minter, battalion chief of the Long Beach fire department since 1919, was today named assistant chief of the department by Fire Chief G. C. Crawe. Assistant Chief Minter succeeds to the place made vacant through the tragic death two weeks ago of Assistant Fire Chief H. Stanley Ellis, killed in an automobile crash while responding to an alarm. Assistant Chief Minter was appointed to the fire department in 1908 after serving for several years in the volunteer fire department here. He was appointd lieutenant in 1913 and captain in 1916. He is noted throughout the Pacific Coast region as a fire drill and first aid expert.

SCHOOLBOY WANDERS STREETS AND IS HELD

By a "Times" Staff Correspondent

VENICE, April 23.—Earl Clifford, 16 years of age, Los Angeles schoolboy, is being held in the local jail pending word from the juvenile authorities after he was found aimlessly wandering the streets of this city. Asked by local detectives why he was not at home the boy is asserted to have stated that he was told to leave his home by his stepfather and never to return. The matter will be thoroughly investi-

DAIRYMAN IS HELD AS SMUGGLER

Calexico Man Charged With Bringing in Two Swiss from Mexico

[EXCLUSIVE DISPATCH]

EL CENTRO, April 23.—Conrad Meier, dairyman of Calexico, was arrested today on a Federal warrant charging him with smuggling two Swiss milkers into this country from Mexico. He was brought to the County Jail and held for trial in San Diego on a Federal grand jury indictment.

Early in February Ernest Hofner and Albert Gertsch, Swiss milkers, were arrested at a dairy near here. They admitted, according to the Sheriff, that they had been brought across the boundary line at Calexico by Meier, who operated a dairy near that city. When taken here the men are asserted to have declared that they had been working for Meier without pay in order to repay him for his assistance. They were arrested within three weeks after they came across the line.

SAN DIEGO PUTS OFF WATER BOND ELECTION

[EXCLUSIVE DISPATCH]

SAN DIEGO, April 23.—The City Council today decided to postpone for at least two weeks the proposed $3,500,000 water-bond election, hoping to have all available data in hand before proceeding to its their plan to increase the water-storage facilities of the municipality. The election originally was scheduled for May 20. Failure to receive a complete report from John Freeman, eastern hydraulic engineer who made survey of the county several months ago, influenced the Council to put off the bond election. A telegram was sent to Freeman this afternoon, urging him to make another trip to San Diego and outline his proposals for water development. In previous partial reports Freeman favored the San Vicente site as against the El Capitan site. The latter project is strongly favored by the Council.

HEADS TRUSTEE BOARD AT HUNTINGTON PARK

[LOCAL CORRESPONDENCE]

HUNTINGTON PARK, April 23. Huntington Park now has a new president of the Board of City Trustees, Norman A. Blanchard having been chosen by the newly elected Board of Trustees at the regular meeting held last night. The board now has three new members as a result of the election a week ago yesterday, when Mr. Blanchard, Norman O. Byers and Frank Fitch were elected. Frederick A. McClung was re-elected as a member of the board, and J. V. Scofield is a holdover member. Mr. Byers, who received the highest number of votes for Trustee, declined to become president of the board. He was placed in nomination by Trustees McClung and Scofield, but immediately nominated Mr. Blanchard, the vote standing three to two in Mr. Blanchard's favor.

STATE SCHOOL LAND SOLD AT SAN DIEGO

[EXCLUSIVE DISPATCH]

SAN DIEGO, April 23.—Homeseekers and subdividers were active bidders for thousands of acres of State school lands in this county, placed on the market in an auction sale conducted by W. S. Kingsbury, State Surveyor-General. About 20,000 acres will be sold at auction, more than 5000 acres having been disposed of at the opening sale. The average price was $5.60 per acre. The largest individual purchaser was Harry H. Blaustein, a real estate dealer of Los Angeles, who bought in about 1500 acres situated in all parts of the county.

HEALTH LOST DURING WAR, VETERAN DIES

[LOCAL CORRESPONDENCE]

ONTARIO, April 23. — His health broken during his service overseas in the World War, Hiram Irving Harper, only son of Mr. and Mrs. Charles E. Harper, prominent Ontario pioneers, died yesterday at the home of his parents, 125 Granada Court, at the age of 35. Mr. Harper was a native son of Ontario. Funeral services were conducted this afternoon from Draper's chapel, with Rev. W. Earle Smith officiating. Interment was in Bellevue Cemetery.

BLAME INCENDIARISM IN HARBOR CITY FIRE

[LOCAL CORRESPONDENCE]

HARBOR CITY, April 23.—Fire, believed to have been of incendiary origin, totally destroyed a vacant house here last night on property adjoining the Harbor Sash and Door Company's factory, and for a time threatened to spread to the mill.

DEFECTIVE FUSE SAVES BUILDING

Huge Charge of Dynamite Planted Near Safe

Explosion Would Have Killed Many, Say Police

Lumber Company Safe Holds Only Forty Dollars

By a "Times" Staff Correspondent

PASADENA, April 23.—A nitroglycerine cap and enough dynamite to blow up an entire building were found by the police this morning at 442 South Fair Oaks avenue, lying under a huge safe owned by the George L. Riley Lumber Company. A partly burned fuse was also found by the officers. Further investigation disclosed that two novice safe crackers had entered the building at a late hour last night and attempted to open the company safe by knocking the dial off. This failing a huge charge of dynamite was placed under the strong box and the fuse was lit. When the dynamite failed to explode the safe crackers did not return, apparently fearing that it might explode unexpectedly.

Had the charge exploded the whole building would have been blown to bits and many lives would have been lost, the police believe. The fact that an excess charge of dynamite was found leads the police to believe that the job was attempted by novices. Only $40 was in the safe at the time.

Coolidge Club Preparing for Primary Vote

[LOCAL CORRESPONDENCE]

ORANGE, April 23.—With the primary election drawing near, the Orange-Coolidge Club will gather at the City Hall tomorrow night to formulate plans for the last week of the Presidential campaign in this district.

The meeting, set for 7:30 o'clock, is at the call of F. L. Ainsworth, president of the booster organization. Chief attention is to be devoted to details for an intensive campaign the week previous to the primary ballot.

A large attendance is expected. Literature and Coolidge automobile stickers will be distributed at the meeting.

ANAHEIM POSTOFFICE TERRITORY ENLARGED

[LOCAL CORRESPONDENCE]

ANAHEIM, April 23.—Two hundred families and approximately 500 persons were added to the municipal family of Anaheim yesterday by an order issued by Postmaster Harry Whitaker from the Post-master-General, which extends the rural delivery system of Anaheim into a territory that heretofore has gone to Buena Park, Orange, Fullerton and Santa Ana. The announcement came as the result of many months' work on the part of Harry Whitaker and is considered a decided trade booster to the mercantile district of Anaheim. The expansion of the Anaheim Postoffice covers five routes and will bring into the Anaheim district, territory as far east as Richfield and Atwood, to the north of Garden Grove, to the line of the Santa Ana River, the Ball Road, and to the Katella Substation at Placentia avenue and the State highway.

MASS MEETING TO BE HELD AT LOS NIETOS

[LOCAL CORRESPONDENCE]

LOS NIETOS, April 23.—Since the recent bond election when the voters of the Los Nietos school district voted an issue of $100,000 for the purchase of a site and the erection of school buildings, considerable interest has hinged on the site to be selected. To give those most interested an opportunity for discussion of sites a mass meeting has been called at the Los Nietos schoolhouse for Thursday evening. Mrs. Ellen King, pioneer resident and one of the heavy taxpayers of the district, and Mrs. Sam Perkins, prominent club woman and school patron, have been active in having the meeting called. Grover T. Russell, former president of the Whittier Realty Board, will be one of the speakers.

FAILURE OF REALTY TRADE BRINGS SUIT

[LOCAL CORRESPONDENCE]

ORANGE, April 23.—Charles W. Paxton, Anaheim, today was defendant in a $26,500 damage suit which was filed in Superior Court by William C. Steffens, formerly of this city, charging failure to fulfill a realty agreement. The suit involves an asserted agreement to trade Paxton's twenty-acre orange grove at West Orange, near here, for Steffens's property at Balboa, including the Balboa Palisades. The deal, Steffens alleges, was never carried out, because Paxton "backed out" on the transaction. The plaintiff asks $25,000 damages together with $1500 special damages in connection with the projected deal.

J. C. CRAWFORD AGAIN MAYOR OF BURBANK

[LOCAL CORRESPONDENCE]

BURBANK, April 23.—In the reorganization of the Board of City Trustees J. C. Crawford was re-elected president and with the honorary title of Mayor will head the municipal government during the new term. Arthur J. Rose was appointed City Engineer, succeeding Curt Miller, whose resignation, tendered a few days ago, was accepted by the board.

INDIAN WILL GO ON TRIAL IN SLAYING

Young Piute is Accused of Murder of "Lawyer" Brown of Tribe

[EXCLUSIVE DISPATCH]

BAKERSFIELD, April 23.—In a tank at the County Jail Marianna Phillips, young Piute Indian, awaits his trial for murder, which will begin tomorrow morning before Judge McMahon in Department One of the Superior Court. Phillips is accused of having riddled the body of "Lawyer" Brown with bullets after Brown had been struck over the head with a shovel. Brown was killed near Lorraine. "Lawyer" Brown also was a Piute Indian.

The Indians are said to have believed that Brown exercised an evil and malign influence over the rest of the tribe at the reservation.

FIGHT MAPPED FOR PICO BUS HEARING

By a "Times" Staff Correspondent

SANTA MONICA, April 23.—An aggressive and determined course for this city in the Pico bus hearing before the State Railroad Commission tomorrow has been mapped out by Mayor Steele. Should civic officials and officers not respond and go voluntarily to present the facts in the case they will be subpoenaed, the Mayor has announced. Every citizen who is interested in obtaining efficient and economical service over Pico Boulevard between this city and Los Angeles is urged to attend the hearing. The city will emphasize the urgent demand for frequent service over this busy thoroughfare and a service which gives universal transfers in Santa Monica. A low rate for the route trip and single fares also will be sought, it was learned.

HARBOR CITY SEEKS EXTENSION OF ROAD

[LOCAL CORRESPONDENCE]

HARBOR CITY, April 23.—If a right of way through the Joaquin estate can be obtained, Belleporte avenue, Harbor City's main thoroughfare, will be extended and connected with Normandie street on the north, according to an announcement made yesterday by the Chamber of Commerce. At present it is a blind street. Local officials have been led to believe that the paving of Normandie street from Los Angeles to Anaheim-Redondo Boulevard will be realized within the year, and the connecting of Belleport avenue with it will place this town on main line of travel for the first time in its history.

TORRANCE TRUSTEES SWORN INTO OFFICE

[LOCAL CORRESPONDENCE]

TORRANCE, April 23.—The newly elected Board of Trustees held its first meeting last night. Members were sworn into office. Those installed are: J. S. Torrence, R. R. Smith, Willis M. Brooks, R. J. Delinger and James M. Fitzhugh. A special meeting of the board was called for next Monday night when the new Mayor will be appointed.

WEBB ACTS ON SAN DIEGO CASE

Urges Factions to Settle Annexation Row

Upholds City Attorneys' Acts in Controversy

Advises Antis to Drop Fight in Higher Courts

[EXCLUSIVE DISPATCH]

SAN DIEGO, April 23.—Atty.-Gen. U. S. Webb, in conference with attorneys representing San Diego and the antiannexation group in East San Diego, today upheld the city attorneys and suggested that both sides get together and definitely close the subject relating to the merging of the two communities.

Webb recommended that attorneys for the antiannexationists who have been fighting the merger cease their efforts to obtain a writ of prohibition from the Appellate Court that would prevent Superior Court judges from sitting in suits involving the annexation proceedings. One intervention suit, partially heard by the Superior Court in Orange county, was ordered dismissed and Webb also ordered another intervention suit to be heard in Superior Court here May 21. This latter suit asked that the annexation petition be declared illegal.

As a result of Webb's visit, it is believed the muddle following the annexation of East San Diego will be cleared up. That community became a part of San Diego on December 31, but litigation instigated by opposing elements has prevented the city authorities from taking over complete control of the former suburb's affairs.

Webb left late this afternoon for Sacramento.

CAMERON HEARING IS SET FOR SATURDAY

By a "Times" Staff Correspondent

SANTA MONICA, April 23.—Edward Cameron, driver of the machine which ran down and killed John Hunter, 14 years of age and seriously injured Frank Swain, was arraigned before Police Judge Garrett today on a charge of murder. His preliminary hearing was set for Saturday. The dead youth and his companion, both of Los Angeles, were on route home from Santa Monica on a motorcycle when Cameron, said to have been intoxicated at the time and to have been driving on the wrong side of the street, crashed into them. Hunter was killed almost instantly and his companion is near death. The accident occurred late Sunday night at the intersection of Twenty-sixth street and Pico Boulevard.

VENICE WILL VOTE ON RECALL IN MAY

By a "Times" Staff Correspondent

VENICE, April 23.—The special recall election against Trustees Fred Church and William G. Lutz, under fire on charges of mismanagement and misappropriation of municipal funds, was set by the Board of Trustees in special session today for May 28. The date was set after the first reading of the ordinance providing for the recall election. The ordinance will receive its second and final reading next Wednesday.

REFINANCING AN OLD COMPANY

Plan Put Up to Stockholders of Pierce Corporation

World Traders to Hear About Acapulco and Mazatlan

Insurance Divdend Paid; Land Company Formed

Refinancing of the Pierce Oil Corporation, one of the largest and oldest of the American oil companies, along lines that will affect numerous stockholders of this city, has been announced by the management. Stockholders are now being asked to give their consent by proxy to the plan, which is calculated to furnish the corporation with new money to take care of pressing liabilities and to furnish funds for necessary improvements to its refineries and marketing system, without the assumption of fixed charges.

The plan involves the organization of a new corporation to be called the Pierce Petroleum Corporation, with 2,500,000 shares of no par value stock. This company will acquire all assets and liabilities of the old concern and will issue to the old corporation between a minimum of 1,100,000 and a maximum of 1,200,000 shares of its own stock. The remainder of 1,300,000 shares will be offered to stockholders at $7 a share, and for every share subscribed, 1-13 of a share of new stock will be added to the minimum of 1,100,000.

The plan, which was devised to enable the corporation to operate efficiently its potentially valuable properties, is dependent upon the approval of the stockholders. Despite recent unfavorable conditions in the oil industry, the management reports that the corporation is operating at a small profit.

WORLD TRADERS

American Consuls Bucklin and Chapman, stationed at Acapulco and Mazatlan, Mex., will be the guests of honor this evening at a dinner meeting of the World Traders of Los Angeles. The society, which is composed of members interested in the promotion of foreign trade, has arranged for short speeches by several authorities in foreign commerce.

The list of speakers includes L. B. Gary, San Francisco manager of the United States Bureau of Foreign and Domestic Commerce, who will take as his subject the "Pacific Coast Foreign Trade Outlook;" Dr. R. Uribe, a well-known authority on Latin-American finance, on "Exploitation and Trade Possibilities of Mexico;" R. W. Proudfoot, Southern California manager of the Dollar Steamship Line, on "Round-the-World Trade and Travel Service," and "International Friendships," by N. A. Davis, president of the Travel Club of America, who was formerly the managing director of the San Francisco Foreign Trade Club.

INSURANCE DIVIDEND

Payment of a 20 per cent cash dividend was made the 15th inst., by the board of directors of the West American Insurance Company to stockholders of record the 1st inst. The board also authorized the payment of a 5 per cent cash dividend payable every ninety days to stockholders of record the first day of the month prior to such dividend payment.

According to Thomas R. Lamb, vice-president and general manager, the company plans to make application for listing on the Los Angeles Stock Exchange.

NEW LOAN COMPANY

The Burton Loan and Investment Company has been incorporated for $1,000,000 and is organized for the purpose of engaging in real estate mortgages and investments, according to an announcement yesterday by Stewart L. Crebs, vice-president of Burton & Co., realty brokers, at Tenth and Western, and president of the new corporation.

The officers of the Burton Loan and Investment Company are all officers of Burton & Co. Cumulative 7 per cent preferred stock is being offered at par, $100. The entire subscription will be used for realty investments and mortgages, Burton & Co. absorbing the overhead and office expense of the new corporation.

The officers are: Stewart L. Crebs, president; Roy C. Burton and Ross H. Quinby, vice-presidents, and Ben A. Burton, secretary and treasurer.

PERSONAL MENTION

Harry J. Mallen, president of Mallen & Co., financing representatives, and Mack Sennett, film producer, left yesterday on Mr. Mallen's yacht, the Harry Jr., for a cruise in Mexican waters. A cameraman accompanied the party for the purpose of taking motion pictures on some of the island groups.

RULES REGULATING LIVE-STOCK LOADING

The Federal State Market News Service yesterday promulgated as coming from the headquarters of the live-stock control committee, the following rules and regulations governing shipments of live stock into Los Angeles county:

Persons wishing to ship live stock into Los Angeles county during the existence of present quarantine regulations must present their requests to the railroad company on whose lines the shipment originates; this carrier to arrange for the equipment and the presentation of the permit to this committee for its action.

Permits must be prepared in triplicate on the form provided.

Diversions of live stock while in transit, destined Los Angeles county, will be arranged by the railroad company only after securing permission from this committee.

To expedite the handling of permits by this committee, applicants are urged to exercise care in their compilation, particularly as to date of loading, probable date of arrival in Los Angeles county, number of cars, number of head of cattle, calves and hogs and number of decks and number of head of sheep or lambs, point of origin, name of shipper and signature of applicant and such other information as this committee may from time to time require.

In event of failure to ship live stock from point of origin, the permit will automatically expire at the end of forty-eight hours.

DAILY TRADE TALK

Future of Los Angeles Copper Industry Said to Depend on Equitable Arizona Rail Rate

Establishment at Los Angeles Harbor of a great copper refining and manufacturing industry depends very largely on the obtaining of railroad rates on copper from Arizona smelting points that will permit the red metal to move here for transhipment, according to J. S. Douglas, president of the United Verde Extension Mining Company, which for the last four years has been endeavoring to secure a rate of $4 per ton on copper from Clarkdale, Ariz., to Los Angeles Harbor.

A rate of $6 a ton on copper bullion from Clarkdale to Los Angeles Harbor, as recommended by the Interstate Commerce Commission's examiner who heard the complaint of the copper company, and which rate local business interests have been urged to support, would not result in the movement of copper to this port, Mr. Douglas declares in a statement given The Times.

"The $4 rate asked by the United Verde Extension Mining Company will certainly result in the construction of copper refineries, wire mills and rolling mills at Los Angeles Harbor," Mr. Douglas states. "This $6 rate will not do this, and would perhaps be a paper rate."

SEEK RATE ADJUSTMENT

Existing rail rates on blister copper, the smelter product, discriminate against Los Angeles in favor of North Pacific Coast ports, and lack of an equitable adjustment is preventing the movement to this city of an enormous tonnage from Arizona smelting points, according to F. A. Jones of Phoenix, chief traffic counsel for the United Verde Extension Mining Company. Rates from Montana and Utah producing points to Seattle, Tacoma and San Francisco have been established on even a lower ton-mile basis than that which is sought by the Arizona company, he states.

A rate of $5.85 per ton on copper between Bingham, Utah, and San Francisco, a distance of over 900 miles, has been placed in effect by the Western Pacific at the request of the Utah Copper Company, Jones stated, and a similar westbound rate on copper from Butte, Mont., to Seattle, and Tacoma is based on virtually the same ton-mile charge. Projecting the Clarkdale-Los Angeles mileage of 546 miles on the Bingham-San Francisco distance of the Western Pacific, and using the same ton-mile basis, would give a rate to Los Angeles Harbor of less than $4 he asserted.

Assertions that no copper would move through this port under a $6 rate from Arizona are based on the fact that the existing rail and water rate from Arizona to New York via Galveston is $12.50 per ton. With a $6 rate from Arizona to this city and a water rate from here to New York, including port charges and insurance of approximately $3.50, establishment of the $6 rate first recommended by the Interstate Commerce Commission's examiner would not result in the movement of a pound of copper west from Arizona, it is declared.

FOR COAST DEVELOPMENT

"Exception has been taken by the United Verde Extension Mining Company to the examiner's recommendation of a $6 rate, and after rehearing the matter has been taken under advisement by the Interstate Commerce Commission," said Jones yesterday. "Westbound rates on copper now in effect from Utah and Montana to Pacific Coast terminals are on a much lower basis, and in fairness to Los Angeles a rate should be established from Arizona, the greatest copper producing State in the country, which will enable at least a part of the vast tonnage of red metal to move to this port, not only for transhipment, but to be refined here and manufactured into copper wire, sheeting and tubing to supply the rapidly growing market of the Pacific Coast and the Orient.

"With the very large demand for copper products occasioned on the Pacific Coast by reason of electric power development, it certainly appears economically unsound that a metal as essential in electrical development as copper should be shipped from Arizona, a neighboring State, to New Jersey for refining and manufacture, and then hauled back to the Pacific Coast. Los Angeles commercial organizations should lose no time in advising the Interstate Commerce Commission of their vigorous support of a $4 per ton rate to this city on copper from Clarkdale. If that rate is granted it will unquestionably result in the movement of a considerable tonnage of copper bullion to this city, and will mean the development here, in my opinion, of a new and very important refining and manufacturing industry."

CONDITION OF BANKS

The following comparative statement of the principal resource and liability items of all national banks as of March 31, 1924, in the city of Los Angeles, was released for publication yesterday by John Perrin, chairman of the board and Federal reserve agent of the Federal Reserve Bank of San Francisco.

LIVERPOOL ADVANCE HELPS COTTON HERE

[EXCLUSIVE DISPATCH]

NEW YORK, April 23.—Cotton futures advanced here despite reports of better weather in the belt. The sharp rise in Liverpool was the chief factor in the advance, but the market's improved technical position was in part responsible for the improvement in values. Scattered buying at the outset sent the list 20 to 25 points net higher, but scattered selling by professional operators canceled most of this advance before renewed support came from local bull interests and from New Orleans operators, causing a sharp recovery which carried the list to new high levels for the day, some 30 to 40 points advance over the previous finals.

Around midday selling by commission-house traders caused a slight reaction from the high level. After moving irregularly in the early afternoon the list again advanced sharply under a wave of buying by Wall-street shorts and commission-house traders. After getting some 50 to 60 points net higher, however, the market slipped off again in the late trading and final prices were but 31 to 40 points net higher. Spot cotton closed 15 points net higher at 29.35.

PRODUCE MARKET

DAILY MARKET REPORT

Trading yesterday was moderate. Early demand was light on account of the rain but picked up during the morning. Most fruits are steady, prices moving fairly well and citrus fruits steady with no change in prices. Strawberries are in heavy supply as quarantine restrictions are keeping much local stuff on the market that ordinarily is shipped to other states. Vegetables are generally steady. Asparagus continues firm and bunched vegetables more plentiful. Another shipment of mangoes from Mexico arrived for the late market.

Actual prices obtained yesterday by Los Angeles jobbers from their sales to retailers, peddlers, hotels, restaurants, cafeterias, etc., as compiled by the United States Bureau of Markets, are:

APPLES—1 car California, 1 Washington arrived; 7 unbroken and 5 broken cars on track. Watsonville, yellow Newtowns, fancy, $1.60@2.25 cwt. Washington: Winesaps, fancy, 1.75@2.00; extra fancy, $2.15@2.25; Rome Beauty, fancy, 1.75@1.85; extra fancy, $2.00@2.15. Yumas, Winesaps, loose, $3.00@3.25 cwt.

ARTICHOKES—294 crates arrived. Fancy, 50@65; medium to large, 40@50 per dozen.

ASPARAGUS—238 crates arrived; 3 broken cars on track. Northern, green mostly, 11@13; few, 14@15; poorer, 5@10 per pound.

BANANAS—Central Americans, 4½@7¼ per pound.

BUNCHED VEGETABLES—Per dozen bunches: Beets, 30@35. Carrots, 30@35. Chicory, 25@30. Spinach, 30@35. Turnips, 50@60. Radishes, red, 20@25; white, 50@65. Onions, 10.

CABBAGE—1 unbroken car on track. Locals, 4@4½ per pound.

CAULIFLOWER—Locals, quality ordinary, mostly 1.00@1.25; few best, 1.50 per dozen.

CELERY—San Diego, mostly 5.00@5.25; few fancy, 5.50@6.00. Locals, mostly 2.50@3.25; poorer, 1.50@3.00; few fancy, 5.00@5.75 crate.

GRAPEFRUIT—Locals, special brands, 3.25@3.50 per crate.

LEMONS—Special brands, 2.75@4.25; choice, 2.75@3.25; market pack, 2.00@2.50; loose, 1.50 box.

LETTUCE—1 broken car on track. Locals, 1.25@1.50 per field crate. Northern, 2.75@3.00 per crate.

ONIONS—3 unbroken and 1 broken car on track. Stockton, Browns, 1.75@2.00; whites, 3.75@4.00 per cwt.

ORANGES—Southern, special brands, 4.50@4.75; 200s and smaller, 5.75@6.25; market pack, 3.00@3.25; culls, 1.00@1.25 per picking box.

PEAS—494 sacks arrived. San Luis Obispo, few fancy, 15; mostly, 11@15.

PEPPERS—1 broken car on track. Mexicans, bells, 14@17; stalks, 10@12 per pound.

POTATOES—13 cars Idaho arrived; 5 diverted; 50 unbroken and 16 broken cars on track. Per cwt.: Idahos, Russets, 2.50@2.75; poorer, 1.75@2.00; Washingtons and Oregons, Burbanks, best, 2.75@3.00; poorer, 2.50. New stock, San Diego, 7@8 per pound.

RHUBARB—Locals: Cherry and strawberry, 1.25@1.40 per box; ordinary variation, 1.00@1.25 per box. Loose, 1.00@1.20 per box.

SACKED VEGETABLES—Per sack: Beets, 1.25@1.50; carrots, 1.10@1.35; turnips, 1.30@1.45.

SQUASH—221 crates arrived. Imperial, summer 1.50@1.60 per crate; Italian, 1.25@1.35 per flat.

STRAWBERRIES—1918 crates arrived. Locals, mostly 2.25@2.50; few best, 3.00; poorer, 1.45@2.00 per crate of 36 pints. Imperial Valley, best 1.00 per tray 12s; poorer, 50@65.

TOMATOES—1 car Mexican arrived; 1 unbroken and 1 broken car on track. Mexicans, best originals, 2.75@3.00; poorer, 2.00@2.25; repacked, 2.75@3.00 per lug. Lemon, pinks, 2@3 per 12s; reds, 6@8 per pound. Imperial, 3.00@3.25 per crate.

MISCELLANEOUS—Garlic: Northern, 8@10; poorer, 6@7 per pound; New Mexicans, 12@13 per pound. Tangerines, locals, large, 6@8; small, 4@5 per pound. Cucumbers: Hothouse, No. 1, 1.75@2.00; few fancy, 2.25; poorer, 1.50 per dozen. Mexicans, mostly 3.00 per lug.

METAL QUOTATIONS

[BY A. P. NIGHT WIRE]

NEW YORK, April 23.—Copper, steady; electrolytic, spot and future, 13¾. Tin, firm; spot and future, 49.87. Iron, steady; prices unchanged. Lead, steady; spot, 7.87@8.25. Zinc, steady; East St. Louis, spot and future, 6.10@6.15. Antimony, spot, 9.75.

BY HOWARD C. KEGLEY

Once again the oil industry of California is buzzing with rumors of an impending increase in the price of crude oil and gasoline. While this is more or less a chronic condition at all times, rumors of late have been growing in number and intensity, until now there are many operators who are not only hoping for an immediate increase, but are actually expecting one.

As a reason for the probability of and necessity for a revision upward in the posted price, operators point to the steadily dwindling production of the Los Angeles gusher fields, which has not yet been replaced by new production in the Domingues and Moscerans areas. It is pointed out that a number of the large producers have had to revise their contracts calling for exports to the East Coast, and that even at the reduced rate of export, there is a steady reduction in the amount of crude oil held in storage.

As an argument against the probability of an increase in gasoline, is seen the rigidly enforced quarantine against foot-and-mouth disease which has reduced motoring in Southern California rural districts to a low point for this time of the year. This, it is pointed out, will reduce the demands upon gasoline storage considerably, and may be sufficient to postpone an increase in gas prices for some time.

Make Fast Time

The Petroleum Midway Company's drilling crews in the Rideout Heights area have been making unusually fast time on four wells which that company is drilling there under an agreement with the Whitley Oil & Refining Company.

Formations in Rideout Heights have the reputation of being about as impenetrable as anything in this part of the country, and rotary tools have a hard time in getting through, yet, according to the Petroleum Midway drilling reports, the Pellissier well is down 2379 feet, Rideout-Hamburg is down 2372 feet, Seward-Rideout is down 2015 feet and Witte-Vinning is down 1875, but these wells have all been spudded in within the month. Operating officials of the company attribute the unusual speed to the use of heavier rotary mud than is commonly used.

Complete Well

Morton & McKenzie have completed their first well in the Torrance field, and are getting about 300 barrels per day, according to officials of the California Drilling Company, which drilled the well. The well had not cleared up last night, and it was said might do better in a day or two. It is down 3775 feet and is located on Acacia street and Eshelman avenue.

Athens Well Wet

The Union Oil Company's Athens No. 1, formerly known as the Potter well, in the Rosecrans field, swabbed wet during the water test yesterday, according to the official report of the company. The well was cemented at 4936 feet. It was said that another cement job will be put in immediately at the same depth.

The Athens No. 1 is the well started by the Potter Oil Company, and taken over by the Union for completion. A good sand was reported in the well about three weeks ago when the casing was set.

New Rosecrans Drilling

The St. Helens Petroleum Company is preparing to drill in the Rosecrans field on the Rowell lease about halfway between the Sandburg well and the Union's Rosecrans well, it is reported by W. W. Stabler, president of the Southwest Petroleum Corporation, which leased the tract to the St. Helens. The lease comprises five and one-half acres, it is said, in which the Southwest retains an overriding royalty interest.

Melon Is Cut

The Cal.-Mex. Oil and Refining Company is mailing checks to its stockholders covering a 4 per cent dividend for the month of April, it is reported by Vern Dumas, general manager of the company. The Simplex Oil Company, also headed by Vern Dumas, is paying a 2 per cent dividend, according to Mr. Dumas. Both companies have valuable holdings in the Signal Hill field.

Official Report

Oil field operations reported to State Oil and Gas Supervisor R. D. Bush during the week ending the 19th inst. show thirty-eight new wells started, as compared with thirty-two during the previous week. Of the thirty-eight notices to drill filed this week, nineteen were for new wells in the Torrance field, two in the Long Beach field, four in the Dominguez field, one each in Huntington Beach field, Richfield field and San Bernardino county, two in Ventura county, one in Contra Costa county and seven in the fields of Kern county. The total new wells this year is 485, as compared with 510 at the same date last year.

Tests for water shut-off this week numbered thirty-nine, as compared with thirty-seven the previous week. Yearly total to date, 510; total to same date last year, 601. Deepening or redrilling jobs this week numbered sixteen, as compared with seventeen during the preceding week. Total to date this year, 231; total to same date last year, 230. Abandonments this week numbered six, as compared with fourteen during the preceding week. Total to date this year, 200; total to same date last year, 69.

Well Comes In

Petroleum Midway's Rosenfield No. 2, after more than a year of trouble, has joined the ranks of producers in the Signal Hill field. It was completed yesterday as a 300-barrel well from the 5000-foot level.

The new producer is situated on the south side of Grant street, east of Obispo avenue, and half a block west of the city's Reservoir Hill lease. Gravity of the oil was said to be 25.8 deg. The well is but a short distance from what is known as the field's biggest hoodoo well, the San Martinez-Booth No. 1.

The development on the Ramsey lease today centered on drilling-in operations at Ramsey B-3. Flower State No. and the showings found in the Brown Zone in Ramsey Morrison No. 1 and McNaughton No. 1 also are attracting considerable attention.

Meeting Planned

The Mojave Basin Development and Protective Association, comprising persons interested in the oil possibilities of the area west of Barstow, are to hold a meeting at 413 H. W. Hellman Building tomorrow evening, it is reported by Lloyd A. Gomes, secretary of the association.

CALIFORNIA HIDE MARKET

Quotations furnished by California Hide Corporation for stock delivered to its warehouse, 1960 Santa Fe avenue. Receipts from the interior for the twenty-four hours ending at 10 a.m. yesterday were: 216 hides, 101 pelts, 250 pounds tallow.

WET SALTED HIDES—No. 1 steers, 8 per pound; No. 1 cows, 6 per pound; No. 1 bulls, 6 per pound; No. 2 bulls, 1½ less per pound; grubby hides, 1½ less per pound; bunker hides, 1 less per pound; glue hides, 2½ per pound.

GREEN HIDES—No. 1 steers, 6½ per pound; No. 1 cows, 6 per pound; No. 1 bulls, 4 per pound; No. 2 hides, 1½ less per pound; bunker hides, 1 less per pound; glue hides, 2½ per pound.

CALFSKINS AND KIPSKINS—No. 1 calfskins, under 15 pounds, 12½ per pound; No. 2 calfskins, under 15 pounds, 11 per pound; No. 1 kips, 15 to 30 pounds, 10½ per pound; No. 2 kips, 15 to 30 pounds, 9 per pound; grubby skins, 1½ less per pound; bunker skins, 1 less per pound; glue skins, 2 per pound; slunks, 10@50 each.

DRY FLINT HIDES—No. 1 hides, 15 pounds and up, 12 per pound; No. 1 kips, 6 to 16 pounds, 12 per pound; No. 1 calfskins, under 6 pounds, 13 per pound; No. 2 hides and skins, 3 less per pound; glue hides and skins, 4 per pound.

WOOL—According to quality and condition, 30 per pound and up.

PELTS—Large, long wool, 2.00 each and up; medium, 1.00@2.00 each; short wool and shearlings, 10@25 each.

GOAT SKINS—No. 1, 15@30 each; No. 2, 5@15 each.

TALLOW—Tankers, 6 per lb.; No. 1, 5½ per lb.; No. 2, 5 per lb.

A Monthly Income From a $2850 Investment

We have selected three issues of high-grade public utility preferred stocks which pay 7% dividends in quarterly payments.

By purchasing 10 shares of each of these stocks, you will receive an income of $17.50 every month. These three stocks pay quarterly dividends on different months, so that a dividend will come to you every month of the year.

As these issues are all selling below par at the present time, you will have a par value of $3000 with a total annual income of $210 from an investment of approximately $2850.

Let us send you detailed information about this investment, or call at our office and arrange your holdings so that you will receive a monthly income.

Eleven Years of Earnings Ensure This 8% Return

When a well-established industrial concern engaged in the processing and distribution, throughout Southern California, of a basic product is able to show consistent growth and a good margin of earnings for ELEVEN YEARS and in addition is conservatively capitalized and possessed of the same management that has brought it from nothing to the second largest Company of its kind on the Pacific Coast, its securities may rightly be considered a medium fully suitable for sound investment.

Such Is the 8% Cumulative Preferred Stock of the California Glass Co. Price 100 and Accrued Dividend Yielding 8%

In detail: It is the policy of the Company to avoid specializing in any one variety, glass being supplied for factories, store fronts, houses, offices, sidewalks, mirrors, furniture, motor cars, etc. All buildings of the Company are of modern brick and concrete, strategically located and well equipped. Certified Balance Sheet as of December 31, 1923, current assets are over 4 times current liabilities. Average Net Earnings for the past four years have been nearly 3 times dividend charges, and for 1923 were approximately 4½ times requirements on all preferred stock outstanding including this issue. Exceptional Security Strong Management 7½% Yield

1. SANTA BARBARA ESTATES, INCORPORATED, First (Closed) Mortgage 7½% Sinking Fund Gold Bonds, due March 1, 1934, are secured by closed first mortgage on $15 acres of residential property located on the State Highway, two miles west of Santa Barbara, and including over 1½ miles of shore line. This property, together with improvements, is appraised at $815,000—$3260 for each $1000 bond.

2. The Company is owned and managed by an exceptionally strong group of Santa Barbara business men and capitalists thoroughly familiar with real estate development. All of the stockholders of the company waive their rights under the Statute of Limitations governing stockholders' liability in California.

3. Priced at 100 and interest to yield 7½%, exempt from California Personal Property Tax, this issue offers conservative investors an exceptional opportunity to increase the net yield of their holdings without sacrifice of safety.

We recommend these bonds for your investment. Circular and detailed information gladly furnished on request.

BOND QUOTATIONS

Better Tone

[BY A. P. NIGHT WIRE]

NEW YORK, April 23.—General improvement was shown in the bond market tone today, although trading was dull and uneventful. The upward turn in stock prices was reflected in stiffening quotations for virtually all classes of bonds. New issues totaling about $36,000,000, which were offered today, were readily absorbed.

A recovery of 4¼ points in the Wilson & Co. convertible 7½s followed announcement that the new recapitalization program would be announced within a few weeks and that a large majority of bankers holding the company's notes had agreed to a six months' extension.

Despite strength of American Sugar Refining stock the company's 6 per cent bonds were subjected to selling pressure, a decline of more than 3 points representing about the only weak spot in the industrial list. Punta Alegre Sugar 7s moved higher.

Application of the Nickel Plate Railroad to the Interstate Commerce Commission to sell $26,053,000 5½ per cent mortgage bonds and to issue $36,010,000 additional securities from time to time for refunding purposes marks the first step in the road's extensive financing program. Offerings of the $26,053,000 issue are not expected until authority of the commission has been obtained.

Following are closing quotations on bonds listed on the New York Stock Exchange, furnished by Logan & Bryan, 636 South Spring street:

CLOSING QUOTATIONS ON BOND EXCHANGE

SAN FRANCISCO, April 23.—Following are the closing quotations on the San Francisco Stock and Bond Exchange. Furnished by Logan & Bryan, 636 South Spring street.

| | Bid. | Asked

WHY
Are We Loaning Money on Real Estate — NOW?

BECAUSE we have ample funds on hand to loan on well located residential property in amounts from $2500 to $10,000. Our first coupon mortgages are finding a ready sale with conservative investors.

BECAUSE we believe that the further development of Los Angeles depends on financing of homes as well as industries.

BECAUSE all loans which we make are based on 75% of a regular bank appraisal. Thirty-five per cent to forty per cent of this is a first coupon mortgage. Interest is payable quarterly at 7% and 8%. The rest of the loan is represented by a trust deed which is payable from 24 to 30 months.

BECAUSE any mortgage we make is a legal investment for savings banks. By complying in every respect with the stringent laws governing savings bank investments, we feel that we are offering the buyer of our First Coupon Mortgages the highest degree of investment safety. Anyone can make direct application to us for a loan. At the same time we give careful consideration to applications from brokers.

If you wish to borrow money on real estate in high class districts—Or, if you wish to purchase our First Coupon Mortgages—either call personally or write. It will be a pleasure to discuss this matter with you.

LOS ANGELES EXCHANGE

The decline in Los Angeles Investment, which started a few days ago from 4.60, gathered further headway yesterday on the Los Angeles Stock Exchange. Beginning at 4.10, a momentary rally carried the price up to 4.15 before the impending selling orders hit the market. From this point, quotations crumbled rapidly, falling past the 4.00 mark to 3.75. Final sales were at 3.80, representing a net loss from the opening of 30 cents.

A fair volume of trading occurred in the petroleum list, although the variations in the price level were minor. Standard of California added 5-8 of a point to its recovery, finishing at 57½, and General Petroleum tacked on 3-4 of a point at 39. Union of California closed at 114, unchanged from the previous day, and United Oil was firm at 26. U. S. Royalties sold at 19 and Julian Petroleum common between 15 and 16 3-4.

Mining shares were unable to arouse speculative interest, the number of transactions running to small figures. Los Angeles Gas preferred sold at 91 1-4, Edison common at 101, Southern California Gas preferred at 90½ and Southern Counties Gas preferred at 98.

Some activity developed in Los Angeles Railway issues, the 5s of 1933 selling at 91 and the 5s of 1940 at 77 3-4, up 3-4 of a point. Pacific Electric 5s of 1942 were taken at 85½, and Pacific Gas and Electric 6s of 1941 at 101 7-8.

Following are the closing quotations and sales:

When You Borrow and When You Lend

When a business man seeks financial accommodation he must be prepared to submit a financial statement and a great deal of other information that will withstand the most searching investigation. This the conservative banker demands before extending the credit of his institution.

When you purchase bonds you are lending your money and you will find that it is good business to be just as careful as the banker.

You recognize at once that you have neither the time nor the facilities for far-reaching and effective analysis.

Moody's for a moderate fee will assist you to pass upon all investments before you make them and afterwards maintain a close watch over them.

"In Every Man's Business" is the title of a booklet we have issued. A copy is available to every interested investor.

MOODY'S INVESTORS SERVICE

$37.7c960 in Ten Years

How Robert Odell did it is a story that should be read by all who want to invest more profitably. It tells how he found and followed his star to success, and then turned the tide of fortune through his own effort. It's a fascinating story of information and inspiration that will hold your interest from first to last. Only ed to us with your name and address in margin for free copy of "The Rousing of Robert Odell."

MARKET REVIEW

[EXCLUSIVE DISPATCH]

NEW YORK, April 23.—Today's rather numerous recoveries of a point or more in the industrial shares had no other visible significance than another change of direction in the narrow swing of prices. Not to go further back than a week, the stock exchange had been favored with a saving price on three successive days and by declines on the next three, so that today, under the highly mechanical program of the professional operators, should properly have been scheduled for an advance again. That the averages, after all the intervening forward and backward movements, should have ended today almost exactly where they stood a week ago, was only the familiar sidelight on the market's character.

One or two items of industrial information which came to hand today served to emphasize the equally familiar fact that the trade movement is not on the scale of a year ago, but nevertheless has some undoubtedly favorable aspects of its own. For the fourth successive time the railway carloadings statement covering the second week of April showed decrease from 1923. But while 7 per cent less cars were loaded than a year ago, the week's total ran nearly 18 per cent above the corresponding period in any other year. As compared with 1920 (this season was described as active) loadings for the first two weeks of the present month have increased 23 per cent and the amount of general merchandise started for distribution in the second week was actually 5 per cent above even 1923.

Similar curious discrepancies appeared in the midweek reports on the steel trade. The reduction in active furnaces has been greater than any preceding week this year, and the average rate of production in the Pittsburg district is now reported at only 75 percent of capacity, as against 90 during March. Yet, on the other hand, the Iron Age remarks that, dispite the apparent holding back of orders by consumers, "shipments from the mills appear to be up to the averags of 1923," while volume of railway and construction work "compares favorably with that of March."

It may be correctly said, therefore, in the light of these latest returns, that the industrial position is still made up of the somewhat unusual combination of extremely large absorption of merchandise by consumers, with almost unanimous willingness on their part to commit themselves far ahead in the matter of prices. If this reluctance were accompanied by steadily reduced consumption, then prices would be falling much more rapidly. As it is there appears to be a fairly accepted level on which buyers and sellers can meet and do more than a normal business; but predictions have been pushed so far that the buyer has on the whole the position of advantage.

Both sterling and francs advanced in the London market before the New York opening, to prices higher than any yet touched. The early Wall street rates also went above Tuesday's high; the franc, at 6.85 cents, double the 3.42 price of March 8.

These early high prices of today did not hold for either francs or sterling, both closing at a a moderate reaction.

Prices Move Up

[BY A. P. NIGHT WIRE]

NEW YORK, April 23. — Stock prices moved up briskly today under the impetus of a broad-covering movement which apparently was based on the realization that the short interest was becoming unwieldly as indicated by the unusually large number of stocks loaning "flat" and at premium. Net gains of 1 to 2 points were quite common at the close, with the sugars, oils and motors giving the best demonstrations of group strength.

While sentiment is still divided as to the immediate trend of prices, opinion of traders was quite general that the so-called short interest in the market is one of the largest

WHAT'S DOING TODAY

Philharmonic Auditorium, Fifth and Olive, evening. Benefit of Los Angeles Children's Hospital. All-star cast on program.

Fruitvale Club luncheon, 3211 South Spring. Morning, Rev. Lyle A. Tremaine, speaker.

THE MASTER STROKE FOR RENEWING VIGOR

Neugo Gland Tablets

NEUGO is a scientific gland food and tonic, a system revitalizing preparation for the treatment of general debility, lowered vitality, nervous disorders, physical and mental weakness. When there is a feeling of exhaustion, and the system is all run-down, and ambition lags; when the appetite fails, and the food tastes flat; when there exists a nervous condition and the whole system feels out of harmony, then the NEUGO GLANDULAR TREATMENT will be found effective in overcoming these adverse and trying physical, nervous and mental conditions by nourishing and stimulating glandular activity.

Price $1.50 at all leading drug stores or direct by mail. Standard Drug Company, Offices, 916 South Broadway, Los Angeles, California.—[Advertisement.

Corns

Never Use a Knife!

It is so easy to get rid of a corn. Blue-jay ends them. Stops the pain instantly. Then the corn loosens and comes out. Does away with dangerous paring. Get Blue-jay at your druggist.

© B & B 1924

Blue-jay

Stabbed by Neuritis

Many people suffer attacks by this arch-fiend, commonly called "nerve inflammation." The first warning is usually a sharp stabbing pain, which may "come and go" or hurt constantly. You may feel it in the shoulder, neck, forearm, small of the back, or down the thigh and leg to the heel. It is sometimes mistaken for sciatica, rheumatism or neuralgia, which tronbles often do end in neuritis.

No matter where you have nerve pains or what caused them, you can get quick relief without using narcotics or poisons. Apply Tyzmol over the part that hurts, and within a few minutes the pain should be gone.

Tyzmol is absorbed through the pores of the skin. It has a soothing, healing effect upon the diseased nerves, gradually helping to restore them to healthy condition.

Don't suffer any longer. Obtain a supply of Tyzmol from any good druggist—price $1.

Tyzmol Company, Mfg. Chemists, 400 Butter St., San Francisco.—[Advertisement.

CORNS

Lift Off—No Pain!

Doesn't hurt one bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers.

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the foot calluses, without soreness or irritation.—[Advertisement.

AMERICAN SILK MILLS

A CLEAR COMPLEXION

Ruddy Cheeks — Sparkling Eyes —Most Women Can Have

Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, calling them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women and men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep them fit. 15c and 30c.—[Advertisement.

Many School Children Are Sickly

Mothers who value their own comfort and the welfare of their children, should never be without a box of Mother Gray's Sweet Powders for Children for use throughout the season. They break up Colds, Regulate the Bowels, Relieve Feverishness, Constipation, Teething Disorders, Headache and Stomach Troubles. Used by Mothers for over 30 years. THESE POWDERS GIVE SATISFACTION. All Drug Stores. Don't accept any substitute.

THE WEATHER

[Official Report]

LOCAL OFFICE, U. S. WEATHER BUREAU, Los Angeles, April 23.—[Reported by H. B. Hersey, Meteorologist.] At 5 o'clock a.m. the barometer registered 29.86; at 5 p.m., 29.85. Thermometer for the corresponding hours showed 57 deg. and 69 deg. Relative humidity, 5 a.m., 92 per cent; 5 p.m., 63 per cent. Wind, 5 a.m., west, velocity 9 miles; 5 p.m., south, velocity 19 miles. Temperature, highest, 83 deg.; lowest, 49 deg. Rainfall for season, 6.68 inches; last season 10 date, 9.37 inches. Barometer reduced to sea level.

WEATHER CONDITIONS.—Showers occurred yesterday in the North Atlantic states and in Southern California. Moderate temperature was reported over the greater portion of the country yesterday morning. In Southern California clear weather prevailed Tuesday, but this was followed by increased cloudiness at night. Local showers began at many points early yesterday morning, with light snow in the mountains. The greatest amount of precipitation reported up to 6 o'clock was 1.56 inch at San Pedro. Unsettled weather may be expected to continue in this vicinity Thursday, with probably occasional showers. Small-craft storm warnings were ordered up on the Southern California coast at 7 o'clock yesterday morning for strong, gusty southwesterly winds.

SUN, MOON AID TIDES.—Los Angeles, April 24: Sun rises 5:11 a.m.; sets 6:31 p.m. Moon sets 8:55 a.m. Los Angeles Harbor, April 24: High tides, 12:21 a.m. and 2:40 p.m.; low tides, 7:52 a.m. and 7:15 p.m.

LOCAL TEMPERATURES.—Minimum and maximum temperatures from Southern California points, reported yesterday to the Los Angeles office of the U. S. Weather Bureau, were as follows:

Stations—	Max.	Min.
Calexico	93	54
Los Angeles Harbor	66	50
Mt. Wilson	56	31
Newport Harbor	61	51
Pasadena	66	47
Pomona	71	43
Redlands	69	46
Riverside	71	49
Santa Barbara	63	50
San Bernardino	73	49
Santa Ana	69	51

LOCAL FORECAST

For Los Angeles and vicinity: Thursday fair in east, clearing in west portion; moderate to fresh southwesterly winds.

STATE FORECAST

SAN FRANCISCO, April 23.—Weather forecast: San Francisco and vicinity: Fair Thursday; not to cool; moderate to fresh northwesterly winds.

Northern California: Fair and warmer Thursday; moderate to fresh northwesterly winds.

Sacramento, Santa Clara and San Joaquin valleys: Fair and warmer Thursday; moderate northwesterly winds.

Southern California: Fair Thursday in the east portion, clearing in the west portion; moderate to fresh southwesterly winds.

ARIZONA FORECAST

PHOENIX (Ariz.) April 23.—Forecast for Arizona: Generally fair Thursday and Friday; not much change in temperature.

COLORADO RIVER

YUMA (Ariz.) April 23.—[Exclusive Dispatch from the U. S. Reclamation Service.] Gauge height Colorado River, 21.8 feet. Discharge, today, 42,100 cubic feet; yesterday, 42,500 cubic feet.

COLOR 'HEALER' ARRESTED; OCCULT SCHOOL RAIDED

Dinshah Disciple Faces Medical Law Charge

The asserted revolutionary art of treating all ailments by color waves, fathered by a Parsee from India, Col. Dinshah P. Ghadiali, came under scrutiny of the law in Los Angeles late yesterday with the arrest of a pupil of Col. Dinshah by Special Agent Albert Carter of the State Board of Medical Examiners.

J. W. Cowan, 35 years of age, was the disciple of Col. Dinshah taken into custody. He pleaded not guilty to a charge of violating the State Medical Act by practicing without a license when arraigned before Judge Chambers in Police Court. Bail was set at $200.

Cowan immediately requested that Col Dinshah be notified.

Operating as J. W. Cowan, S.C.T. (Spectro-Chrome Therapist,) the suspect was taken into custody at his offices, 427-429, in a building at 321 West Third street. His apparatus, consisting of a spectro-chrome machine and colored slides, together with advertising literature, was seized as evidence. Fifteen persons whom he is asserted to have treated will be summoned as witnesses.

Col Dinshah has been giving lectures in Los Angeles on his asserted color-healing invention, and instructing students at room 437, Lankershim Hotel. He has been the object of attack by Henry Ford since he arrived in the United States, having been particularly assailed in Ford's magazine, the Dearborn Independent, as a master of buncombe who has placed himself in a position to defy the law by refraining from personal healing practices while teaching his methods to others. Col. Dinshah has challenged Ford's statements, however, and asked for an investigation.

The system which Cowan used, as taught by the Parsee colonel, is based on the theory that the waves from each color of the spectrum have particular heading powers; that the body is divided into areas which have color affinities, and that the application of the proper color wave will alleviate any disease located in the particular area to which it is applied.

The system holds that the true primary colors are red, green and violet, and the machine, or medium through which the treatment is given, Carter said, is composed of a 1000-watt electric globe, which produces light through a concentrating lens. The light then passes through colored glass slides which may be changed at will. What color light to apply to that portion of the body affected is accomplished by means of a chart, which supplies full directions.

Special Agent Carter said that the arrest yesterday was the first of a series planned by the Board of Medical Examiners, to include every pupil of Col. Dinshah who sets up in practice.

"The Board of Medical Examiners are helpless to bring action against Col. Dinshah," he said, "because he does not practice or treat patients with his machine. He merely teaches pupils the uses and methods and they go out and practice. Cowan is one of these."

Advertising matter used by Col. Dinshah and by Cowan disclaims any attempt to heal the sick and afflicted.

"I treat—Nature heals," is the slogan used.

Col. Dinshah in a lecture on the 11th inst., attacked Henry Ford and American medical institutions, asserting that he (Dinshah) was the victim of malicious persecution, and that he would strike back.

The attack on Col. Dinshah in The Dearborn Independent was published in the issue of March 15, under the heading, "Colored Glass Now Cures All Ills."

Cowan's hearing will be set by Judge Chambers today at 2 p.m., the defendants having requested until that time to consult an attorney and obtain the advice of Col. Dinshah.

Records of Cult Held; Students Now Sought

Swooping down on the headquarters of the School of Sacred Science in the Walker Auditorium Building late yesterday afternoon, detectives from the District Attorney's office seized records, documents and files of the organization and then searched the home of Ralph M. De Bit, leader and founder of the cult.

The two raids were conducted under search warrants by Detectives Diamond and Reamer of the District Attorney's office, acting under instructions from Chief Trial Deputy Fitts. All of the papers and records seized were taken to Mr. Fitts's office for checking. Efforts will be made today to locate other papers and some letters believed to be in the hands of some of the students enrolled in the organization.

MILLION "SHARES"

Among the records seized at the headquarters of the school in the Walker Auditorium and at the home of Ralph De Bit and his wife, Dr. Ione Ingles De Bit, were trustees' certificates in the School of Sacred Science Association. This association, according to the records, is capitalized at $1,000,000, divided into 1,000,000 "beneficial interests called shares." The purpose of the association, it is declared, was to establish a community for the cult near Long Beach.

Upon the records seized, Fitts announced, will be based the inquiry to determine whether or not the sale of certificates was in violation of the Corporate Securities Act. So far, it is asserted, no record has been found of a permit issued for the sale of stock, neither is the "association" incorporated.

FEDERAL QUIZ SEEN

When the investigation of this angle is completed, Mr. Fitts declared, the matter will be placed before State Corporation Commissioner Daugherty.

It also developed yesterday, Mr. Fitts said, that the association has used the United States mails. This discovery, it is said, will bring the matter before the Federal authorities.

The seizure was directed by Fitts and was conducted with the assistance of Investigators Charles Reamer and Jack Diamond, who have been assigned to the case. It was conducted on the authority of warrants obtained by the District Attorney's office.

Continuing the search into the inner workings of the school or occult healing and metaphysics, the investigators yesterday took a lengthy statement from Miss Miriam Ronnen, former secretary for Ralph De Bit. Miss Ronnen left her position with the school a week ago, it was said. They also questioned Dr. J. H. Kritzer, former student of the school, and Miss Fannie Swan, housekeeper for the De Bits since their marriage last August.

The present scrutiny of the school by the District Attorney's office was projected by the suicide Monday of Theodore G. Beaver, wealthy manufacturer and student of the school, who is said to have planned to donate a large sum of money to the proposed community near Long Beach.

HYPNOTISM CHARGED

Another development yesterday which affects the investigation is connected with the civil action filed for the recovery of $27,000 donated to De Bit by Mrs. Emma E. Adams, an asserted incompetent. The action was filed through Mrs. Lida M. Kinney, guardian of Mrs. Adams. It is asserted that the De Bits obtained possession of Mrs. Adams's fortune while she was under the influence of hypnotism.

Judge J. Perry Wood yesterday appointed the Security Trust and Savings Bank guardian of Mrs. Adams's property on Mrs. Kinney's application.

Judge Wood declared it appeared Mrs. Adams was likely to lose her money through the action of "artful and designing persons."

At the hearing yesterday Mrs. Kinney testified Mrs. Adams got messages from her dead husband via the ouija board, telling her when she and her children would die.

ADMITS GIFT

Mrs. Adams was not in court, but came when a bailiff was sent for her. She admitted she had given De Bit a deed for her home.

McCartney Case "Mystery Woman"

Mrs. Caroline Faltis

Asserted woman companion of realty man in alleged roadhouse attack on wife bears out story of Sydney Blair, to effect that he acted at the point of McCartney's gun.

SEEK M'CARTNEY ON TRAIN

Middle West Police Get Wire from Sheriff Traeger; Forced to Pose at Gun's Point, Blair Says

Acting on a hot tip, Sheriff Traeger late last night rushed a wire to a town described by the Sheriff's office only as "somewhere in the Middle West," requesting the authorities there to take from an eastbound train a man whom the authorities believe to be Grant McCartney, wealthy real-estate broker wanted in connection with an attack on his wife in a roadhouse on the night of the 6th inst.

Ever since Mrs. McCartney, who is suing her husband for divorce, was picked up from the road in a semiconscious condition following the attack on her, the authorities have been looking for McCartney. The wife said she was lured to the roadhouse by a ruse and there forced into a compromising position with Sidney Blair, process server and private detective, while a flashlight picture was taken. She said that following the asserted attack she was driven away in her husband's automobile but managed to leap from it to the street, where she was found by Deputy Sheriff Herrod, who happened along.

Blair said he was forced into the compromising position with Mrs. McCartney at the point of a gun held in McCartney's hands.

"MYSTERY WOMAN" SPEAKS

This charge and the issuance of a statement by the "mystery woman" in the case, whose identity was disclosed as Mrs. Caroline Faltis, wealthy matron living at 620 South Gramercy Place, were the developments yesterday in the investigation of "frame-up" charges made by Mrs. McCartney against her husband and Blair.

Blair's statement was made yesterday shortly after his arrival with Deputy Sheriff Frank Dewar from Albuquerque, where he was arrested. Questioning was in the presence of Deputy Sheriffs Stensland, Weir, Dewar and Capt. William Bright of the homicide squad of the Sheriff's office.

Blair denied he struck Mrs. McCartney on the mouth, felling her, while a flashlight photograph was taken of them in a compromising position. He charged McCartney with striking the blow and with shoving a pistol against his head until he went down on his knees beside Mrs. McCartney.

ADMITS "FRAME-UP"

He admitted, however, being hired by the real estate man to leave service of Mrs. McCartney for whom he was supposed to be serving papers against her husband, and to participate in a "frame-up" at the roadhouse. The extent of the "frame-up" was limited at the time, however, he declared, to placing liquor glasses on a table at which Mrs. McCartney would be sitting.

The statement further deals with Blair's movements in watching Mrs. McCartney whom her husband had charged, he said, with going out with a casting director living in Hollywood, and with the events following the night of the 6th inst. until Blair's arrest in Albuquerque five days later.

Mrs. Faltis, from whose house the McCartney party left on the night of the 6th inst., appears constantly in Blair's story, but, according to deputies, is not involved by it so as to make her criminally liable.

LOANS TO McCARTNEY

The matron, rich and beautiful, has been separated from her hus-

SPEED ON HIGHWAY WORK URGED AS VITAL TO CITY

Auto Club Obtains Pledge of Civic Leaders to Hasten Paving as Stabilizer of Economics

The Automobile Club of Southern California yesterday asked the city government to hasten realization of the city's program of highway development as a means of adjusting the city's economics as well as accomplishing the improvements for their traffic relief and property improvement value. The request was backed by the Chamber of Commerce, the Los Angeles Traffic Commission and the newly formed Greater Los Angeles Association.

Civic leaders declared the matter one of immediate and all-important necessity.

The program was discussed at a luncheon at the Elite, attended by the Mayor, members of the City Council and other city officials who promised their hearty co-operation. The Automobile Club's proposal was embodied in a letter to the City Council signed by W. L. Valentine, the club's president. David R. Faries, chief counsel for the club, read the letter.

OPPORTUNITY CITED

It said:

"We are advised that there are at the present time, forty-three projects pending for the paving or improvement of main, important arteries of travel for which petitions have been granted by the City Council. These projects will comprise, we are told, sixty-three miles of streets and will cost altogether more than $50,000,000 to construct. We are further advised that, with four exceptions, no work has been done in the preparation of plans on any of these projects. We also are told that in addition there are 130 orders for street improvement work not yet presented to the Council which the petitions were filed prior to January 1, last, and over 300 orders for street improvement work which have been filed since January 1, last, none of which has yet been reached.

"In calling your attention to this situation we do not by any means intend to criticise any officer or any employee of the city. It is not our thought that there is occasion for such criticism. Our motive in calling it to your attention is the hope that you will see in this situation the opportunity for constructive action on your part which will place in circulation the millions of dollars and place in positions of employment the thousands of men necessary for the carrying on of this vast street construction program.

SPEED URGED

It is probably fair to say that in the ordinary course of events, as progress is now being made, it will be approximately two years before all of the street work for which petitions are now on file can be commenced. We respectfully suggest to you that you could do nothing better for the city of Los Angeles than to expedite this work to such an extent that all of the street work now petitioned for could be started within a period ranging from three to six months.

"The city of Los Angeles constantly is looking for new industries which will provide additional work for its citizens. Here is an opportunity for the City Council to provide almost immediately an industry of tremendous magnitude. Nor is this all. The expediting of this work as we suggest herein would be a tremendous assistance in the solving of the city's traffic congestion problem—a phase of the matter which alone would justify strenuous efforts on your part."

"This proposal rightly puts traffic relief in a secondary position," said Paul G. Hoffman, president of the Traffic Commission. "As we understand it, the total of the projects is nearer $50,000,000. The cost to the city of the realization of this program would be repaid twenty to one in the saving of time alone through the paving of the main arteries."

BACKED BY MAYOR

Mayor Cryer was in "hearty accord" with the proposal.

"I was very much struck recently by reading an article which held it was poor economics to do public works at peak prosperity, since it merely reduced the supply of labor," he said.

"Hence at this time of what might be called relative depression, nothing could be better for the city. If we are two years behind our street program it is

ASKS POWER BOND STAND OF CHAMBER

Citizens' Committee Seeks to Clear Up Reports of Conflicting Nature

April 23, 1924.

An Open Letter to the Board of Directors, Chamber of Commerce, Los Angeles, Cal.

Gentlemen:

In the campaign literature circulated by the Mayor's Power Committee the statement appears over the signature of your secretary that the chamber approves the $21,000,000 power bond issue May 6, as a result of careful investigation "through its expert committees."

There recently has appeared a public statement to the effect that the Chamber of Commerce subcommittee of five engineers (D. W. Murphy, Alfred Salisbury, W. R. Barnard, Frank Simpson and Mr. Elsasser) carefully investigated and reported to the Chamber of Commerce power committee, of which Lucien K. Chase is the chairman, that $8,000,000 would suffice to answer the present needs of the Power Bureau.

The divergence between these two assertions gives rise to a very serious question.

Was the report of the subcommittee of five engineers presented to the directorate and members of the chamber by the committee of which Mr. Chase is chairman?

Further:

In a spirit of fairness to both sides in the present controversy, would it be just to give the public access to the subcommittee report to which reference is made?

The Chamber of Commerce is highly regarded as a quasi-public body, engaged in the laudable effort of promoting the welfare of Los Angeles, in all parts of the nation. Spending as it does, money raised by taxation and contributed by the public, it owes to the public the neutral duty of adding to the general understanding of all public questions.

[Signed]

Very truly,

CITIZENS' BOND COMMITTEE

By Dana R. Weller.

MATRIMONIAL PLAN RUDELY BROKEN UP

Plans of Mollie Pollock, 17 years of age, to marry right away were broken up yesterday by Detective Lieutenants Lloyd and Roberds when they found her fixing up an apartment she had rented at 520 South Flower street. The young woman, who is an artist's model, disappeared Sunday and her parents reported her as missing. "I left home to get married," she told the detectives. But her parents went to the police station and took her away with them. A young man she said was her fiance accompanied her to the police station, but did not remain.

SCORE HURT AS CAR HITS TRUCK

Skull of Driver is Crushed, and Death Expected

Five Taken to Hospital for Emergency Treatment

Traffic is Tied Up by Crash on San Pedro Street

A truck driver was probably mortally hurt, a score or more passengers were injured, a street car was damaged, a motor truck was demolished and rush-hour traffic was delayed half an hour late yesterday in a collision at Twenty-fourth and San Pedro streets.

The driver is Joe Lee, 34 years of age, of 1415 West Sixty-ninth street, employed by the Log Cabin Bakeries. His skull was crushed and he received other injuries practically certain to cause his death, physicians said.

Four passengers and the motorman of the street car were sufficiently injured to require treatment at Receiving Hospital and twenty or twenty-five passengers were cut, bruised and shaken but did not go to the hospital.

Howard Hennessy of 6416½ Mira Monte avenue; A. D. Clark of 5926 Towne avenue; J. E. Johnson of 402 East Sixty-sixth street, and Thomas J. Stenshorn of 501 East Vernon avenue, with Motorman C. E. Cowdrey, were treated at Receiving Hospital for cuts of face and hands. All were standing on the front platform where the greatest force of the shock was received. Conductor A. C. Watterson was slightly hurt.

According to Motorman Cowdrey, Lee was driving in the same direction as the street car, southward, and swerved suddenly in front of it. The street car struck the truck a glancing blow, sending it completely over and smashing it. The front end of the car was shattered by the blow.

HOLLYWOOD HOTEL IS TO GO UP SOON

Work on New $6,000,000 Structure Will Start in Few Weeks

Work on the new Hollywood-California Hotel will start within a few weeks, it was announced yesterday by Noel Davenport, president of the building corporation.

As announced in The Times several months ago, the proposed hotel will be built on Hollywood Boulevard near Gower street, at a cost in excess of $6,000,000. According to plans being outlined by Curlett & Beelman, architects, the hotel will be height-limit and built in the form of a cross.

Contracts have been let to the Foundation Company of New York, builders of the Singer and Woolworth buildings in New York City. A bond issue of $2,500,000 has been underwritten by Sutherlin, Barrow & Co., Inc., of New Orleans, and Walker & Roberts of New York.

Sheran & Alvord, attorneys, are preparing papers for the organization of the company under California and Delaware laws at a capitalization of $4,000,000. Directors of the company include Dr. Frank H. Barham, Jacob Baum, Ida H. Brokaw, Charles H. Christie, Noel Davenport, William C. De Mille, Edward A. Dickson, Benjamin E. Hampton, Neil McCarthy, James A. Nelson, Fred Niles, Dr. O. E. Palmer, Hal E. Roach, John E. Sutherlin, A. Z. Taft, Jr., and George G. Young.

MARRIED FOR SIXTY YEARS

Ardmore Avenue Couple Celebrate Anniversary of Wedding During Civil War

Yesterday meant the realization of dreams to Mr. and Mrs. Joseph Berny of 118 North Ardmore avenue, for they celebrated their sixtieth wedding anniversary, surrounded by six of their eight children, sixteen grandchildren and one great-grandchild.

Even the weather, according to the aged couple, corresponded with that on their wedding day and at the reception in the afternoon there were two friends who had attended the wedding as children sixty years before.

The wedding took place during the Civil War at Terre Haute, Ind., Mr. Berny going back to the front the day after his marriage. It is his proud boast that he voted three times for Abraham Lincoln, once for Senator and twice for President. He is 88 years of age and Mrs. Berny is 82.

The children who were present are Mrs. Will N. Goff, Mrs. G. L. Sallada, Mrs. C. F. Matthais, Mrs. Harry Lowe and Miss Carrie Berny, of this city, and Mrs. John F. Shaw of Terre Haute, where Mr. and Mrs. Berny lived until coming to California. Mrs. R. J. McKenna of Omaha, and Mr. Charles Berny of Edinburgh, Tex., were unable to come.

Realize Dreams of Long Ago

Happy on Sixtieth Wedding Anniversary

Mr. and Mrs. Joseph Berny, whose nuptials took place in Lincoln's day.

ALMOST INCH OF RAIN FALLS

Seasonal Precipitation Increased to 6.65 in Los Angeles; Prospects for More

Intermittent showers that ended in a heavy rain Tuesday night and yesterday morning materially increased the seasonal precipitation in Southern California. An average of almost an inch of rain fell during the night and early morning.

Los Angeles was visited by .55 of an inch of rainfall with prospects for more, according to the local Weather Bureau. This brings the season's fall up to 6.65 inches against 9.57 at this time last year.

HEAVY FALL AT BEACH

At long Beach 1.36 inches fell, almost all between the hours of 5 and 6:30 a.m., yesterday. At times there the fall amounted to almost the proportions of a cloudburst. Storm drains and sewers in all parts of that city were reported flooded. The rainfall there still is two inches short of last year's mark.

San Joaquin Valley received almost a quarter of an inch. Indications there were that more rain would fall, although the forecast was for clearing weather today. Tourists making the trip over the summit from Lone Pine, Inyo county, to Camp Nelson, reported that five feet of

COUNTERFEIT SUSPECT SEIZED

Man is Said to Represent Gang in Southland

Will be Taken to Bay City to Face Charge

Four Held in San Francisco; Equipment Taken

Walter Hoover, arrested in Los Angeles yesterday by William W. Ashe, agent in charge of the United States Secret Service, is said by officials to be the Southern California representative of a counterfeiting gang that has been passing spurious $10 and $20 Federal reserve notes throughout the State. Hoover was arrested in a hotel. He will be taken to San Francisco for trial on a charge of conspiracy to make and pass counterfeit money.

Four others to be tried with Hoover are under arrest in San Francisco. They are Edward Miller, Harry Indorsky, Mrs. Alice Indorsky and Harry Schwartz. Miller, it is reported, recently was released from the Federal prison at McNeil Island where he was imprisoned for violation of the Dyer Motor Vehicle Act.

According to Ashe, secret service officials began search for members of the asserted counterfeiting gang in January when reports of counterfeit Federal Reserve notes came in from various cities. Federal agents in San Francisco raided a residence in an exclusive section of the city where they seized, they assert, three outfits used in making spurious money. They reported finding counterfeit bills amounting to about $10,000. Miller, it is said, owned two homes and posed as a retired millionaire.

Agent Ashe said the $10 notes are well made but that the $20 notes are off-color and have been passed mostly on foreigners.

PLEA TO DISCONTINUE RATES OF COMMUTERS

The State Railroad Commission took under advisement yesterday the application of the Glendale and Montrose Railway Company for permission to discontinue commutation fares between Glendale and Eagle Rock, following a hearing on the petition before Examiner Geary.

The company asked cancellation of the thirty-ride commutation fare books selling for $1 which have been issued for more than eight years. As a substitute the company applied for permission to charge a straight 5-cent fare for the two and one-half-mile ride between Glendale and Eagle Rock.

No protestants were present at the hearing and it was declared by officials of the company that the city of Glendale had approved the proposed change in fare.

The commission announced yesterday that permission has been granted the Pacific Electric to discontinue street railway service on East Washington street from Lake avenue, Pasadena, to the end of the line at Sierra Alta on condition that motor bus service be installed on the route.

FILMS LURE GIRL TO NAVY

Admiral Thinks Bobbed-Hair Blonde Found on Arizona Sought Publicity and Hollywood

Love of sensation and hopes for a film career and not the proverbial love for a sailor-man were the motives that entered into the tradition-shattering presence of a bobbed-hair sailorette on board the U.S.S. Arizona.

A rigid search of all ships of the Fourth Division of the United States battle fleet yesterday at Los Angeles Harbor failing to reveal additional girl stowaways drew from Rear-Admiral W. V. Pratt the opinion that the discovery of the girl stowaway on the dreadnaught Arizona at Balboa, Panama Canal Zone, on the 12th inst., was the blasting of a film-struck maid's scheme to get free transportation to Hollywood with abundant publicity as an introduction.

NO ACCOMPLICE FOUND

The investigation by the naval board of inquiry so far has failed to connect any one with the smuggling of the girl on board the warship, it was said.

The discovery of the bobbed-hair blonde stowaway was disclosed yesterday. She is Madeline Blair, 22 years of age. It is believed she concealed herself aboard the Arizona while it was in New York Harbor. She was attired in a regulation sailor's uniform and might not have been discovered, it was said, had not her cap fallen off when she stooped to drink in the engine room. She was found fifteen minutes before the Arizona sailed from Balboa and was promptly put ashore.

TELLS OF OTHERS

The girl's statement, before she left, that there were other stowaways of her sex aboard ships of the Fourth Division caused Admiral Pratt to order a rigid search.

Last night, the search at the harbor being fruitless, Admiral Pratt said he is sure the Blair girl pulled the smuggling act alone and that none of the personnel was implicated.

The Harbor District turned out en masse to welcome officially the Battle Fleet yesterday. The streets of the harbor district were decorated and a score of dances and parties were given the returned sailors and officers.

OFFICERS DINED

Admiral S. S. Robison, commander-in-chief of the Battle Fleet, his staff and hundreds of officers were honored guests at an informal reception last night at the Elks' Club at Los Angeles Harbor. The affair was tendered by the Chamber of Commerce.

Enlisted men numbering several thousand were entertained at the Soldiers and Sailors Club.

Reunions in hundreds of homes were observed during the day. Social and church bodies threw open their doors for the men on liberty.

VETERANS AFTER RECRUITS

A recruiting campaign will be launched by James B. Gresham Post, Veterans of Foreign Wars, at an entertainment and smoker tonight at headquarters at 427 South Hill street. Arrangements have been made for more than 1000 guests from Southern California. The program is in charge of David H. Brady, post commander.

SAY M'CARTNEY IS ON TRAIN

(Continued from First Page)

band for the past year, she told newspaper men yesterday at the office of her attorney, R. D. Knickerbocker. She says her acquaintance with McCartney began about two months before they went to the roadhouse and that during that time the real estate man borrowed numerous sums of money from her.

She admits accompanying the McCartney party to the roadhouse, but says she remained outside in her car, where she had fallen asleep when Blair and his wife, the first to depart, came out. The three of them then drove to her home in her car, she said.

How McCartney later called them on the phone and they went out to a point near the Gold Seal Riding Academy where his car was stuck in the mud, she related, together with the incidents of the following morning when, in ignorance of the real nature of the occurrence she said, she aided McCartney in cashing a check of $1000, signed by C. C. Julian. She says she took $200 of this money, which he owed her, and gave him the rest.

LEARNS DECEPTION

When, the next day, she read that Mrs. McCartney had been "framed" instead of being photographed with the motion-picture director accused by McCartney, she said she was horrified to realize her part in the deception. When Blair called and tried to find out where the real estate man had fled to, she said she told him she never wanted anything to do with him again.

After being refused money by her, she says Blair threatened to "expose" the affair. "I told him to go right ahead," Mrs. Faltis declared.

The revolver McCartney carried, Mrs. Faltis said he took from her garage.

Investigating the affair.

PART KNOWN FOR DAYS

Her entire statement had been taken several days ago by the District Attorney's office and her connection with the case been known by the Sheriff's office even before this, it was declared yesterday. The decision to make public her connection with the affair was upon the advice of Attorney Knickerbocker and the assurance of deputies that she was considered by them as only another one of McCartney's victims.

Another blow against the fugitive real estate promoter was delivered yesterday when Presiding Judge York of the Superior Court set the hearing of Mrs. Paula McCartney's divorce action against her husband for July 7 of this year.

The action followed the filing by Mrs. McCartney of affidavits reviewing her recent experiences at the roadhouse. It was opposed by Attorney Dudley Robinson, for McCartney, who said he had not been in touch with his client and could not prepare a defense.

Elisha Babcock Interment Will be at Arlington

The body of Elisha J. Babcock, Civil War veteran and former attache of the State Department, who died Tuesday at the home of his daughter, Mrs. Robert A. Green, 639 South Grand avenue, will be taken by his widow to Washington, D. C., their home for more than fifty years, for interment in Arlington National Cemetery.

Mr. Babcock, who was 80 years of age, retired from active service in the State Department two years ago, after having been retained in office eight years beyond the usual age of retirement and following a career in governmental service, covering more than half a century. He served with distinction throughout the Civil War, being several times wounded in action. He served as special secretary to Secretaries of State Sherman, Hay and Root.

With Mrs. Babcock he came to Los Angeles more than eighteen months ago to be with his daughter and son-in-law here. Services will be conducted here today at 4 p.m. at the Connell Funeral Parlors, 1239 South Hope street, and the widow will start east with the body tomorrow.

In addition to his widow and his daughter here, Mr. Babcock leaves three daughters, Mrs. J. G. Gurley and Mrs. John S. Stowell of Washington; Mrs. C. K. Macy of Boise, Idaho, and a son, Charles E. Babcock, who is attached to the Pan-American Union at the national capital.

Permission to Build Viaduct Received Here

Official sanction has been given by the State Railroad Commission for construction of the Ninth street viaduct across the Los Angeles River, according to a communication received from San Francisco yesterday.

The commission also ordered the city and county and the Santa Fe and Los Angeles and Salt Lake railways each to pay one-quarter of the expense of building the bridge. A figure approximating $650,000 has been determined as this cost.

The order authorized the four interested parties to proceed with the separation of the grades of Ninth street and the tracks of the railways adjacent to the channel of the river.

The Board of Public Works recently announced that bids for the construction of the bridge will be received June 3. Work on the structure is expected to begin in the early summer.

In the commission's order it reserved for future determination the apportionment of the cost of constructing the five other proposed viaducts across the river at Macy, Aliso, First, Fourth and Seventh streets.

SPEED IS ASKED FOR ROAD WORK

(Continued from First Page)

too far behind. This is the psychological time for it, and I am for it all the way down the line."

The Councilmen promised to take up the matter at once; they pointed out their difficulties, chiefly in the protests of street improvements which often blocked or delayed realization of the general program. It was suggested that a committee be appointed to educate the public for general co-operation, and the Automobile Club will function in selection of such a committee if the Council as a body requests it. It also was pointed out that much of the delay is due to legal obstacles, and Mayor Cryer suggested that a committee might be formed to call on the judges so as to obtain their co-operation in hastening the legal development of the projects. City Attorney Stephens said some departments of his office already are up to date in street work, but others still are behind, and that if there is any intensive movement he will require two assistant attorneys, with whom the work could be hastened through as far as preparation of the legal plans is concerned.

ECONOMIC PHASE

The economic side of the proposition was explained by William Lacy, president of the Chamber of Commerce.

"We are now in a campaign to bring industries here," he said. "The building industry will slacken; it can't keep up at its present rate forever. Large numbers of good workers recently have been laid off by the oil industry.

"It is time we people of Los Angeles face the facts. We can't bring factories here in time to meet the present problem, but it can be met immediately by this plan of the Automobile Club. It will fill in the gap."

H. H. Merrick, president of the Greater Los Angeles Association, formed to foster industrial growth, was of the same opinion.

"This $50,000,000 will find its way back into the pockets of the workers," he said. "This is something that can be done and done quickly. I believe it can be done almost overnight, and with the co-operation of the City Council if it functions as it has in the past, done well, something I don't think I could say of any other city in the country."

"I realize this work ought to go on and I assure you of my and my colleagues' co-operation, particularly those of the finance committee, who will have most to do with this matter," said President Workman of the Council. He told of the charter limitations of expenditures on street work and he said that the opening and widening projects were delayed not only by shortage of funds, but by prolonged legal procedures. Ordinary projects, however, can be hastened, he said, if the funds are forthcoming. Councilman Wheeler thought that a revolving fund of $1,000,000 would be needed. He said that a forthcoming report of the surveying department was due in a few days and that this will be the basis for a report on immediate action. Councilman Sanborn was of a similar opinion.

NEED ENGINEERS

"It is only a question of getting more engineers in the field," said Councilman Gregory. "If you get the little jobs going you'll give all the work that is needed. I am in hearty accord with this program."

Councilman Criswell suggested that a citizens' committee be formed to adjust the complaints of property owners, which take up so much of the time of the officials who otherwise might be occupied in pressing the actual work.

The Finance Committee of the Council already has on file another version of much the same facts, as presented by City Engineer Griffin, who is asking the Council to allow him twelve additional engineers, at an expense (up to June 30) of $2500.

To bring in the necessary plans and ordinances within ninety days, it is estimated that forty assistants for the engineer and the City Attorney are needed, at a total cost of not more than $35,000. "I am more than one year behind in disposing of orders for street improvements," Maj. Griffin has told the Council.

ALMOST INCH OF RAINFALL

(Continued from First Page)

snow covered the top of the High Sierras. This is reported much below normal for snow covering the range at this time of the year. Camp Nelson is the nearest motor point to Mt. Whitney and the back country.

The storm did not reach as far as the Imperial Valley.

LIGHT SHOWERS IN SACRAMENTO VALLEY

(EXCLUSIVE DISPATCH)

SAN FRANCISCO, April 24.—Light showers occurred in the Sacramento Valley today and there was also a shower at San Jose. The bay region and northern counties received no rain. The main storm extended from Fresno south. The precipitation figures for the twenty-four hours ended at 5 p.m. today follow:

	Last 24 hours.	Seasonal to date.	Normal to date.	Seasonal last year.
Sacramento	.39	7.89	12.64	15.67
San Jose	.02	6.41	15.94	13.73
San Luis Obispo	.15	9.15	18.98	23.23

CAR THEFTS DROP LOW

Angelenos Lost Only Six, Says Report by Auto Club

Automobile thefts dropped to six here yesterday, the lowest in recent weeks, according to the report of the theft bureau of the Automobile Club of Southern California. The list follows: Ford touring, 458-352; Buick touring, 9138 ('23 Ariz.:) Ford coupe, 235-672; Chevrolet touring, 613-956; Chevrolet touring, 573-075; Ford coupe, 572-354.

SEIZED-CAR SALE SET

United States Marshal Sittel will sell eight automobiles at auction tomorrow at 10 a.m. on Commercial street between Main and New High streets. The cars were seized from violators of the Volstead Act and were ordered sold by the United States District Court. There are two coupes, four touring cars and two trucks.

ARNOLD HURT IN CAR CRASH

Chairman of Coolidge Executive Committee Suffers Hip Fracture; Tour Canceled

Ralph Arnold, chairman of the California Coolidge Executive Committee and one of the best-known political leaders in the State, was seriously but not critically injured yesterday in a traffic accident a mile and a half south of Modesto on the State Highway.

The accident occurred at about 11 a.m., according to dispatches, and Mr. Arnold is now at McPheeters Hospital at Modesto. Physicians in attendance announced that he is suffering from a fractured left hip.

Because of this all engagements made for Mr. Arnold have been canceled indefinitely.

Mr. Arnold, his wife and Franklin Lowney, secretary of the California Coolidge Executive Committee, were on their way to Modesto for a conference with leaders of the Coolidge campaign in that city. Mr. Arnold was driving the machine in which his wife and the secretary were riding. Neither Mrs. Arnold nor Mr. Lowney was hurt. A telegram last night from Mr. Lowney said Mr. Arnold will remain in the hospital for a week.

A large motor truck owned by the Modesto Lumber Company and driven by J. C. Ripley stopped suddenly in front of Mr. Arnold's machine. To avoid striking the truck, Mr. Arnold swung his car sharply to one side. Wet pavement caused it to skid and the machine crashed heavily into the rear of the truck. The side of the automobile was smashed in just at the point where Mr. Arnold was sitting.

Other motorists hurried Mr. Arnold to the hospital. Mrs. Arnold remained at her husband's bedside during the day and intends to remain with him until he is fully recovered.

From Modesto Mr. Arnold, his wife and Mr. Lowney were scheduled to go to Stockton, where they were to be present at a mass meeting of Coolidge Republicans. The tour was to have taken Mr. Arnold from Bakersfield to the Oregon State line.

BOOSTS IN TOURISTS PREDICTED

Union Pacific Official Expects Increase in Yellowstone Travel

Passenger travel to the Yellowstone National Park will be 25 per cent greater than last year and Los Angeles will benefit by it, D. S. Spencer, general passenger agent of the Union Pacific System at Salt Lake City said yesterday. He is here conferring with Stephen T. Mather, Director-General of National Parks, and Horace M. Albright, superintendent of the Yellowstone Park.

"We have made a national survey to determine what the tourist travel will be this year," Mr. Spencer explains. "Last year it was 138,252, a record year, and the year before, another record year with 95,223. Of the 1923 total 44,000 came by rail, most of the rest by automobile. The tourists entering the park from California numbered 9408 last year, and we figure that this summer they will number about 12,500 from California. The Union Pacific for the first time will be compelled to run extra trains from the East, and we are offering circuit tickets with stops at Los Angeles and San Francisco.

Mr. Spencer thinks that California is overlooking a tourist attraction in not emphasizing the old missions, and otherwise calling attention to and preserving the historical background of the State.

LYTELLS PART: ROMANCE SEEN

(Continued from First Page)

denly tell you that he loved you and that he wanted to marry you. Would that make you mad at all?"

"DEEP AFFECTION"

"Well, of all things! Of course not! But we have never talked about anything like that. Yes, we have been about together quite a bit and I have a deep affection for him—but—my, but you are curious!"

In bringing the interview to a close, Miss Windsor announced that she had worked late on the lot and that she had to go and get ready to attend a farewell party for Mr. Lytell, who is leaving for New York today with his father, William H. Lytell. He will do a picture there for First National and expects to return in July.

Mrs. Lytell is favorably known in the theatrical world as Evalyn Vaughn, having played in Los Angeles under that name last year at Egan's in "The First Fifty Years."

Road Experts in Final Stage of Inspection Tour

The committee of nine road experts touring Southern California at the request of Gov. Richardson and the State Legislature inspected the highway between Oxnard and Los Angeles Tuesday. Today the members will go to San Bernardino, Barstow and Needles, thus completing their circuit of inspection.

The findings of the committee will be utilized by the State government in the matter of planning new highways, abandonment of old ones and financing improvements. Its report will be submitted next January.

The party is headed by Senator Arthur Breed of Alameda county as chairman, with the members as follows: W. F. Nixon, secretary; George G. Radcliff, chairman of the State Board of Control; Louis Everding, State Highway Commissioner; R. M. Martin, State Highway Engineer; Elmer B. Bromley, Assemblyman from Los Angeles county; A. E. Loder, engineer of the California Automobile Association; E. E. East, of the Automobile Club of Southern California; J. H. Newman, Tulare county, and J. P. Gill, San Bernardino county.

JOHNSON OR COOLIDGE IS CLUB TOPIC

President's Backers Point to His Record; Native-Son Plea for Senator

Whether California Republicans should vote on May 6 for President Coolidge because the President is the ablest and best-fitted man for the place, or for Senator Hiram Johnson because he is a native son and needs a complimentary vote to save him from political oblivion, were viewpoints presented to the Men's City Club yesterday by opposing speakers.

Former Judge Frank G. Tyrell, speaking in behalf of the candidacy of Mr. Coolidge, referred to the fact that the President already is assured of the Republican nomination and asserted that California should elect a Coolidge delegation because of the President's record of public service "and because of his integrity, soldierly courage, skill in statecraft, practical idealism and unflinching loyalty to the highest personal and political principles."

Attorney Joseph Scott, prefacing an appeal in behalf of Senator Johnson with a remark to the effect that "as I may have to support Mr. Coolidge I do not want to be caught in an inconsistent position," asserted that although defeated in the nation, "where the issue was strictly Coolidge and Johnson," Mr. Johnson is entitled under local conditions to expect the support of his home State.

He said that Mr. Johnson should receive California's delegation in order that he be not destroyed by "sinister influences" in this State, and that while the Senator "has gone down with the ship and been defeated in other States," California should send him to the Republican National Convention in order that this State may have a voice in determining the Republican platform.

Frankly conceding that Senator Johnson has been eliminated as a contender for the nomination, Mr. Scott further explained his own continued support of the rejected Johnson candidacy by asserting that the Senator has "put California on the map" and that in ordinary gratitude California should stand by Mr. Johnson "when he is in trouble."

Alluding to the "providential timeliness" of the Coolidge candidacy, Judge Tyrrell said that in all great public crises in this nation a man had come forward opportunely to meet the national need and that as George Washington, John Marshall, Abraham Lincoln and Theodore Roosevelt had in their turn given pre-eminent service, "so in this day Calvin Coolidge has responded to his country's call."

The qualities that make Mr. Coolidge great, Judge Tyrrell said, are impeccable and aggressive honesty, fearlessness, unremitting and faithful industry, broad and practical experience, and a statesman's understanding of the needs of the people.

"And may I suggest," he said, "that at this day and date the President already is assured the nomination on the first ballot at the convention, thus making futile any other candidacy. Why not make it unanimous? Why should California be prevented from increasing an amicable, cordial and intimate relationship with the Federal government? Why should California not ratify?

"President Coolidge is in Washington attending to business; he is on the job. He deserves and should receive from California the same measure of support he has so signally received from our sister States."

RAIDERS SEIZE CULT RECORDS

(Continued from First Page)

$5000 in cash and had indorsed to him a note for $2500. She said he was to establish a home for the school on a fourteen-acre tract near Long Beach.

Since Mrs. Kinney's suit was instituted, Mrs. Adams said, De Bit turned back to her the donations. She had the deed and note in court, but refused to state the whereabouts of the $5000. She said it is in a safe place.

The investigation of the school has not shaken Mrs. Adams's faith, it appeared at the hearing. She asserted that she had received the messages described. Her failure to come into court, she said, was because she resented the attitude of her relatives that she could not take care of herself.

"I propose," Mrs. Adams said, "to continue to develop my soul through the teachings of the School of Sacred Science."

She said she had been able to keep her property intact, since her husband died, by the Golden Rule. She said she made her living taking roomers.

STATEMENTS STARTLE

The statements made by Miss Ronnen and Dr. Kritser yesterday were said to have described certain methods of the De Bits in the conduct of the school. Dr. Kritser is declared to have charged improper actions. He said he had been tricked into marrying one of the students and made other statements of a startling nature.

The entire matter will not be placed in the hands of the grand jury, Mr. Fitts said, until a thorough investigation has been conducted.

H. L. ROTH DISBARRED

Follette is Suspended Pending Appeal to Upper Court

Herman L. Roth, an attorney, who was recently convicted of a charge of extortion in Superior Court, was disbarred from practicing law in California by an order of the State Supreme Court, received here yesterday.

The court also suspended Channing Follette from practicing law as a temporary measure pending the outcome of his appeal to the Second District Court of Appeal from his conviction of perjury in Superior Court.

TELLS FALLACY OF TRUCK PLAN

Auto Club Says Increase in Load Limit Harmful

Few Might Get Benefit, But Majority Would Not

Destruction of Roads Seen if Measure Passes

The Automobile Club of Southern California which is leading the campaign against Proposition No. 11 (the truck-load ordinance) at the May 6 election yesterday issued a statement summing up the issue presented in the ordinance as follows:

"Shall one-third of 1 per cent of the motor vehicles of the city be allowed to carry loads heavy enough to break down the highways used by the remaining 99 2-3 per cent?"

The club in its constant efforts to secure and preserve good highways is urging the voters to answer the question "No" at the May 6 election by defeating Proposition No. 11.

OPPOSITION SHOWN

The club in its statement said: "Although residents of Los Angeles already have gone on record as opposing an increase in the weight limit of trucks, they will be called upon again at the coming election to decide whether the limit load shall be increased 4000 pounds more than allowed under the State law.

"Last September the Council passed an ordinance permitting the 26,000-pound truck weight on the city streets, raising the State-law limit of 22,000 pounds. Referendum petitions were circulated with the result that the required number of names was obtained in a few days to nullify the action of the Council and place the ordinance passage or rejection directly before the voters.

"The fight against the ordinance was led by the Automobile Club of Southern California. It was based on the findings of an exhaustive engineering investigation which proved conclusively that overweight of trucks has much to do with the breaking down and disintegration of the highways.

SMALL PERCENTAGE

"Approximately only thirty-six vehicles out of every 10,000 may derive any benefit from the proposed ordinance. More than 250,000 motor-vehicle owners in the city are paying a tax of 2 cents per gallon on gasoline to insure highway maintenance. There are less than 600 miles of city streets that are constructed to withstand truck weights, so that it is obvious that the vast majority of the city streets are due to be pounded to pieces if the 26,000-pound weight-limit ordinance passes. Any property owner on any street may find evidence of what heavy trucks do to the streets by looking around his own neighborhood.

"The chief claim advanced by proponents of the ordinance is that the heavy truck loads reduce the cost of building. If this be true, the saving can be figured only as a fraction of the damage done by overloading, so that the saving of a few pennies to one means the destruction of the highways for all.

"The truck-load ordinance seems to come a long way from the American ideal of achieving the greatest good to the greatest number."

REVUE FOR AID OF TOTS IS TONIGHT

Appeal Made to Public to Fill Auditorium and Relieve Children

The Billtoppers Revue is at the Philharmonic Auditorium tonight. The entertainment is being produced by the directors of the Los Angeles Children's Hospital, who are making every effort to fill the auditorium in order to raise as large a fund as possible for the institution, which is seriously in need of support. In addition, the directors are promising the general public a full return on its investment for the Billtoppers Revue.

The vaudeville program arranged for tonight is replete with fun-making features, running the gamut from serious drama numbers, music and dancing to mirthful nonsense and clever comedy.

Every dollar invested in an evening of pleasure and diversion will go to the Children's Hospital fund.

More than 23,000 children were cared for at the hospital last year, 2550 of these being bed cases and more than 88 per cent of the total being charity.

CONFESSES TO SEVERAL ROBBERIES

Police Jail Man Who Wants "to Take Medicine" for Sanity Test

Whether Gottfried Wohlgemuth, alias Frank Walder, held up several persons during the past three years, or is insane, was a question that confronted the District Attorney's office yesterday.

The man is said to have confessed to Chief Trial Deputy Fitts and Harry Raymond, chief of detectives, that three years ago he and another man held up a man named Stanley and the latter's wife near Long Beach and stole their automobile. He also is said to have stated that he robbed a timekeeper in a grading camp near San Diego of $64 in a poker game.

The man said that he had visited the Midnight Mission in Los Angeles and after attending several religious meetings, decided to "take his medicine." Accordingly he reported at the District Attorney's office. He was lodged in the County Jail on suspicion and for examination as to his sanity.

COUNCIL BACKS POLICE BONDS

Members Urge Voters Pass Issue for Protection

Cost Saving and Reduction in Crime Are Seen

Safety for Citizens Held to Demand "Yes" Vote

Unqualified and unanimous indorsement of the proposed $1,600,000 police bond issue, No. 5, to be voted on on May 6, has been given by the members of the City Council. Their statements follow:

President Workman: "I am convinced that the adoption of the $1,600,000 police bond issue by the people, will equip the Los Angeles police department to the extent that it will take its place as the most efficient crime-fighting force in the United States."

Councilman Mallard: "The adoption by the voters of the $1,600,000 police bond issue will react in a substantial reduction of crime in Los Angeles, and give protection to life and property to the greatest possible degree."

Councilman Mushet: "More adequate police protection will be provided the people of Los Angeles if the $1,600,000 police bond issue carries at the May 6 election. It is safe to assume that the reduction in crime loss, which the bond issue will make possible, will within a few months exceed in monetary value the total amount of the bond issue itself."

NEGLECTED GROWTH

Councilman Baker: "I believe that one of Los Angeles' greatest needs is a more adequate police department. In the years of heaviest development of our city, we have neglected properly to care for the necessary expansion of the department, and in my opinion it is the duty of every voter to register a favorable vote for the police bonds, proposition 5 on the municipal ballot, when he goes to the polls on May 6."

Councilman Sanborn: "The safety of our citizens on our streets and in their homes, will be raised to the maximum if the police bond issue is carried on May 6. The bonds are essential if Los Angeles is to have the fullest possible police service."

Councilman Gregory: "I am for the police bonds because I believe them to be necessary for the protection of lives and property. The bonds are an economic necessity."

Councilman Criswell: "It is the duty of every voter who prides himself in Los Angeles, to vote 'yes' for the police bond issue, proposition 5 on the municipal ballot. Los Angeles so rapidly has expanded that we have not been able to care for the many police needs from our tax revenues, and it becomes a public duty to provide the department with the funds which are essential for the public safety."

TO BANISH CROOKS

Councilman Wheeler: "Crime flourishes in cities which have inadequately equipped police departments. In other words, inadequate police service, is an invitation to crooks. On the other hand criminals shy from the cities which are provided with a police force fitted out with equipment to fight crime. Let's put Los Angeles in the latter class by voting favorably upon proposition No. 5 at the May election."

Councilman Allan: "It is essential to a police department that it be adequately equipped. When a city fails to provide its police force with the proper weapons to fight crime, it lets down the bars to the underworld. Vote to protect the lives of your loved ones and your property, by voting 'yes' on the police bond issue at the May 6 election."

WOLFGANG INSANE, IS NEW PLEA

Policeman's Slayer in Last Minute Effort to Stay Hanging Friday

In a final effort to save his life, attorneys for Isaac Wolfgang, who is sentenced to hang Friday for the murder of a policeman, filed an appeal with the State Supreme Court yesterday which says Wolfgang is insane, and seeks to have the death sentence of the Superior Court set aside.

Whether the move will stay the execution of Wolfgang Friday has not been determined. If a postponement should be granted on the strength of the appeal, the court will undoubtedly consider the case, it is said.

Wolfgang was convicted of murder in the Superior Court, and the Supreme Court later affirmed the the trial court's judgment and order denying a new trial. Following this decision Superior Judge McCormick reimposed the sentence on Wolfgang and attorneys for the convicted man then moved that this order be vacated. On the court's refusal the present appeal was taken to the high court in an effort to have the order of the Superior Court vacated and the sentence set aside.

Hubert Kittle's Bail Exonerated by Court Order

The case of the people against Hubert Kittle, who committed suicide in dramatic manner while awaiting trial on a charge of receiving stolen property, began its legal death yesterday in Judge Reeve's court.

Upon motion of Dep Dist.-Atty. Burke, the bail of $7500 furnished for his appearance in court was exonerated. It was stated that later the case will be taken off calendar, or dismissed because of Kittle's death.

Kittle was accused of receiving several American Express Company travelers' checks, stolen from the First National Bank of Arcadia, and cashing them.

AT THE TABLE

Another thing to worry about. More Chinese restaurants are being put in than those of any other alien nationality. Are we taking to chop suey and forgetting spaghetti?

A THOROUGH JOB

Robbers of an Indiana bank bore off a three-ton safe and its contents with the rest of the loot. They not only have storage for their spoil, but they can start a little bank of their own if they wish.

THE MAILS AT WORK

The postal receipts in our fair city are running 30 per cent greater this April than last. This is the stiffest percentage of gain in any month of recent years. Somebody must have sent out a lot of Easter cards.

BUSINESS AS USUAL

There is very little unemployment in the country and for two months the industrial pay roll of the nation has indicated a slight increase. This is an excellent sign, as the tendency had been downward during the closing months of last year. The country is in a hopeful condition and there is really nothing to worry about except the size of the Coolidge majority.

THE BEAUTIFUL SNOW

It cost New York nearly $250,000 to be rid of three inches of snow in a single day. The sun came out next morning and would have also done the job in a few hours, but the New Yorkers cannot endure snow and would not wait. So they put 12,000 extra men at work and made a rush order of it. Gotham has no use for the beautiful snow. That is why so many New Yorkers spend the winters in Los Angeles.

MOTORING IN JAPAN

More autos will pass the corner of Seventh and Broadway in one afternoon than there are in the entire empire of Japan and yet the Japanese are near the peak of modern advancement. The point is that we have fine roads especially constructed for motor traffic. These are still lacking in Japan. Furthermore, there is a social side to it. The automobile has never become genuinely fashionable in Japan and a man seems to forfeit his social standing if he undertakes to drive his own car.

DEADLY PERILS

There is still much to be done before the world is safe for our children. Hudson Maxim insists on following up his crusade against tea and coffee. There are as much as two grains of caffein in a cup of black coffee and there is tannin in tea. Both are powerful stimulants and narcotics. There is more kick in a cup of coffee or tea than a like amount of full-grown beer. If we do not put away these treacherous table companions we will all be dead in another 100 years. If the wets give up their beer the drys should be willing to give up their tea.

BLAMING MOTHER

Our schoolgirls are better than they were three years ago. This is the verdict of the heads and principals of the various finishing schools of the country as interpreted at a recent convention. There is nothing very much the matter with either the minds or morals of the rising generation. Some three years ago, in the immediate aftermath of the war, conditions were worse than they are now. There was a definite and dangerous laxity in morals. According to one famous disciplinarian the girls of today are every bit as good as those of former generations. She says that, measured by their temptations and opportunities, they are even better. If they are spoiled it is because they have grown dizzy trying to keep up the jazzy pace set by their parents. If there is much of anything the matter with the girls of today it may be squarely blamed upon the mothers. The old lady can put that in her cigarette and smoke it.

RAILWAY EARNINGS

Whilst almost all Americans appear eager for reductions of freight and passenger rates on the railways of the country, it is a matter of easy proof that low rates do not make for general prosperity. There will be no real progress unless it is shared by the railroads themselves. For several years they have not been able to make the improvements and betterments which good business would suggest. There was practically no railway building or construction for five years and now most lines are in the midst of expansion programs. They must spend hundreds of millions to meet the demands of business. The money for all this must come from the investing public through the sale of stocks and bonds of the various lines. It is easy to see that, unless railway rates are maintained upon a scale which would assure a reasonable return upon the capital invested, the investments will not be made. If the railroads are to be made competent to move the products of American industry they will have to charge rates that will earn interest on their securities. The one depends upon the other. There can be no distant markets unless a profit can be earned upon the movement of wares. The agitators cannot escape these facts. Those who approach the railroads with destructive gestures will positively get nowhere.

SUBSTANCE AND SHADOW

There is an irrepressible tendency in the American people to permit their enthusiasm to carry them so far that they have to walk back. This is exemplified in their reception of President Coolidge's address Tuesday to the representatives of the Associated Press. He spoke of a new limitation of arms conference; but qualified his remarks by adding, "It would appear to be impractical to attempt action under present conditions." Yet this reference to the further limitation of armaments has attracted vastly more attention than what he said about vital, pressing issues that demand immediate attention.

The President stated specifically that "with a certain and definite settlement of German reparations firmly established I should favor the calling of a similar conference to achieve such limitation of armaments and initiate plans for a codification of international law, should preliminary inquiries disclose that such a proposal would meet with a sympathetic response."

Plainly there is much to be done before such a conference could be called. The reparations proposal in the report of the international experts has not yet been codified into international agreements. The experiment of raising a private loan for Germany has yet to be tried. And we have yet to learn whether Germany and France will make the mutual concessions necessary to bring about ultimate success.

Meanwhile there are pressing recommendations in the President's address which apply to the immediate present. The President reminded the assembled publishers, and through them the people of the country, that there are now pending before Congress "bills that are seriously pressing for passing, not including the bonus, which would increase the expenditures of the Federal government for the next year by about $3,600,000,000. This would mean that . . . the present rate of expenditure would be more than doubled."

Members of Congress are already engaged in a lively discussion of the tentative proposal concerning a new conference for the limitation of armaments; but they are saying nothing about the menace of increased taxation. They prefer to keep the attention of the public directed on Europe that they may pursue their looting of the public treasury undisturbed.

As the President pointed out, "Each one of these items taken by itself is not large and its supporters argue that certainly the government can afford to make this small additional payment. But, taken in the aggregate, they make the stupendous sum I have mentioned."

During the second Wilson administration clever politicians managed to keep the attention of the President and the people centered exclusively on Europe; meanwhile they devoted themselves to political logrolling and trading between the lines. They traded votes for mutual support of appropriations; and the aggregate plunged the country into a condition approaching financial disaster. The President seeks to keep the attention of the public directed on the financial legislation now before the Congress; but the politicians prefer to talk about the political weather in Europe. They would grasp the substance, giving the people the shadow.

The address as a whole is one of the most important that the President has delivered. He gave a concise review of world conditions and accentuated the necessity for the co-operation of rightsous people in all countries to combat wild, lawless forces that were freed from restraint during the World War. "A nation that is morally dead," said the President, "will soon be financially dead. The progress of the world rests on courage, honor and faith."

Knowing that he was addressing a non-political assembly, the President carefully avoided any utterance that could awaken political controversy along partisan lines. He did not make use of the opportunity to make a political speech, to further his campaign. He made no reference to parties or to partisan politics.

It was the kind of talk the people expected from Coolidge. He denounced no one, threatened no one, promised nothing. But the serene confidence that he expressed in the ability of the American people to work out their own salvation, to maintain American standards and preserve American institutions finds a responsive echo in the confidence which the American people repose in Calvin Coolidge.

PROTECT THE CITY STREETS!

The highways of Los Angeles, paid for by the taxpayers, are menaced by the proposition numbered eleven on the ballot for May 6 next. The question to be voted upon is—Shall Ordinance No. 47,105 regulating the maximum gross weight of vehicles and loads operated on the public streets be adopted? This ordinance proposes to increase the weight limit from 22,000 pounds to 28,000 pounds.

The State law now fixes the maximum at 22,000 pounds, with a three-year privilege to trucks of 24,000 pounds if in use and registered on September 1, 1923. The Automobile Club of Southern California, after making an exhaustive investigation and study of the effect on highways of heavy traffic, declares that 22,000 pounds is the maximum that should be allowed. In fact, the club in making its recommendations says that, even with the limit kept down to 22,000 pounds, considerable damage is done to highways.

The question of raising the limit in Los Angeles above that recommended by the Automobile Club's engineers and above the limit fixed by State law came up last September, when the City Council passed an ordinance increasing the limit to 26,000 pounds. This ordinance was rendered inoperative by a referendum petition circulated by the Automobile Club and signed by more than 40,000 persons in five days. The question now comes to the voters for decision.

This ordinance, if carried, would damage the highways in which all the people are interested for the benefit of only a few who are interested in heavy duty trucks. It would permit further damage to the streets in front of private property and compel the property owners to replace them. Los Angeles has 3564 miles of streets, only 655 miles of which are pavement of the first class and capable of sustaining heavy loads. The other 2060 miles of natural material roadways and 739 miles of oil macadam are rapidly being rendered unfit for heavy trucking.

Proponents of the ordinance are using the weak argument that heavier trucking will cut down the cost of construction, foodstuffs, etc. The difference, as a matter of fact, in the cost of hauling in the very heavy trucks is exceedingly slight, especially when compared with the cost of frequently replacing highways and the annoyance of having highways frequently torn up.

There can be no question as to the wisdom of keeping the weight limit down to the 22,000 pounds as provided by the State law and as recommended by the Automobile Club. The only question is whether or not the people are justified in permitting loads as high as 22,000 pounds to use the streets which they have paid for and which they will have to pay for again if they are destroyed.

The present limit of 22,000 pounds is obviously high enough. It may even result that agitation of the question will create a demand for a lower limit. It is not difficult to imagine aroused property owners insisting upon a much lower weight limit and also restricting heavy trucks to certain streets and perhaps insisting upon pneumatic tires.

WILD AND MALICIOUS

The hoof-and-mouth excitement has given a free rein to various interests desirous of injuring Los Angeles in the eyes of the world.

The most absurd rumors are being spread throughout the East. These rumors are coming back to many persons in this city in the form of agitated inquiries.

Among other things, the report has been spread that tourists who come here even lose their clothes by confiscation; presumably are left to wander down in their pajamas begging to be allowed to leave town. Also it is rumored that thousands of people are clamoring, without success, to be allowed to get out; but are held here as prisoners.

Those receiving such letters should make it plain to their correspondents the truthful conditions: that life goes on here just as usual; that many tourists who have been out here for the winter are leaving for their eastern homes as usual; that we have inflicted upon ourselves a very severe quarantine which applies chiefly to the movement of live stock on the public highways; that we have closed the mountain canyons in order to prevent the spread of the disease to the wild deer which it would be impossible to inspect and destroy if infected; that the ravages of this cattle disease are no worse here than usual in such cases; the only difference is we are making much more rigorous and energetic efforts to check it.

A CRYING NEED

The dream of the "American Tree Association" is to beautify our country with noble trees and to this end it suggests that we plan now for the centennial of Arbor Day in 1972. This is the season of the year to plant trees and every man and woman who can possibly do so is urged to set out a young sapling. Few actions are so altruistic, since the majority of those who plant them do not live to enjoy the beauty and shade of the tree when it attains maturity.

Atlantic Coast cities learned long ago to love and tend their shady avenues of trees. Many European countries have enacted stringent regulations regarding tree life, and it is a difficult matter to secure a permit to cut a tree, with the result that Old World capitals have an added charm and beauty. But in Los Angeles the invaders who have come, actuated with but one thought, to make all the money possible out of real estate, have ruthlessly cut down numbers of magnificent trees.

One does not have to be decrepit with age to remember the time when a stroll through a residence street here was a feast for the soul. Block after block of spreading peppers and sweet-smelling acacias that have vanished now with all the other landmarks. Each new corner gas station usually calls for the destruction of from two to six trees. The pity is the greater, inasmuch as the climate lends itself so readily to the rapid growth of trees. One can only hope that our people will take the suggestion of the Tree Association and plant more arboreal street decorations. Failing this, at least they might spare the ones we have.

We All Have Our Problems

[Protected by George Matthew Adams]

THE SAGE OF CALABASAS

When travelers of a certain type visit a country they come back and write a book, which describes how unprogressive the natives are. One recent effort takes to task the Haitian population for taking no more time off sleeping and other amusements than is needed to pick a few bananas for personal consumption. But at least the Haitians are not wasting the natural resources of their country.

Discovery and utilization of crude oil are almost a matter of a generation and another generation is likely to see its exhaustion. The end of American forests is in sight. The annual wastage of coal is appalling; how to use it more economically is known, but the knowledge is not being applied. Wild game is virtually gone

Indians lived off this continent 2500 years before white men came without diminishing these natural resources.

It is fashionable to make fun of the Chinese as backward, but for thousands of years they supported teeming millions and attained a pretty high degree of civilization and their land at the end of that time was about in the same condition as regards productivity as when they found it.

The fever for instant exploitation and utilization and future generations can go hang is an especially American characteristic. It is now called progress, but what our progeny may call it a couple of centuries hence may sound differently.

EDWARD C. KRAUSS.

HOW IT STARTED

BY JEAN NEWTON

"Dog Eat Dog"

When two people of unfavorable reputation or two unpopular causes come into conflict and threaten to destroy each other one hears the inelegant but appropriate phrase: "Let Dog Eat Dog."

The expression comes to us from the shores of the Bosporus. Constantinople has long been associated by travelers with the number of homeless dogs that roam its streets.

Since the faith of Islam forbids the killing of a dog, the Turks were long without a remedy for what threatened to be a menace to the health of the city. Then came the suggestion that the dogs be caught and segregated on a barren island where the lack of sustenance would drive them to devouring each other, in short, "dog eat dog." It was from this circumstance that the term came into common usage and found its way west to our shores.

RIPPLING RHYMES

PROFESSIONALS

The country's full of gifted hicks whose
only trade is politics; throughout their lives
they blithely hump to save our bulwarks
from the dump and our palladiums to guard
—but honest toil's forever barred. Their
hands unmarked by any toil save that of
clawing for the spoil, their backs ungalled
by any load save that by patronage be-
stowed, they gain the envy of the jay who
bears the burden of the day. I'd like to
see our statesmen come from factories
where bobbins hum, from harvest fields
where men perspire and prove they're wor-
thy of their hire; and when they've served
a term or two and made our bulwarks good
as new I'd like to see them take their way
to clanging mills and fields of hay. The
chronic statesman doesn't know the men
who work, who plow and sow; in his pur-
suits he's never found the men who make
the wheels go 'round. We all admire that
ancient gent whose days with cabbages
were spent, who set his hens and groomed
his bees and sprayed his blooming nutmeg
trees. When Rome confronted deadly harm
they dragged the old man from his farm;
he set things right in seven shakes and
then went back to hoes and rakes, to plow-
ing corn and stringing beans and harvest-
ing his canned sardines. The worth of any
man's decayed when politics becomes his
trade.

THIS IS THE DAY

The first number of the Boston News Letter, the first permanent newspaper in America, was issued in the year 1704. James Campbell, postmaster of Boston and news vendor, was the founder. It was a weekly paper and ran for seventy-two years.

FLYING CHIPS

BY ALMA WHITAKER

Surely it is a supreme test of endurance to listen to five speeches over the ham-and-eggs at 7:30 a.m.

And after a sunrise service, at that, which entailed keeping awake all night to be up on time.

Yet such is the devotion of the Hollywood Bowl enthusiasts that they did just that.

And three of the speeches were really sermons, two of them with just a soupcon of the Chamber of Commerce tinge. One Hollywood gentleman assured us that he felt convinced that the second verse of the twenty-first chapter of Revelations really applied to Hollywood—"And I John saw the holy city, the new Jerusalem, coming down from God out of heaven, as a bride adorned for her husband . . ." which you must admit is some press-agent claim.

But nobody gasped. And little Mrs. J. J. Carter looked positively beatific.

* * *

Somehow it creates rather a shock to read that His Royal Highness of Sagan, better known to us as Anna Gould's last husband, has the right to put his little principality of 65,000 souls up to auction—right after the world has been made safe for democracy.

Sort of queer to find that 65,000 of us can still be sold off to the highest bidder, without even the privilege of indorsement or veto upon the little transaction.

But, after all, that is the frank, straightforward way. That 65,000 are not kidded into thinking they do the electing. And they are spared the hectic and expensive futility of election campaigns.

* * *

One of the mournful little denouements of the Easter sunrise service in the Hollywood Bowl was that many fair lawns and flower beds on Highland avenue were trampled out of existence by the scurrying crowds. One anxious little lady was excitedly defending her garden, begging the people not to trample down a year's loving labor. But I am afraid she did not save much of it.

It must take a stout Christian heart, indeed, to bear such heedless unkindness with spiritual resignation—even in so good a cause.

* * *

Several wives have lately confided in me about "their men." One little lady complains that her husband is a brilliant business man—but nothing else. He can make money and contributes that lavishly, but he doesn't bring anything else into the home—a hearthside carper, he.

In the selfsame week another complained that hers was too cautious, feared to take business chances, was content to live on small rations and save.

Still another wife's spouse could not, under any circumstances, be called able fellow, oh, yes, capable of holding down business transactions the worst of it.

Then there is the breaking her heart because her spouse is already far with the ladies of it, drat him.

While another mourners is dumb with wishes to believe in her jealous, just the

And may best ways to tell those husbands.

"NOW IT CAN BE TOLD"

[This army secret came out with the death of Gen. Nivelle and new light on the plight of the Allied armies in 1917, when the Germans entered the war. Carefully censored and hidden from the world, the true story of the great disaster that overwhelmed the French offensive in that fatal month of April has at last been given to the Manchester Guardian, England, from whose columns we reprint it.]

Gen. Nivelle succeeded Gen. Joffre as commander-in-chief of the French armies at the end of 1916, and it was his plan for what was known at the time as the Chemin des Dames attack in the spring of 1917 which ended in the worst disaster of the war for the Allies on the western front. The exact scope of that disaster, and how it led in the end to a serious and extensive mutiny in the French forces, was a thing very largely concealed during the war period, but a little more than two years ago some pretty full accounts were published in the French press.

The "Verdun School"

Nivelle at the time of his appointment represented the new hope of French policy; he stood for the "Verdun school" of a swifter, deeper attack than those which had become the custom on the Somme. His method had succeeded at Vaux and Douaumont; it must also succeed in the Chemins des Dames operations. These were to be the main blows of the Franco-British offensive for the year 1917, and Sir Douglas Haig, operating under Nivelle, was to attack from Arras to St. Quentin with the intention of drawing off the German forces from the real center of the French scheme between Rheims and Soissons.

Nivelle's Fatal Error

Nivelle's decision was made by the beginning of 1917. The British were to begin their subsidiary affair on April 9, the French were to strike the great blow, which would penetrate up toward Brussels and cut off the German northern armies, on April 16. Nothing could shake the fatal confidence of the French generalissimo in his own plan. To infect the troops with his own optimism he circulated freely among regimental officers full written details of the plan of attack, the date, the attacking strength, everything. This was done in January.

Germans Spring Trap

Within a fortnight the Germans knew all. Ludendorff's memoirs have since explained that a German raiding party captured, on the body of a dead French officer of the Second Division, the whole of Nivelle's plans. The enemy had some two months in which to make use of their booty and it was used to the full. Between Arras and St. Quentin they remodeled their line, thus nullifying in advance the British part of the scheme. The troops thus saved were sent down to the Rheims-Soissons front, where they became part of the living instruments behind the most elaborately planned trap of the war. On the high land of Vauclerc and Craonne, where Nivelle's great blow was to fall with full effect, there was organised such an aggregation of guns, concrete and metal as no troops ever had to face, before or after, in the war.

British Slaughtered

As the date for the great attack drew nearer the presentiment of failure oppressed many, but never Nivelle. For him, as, indeed, for those who had chosen him and were pledged to his scheme, no

drawing back was possible when April 9 was reached. The British were already keen in tens of thousands to keep the Germans off it for the time for any renewal of the great offensive was over and past.

DICKIE BRANDON, SCREEN JU...

Precocious Youth of Screen

posed the music for Laurence Hope's cycle of Indian songs.

VOICE WINS PRAISE

An instructor of established ability, Maude Fenton Bollman, proved that the training of her pupils was not entirely conditioned in theory, by displaying a soprano voice of coloring and a faculty for placing it properly. This latter quality was particularly noticeable in her singing of "Saper Vorsate" from the "Bal Masque," by Verdi. Accompanied by Ivy Mae Travis, Maude Fenton Bollman also sang several ballads.

There wasn't a motionless foot or shoulder in the studio last night. This was due to the jazz from the instruments of the Studebaker Radio Orchestra, which appeared through the courtesy of Glenn Thomas of Long Beach. This organization is composed of Charles K. Lindsay, director and violinist; Earl Livingston, saxophone; Joe Lindenbaum, drums; Bess Rudisill, pianist; Wallace Heglin, banjo; Tom Lindsay, baritone; Clint Campbell, trumpet, and Rhue Gill, soprano.

Felton Tompkins, whose service in the Army coupled with a remarkable sense of humor furnished him with the material for a care-dispelling monologue, told the folks out in Radioland all about it and while the laughs could not be heard, the telephone left enough information in the reception-room to prove that the hearers had not laughed for a long time. Mr. Tompkins has entertained the boys in France and in hospitals on this side. He hiked to Los Angeles from Philadelphia, performing en route.

ANTON CHRIS FILLS IN

Anton Chris, who appeared last night with his Hawaiian guitar in a program that enlarged his following, has the spirit of service in his name and heart. Called upon to fill an eleventh-hour vacancy in a KHJ program, he tore himself from a gathering in Glendale and presented himself at the studio prepared to contribute his best. His program included two of his excellent compositions.

Dr. Mars Baumgardt arrived with his solar specti. equipped for a 4cong journey. After the doctor announced his destination, the inhabitants of Radioland clambered aboard and off they went into space up to Betelgeuse, one of the largest stars known to science.

Prof. Walter Sylvestor Hertzog's chapters of American history continued to abound in interest as he unfolded the life of Rev. Michael Schlater, the founder of the Reform Church of the Calvinists in Pennsylvania about 1740.

Rosalie Tuso, whose six years present no obstacles to her talents, sang the "Barcarolle" from "Tales of Hoffman," with utter confidence and followed it with "Rossfather." Baby Muriel MacCormac, screen juvenile, recited two pieces and told several jokes.

INFANT ENDEARS

Dick Winslow brought another of the tales which he illustrates with music and which the lads and lassies now look forward to every week. Aaron Blackman, 7-year-old pianist pupil of Esther Denniston, contributed two piano solos with an ease of manner one would rarely expect to find in such tender youth.

Retaining the interest of the noon hour audience is not a simple matter, but Wally Wallenius, tenor, accompanied by Edyth Peteech, accomplished it with four numbers that won many requests for encores. Dick Kennedy and his piano accordion furnished a type of music that has not been heard from KHJ for many days, and he naturally found a warm welcome awaiting him.

Fred C. McNabb of the Aggeler & Musser Seed Company, recovered from the illness that prevented his appearance last Wednesday, delivered another installment of his garden talks.

HUSBAND LOVED MAID

So Mrs. Valerie Secrest Charges in Divorce Petition

A rather beautiful maid whom she had hired and her most intimate woman friend shattered her happiness and her faith in her husband, Mrs. Valerie Givens Secrest stated in a divorce complaint filed yesterday against Frank B. Secrest. The maid remained in her home for more than three months despite her efforts to discharge her, Mrs. Secrest asserted.

After the maid left, her friend, Mrs. Marjorie Hall Smith, came on the scene, Mrs. Secrest charged. She asks $250 a month alimony.

ESPEE ANNOUNCES SUMMER CUT RATE

Summer vacation passenger rates to and from Los Angeles and other Pacific Coast points will be put into effect by the Southern Pacific Railway Company tomorrow, according to announcement by F. S. McGinnis, assistant passenger traffic manager.

Tourist travel from Arizona, Texas, Oregon, New Mexico and the Northwest States as well as other sections of the State is expected to be increased by the low rates, Mr. McGinnis said. Season tickets, good for a three-months' visit, will be sold each day of the week. Week-end rates will be in effect on Friday, Saturday and Sunday of each week, with the return limit of sixteen days. Vacation tickets will be on sale until September 30.

Into the future of each human life stretch two broad Highways

One is the road of *malnutrition*—the road of ill-health and unhappiness

The other is the road of *nourishment*—the road of strength and health

To keep your feet firmly planted on this road of health you must give to your body only the kind of food that is easily and completely turned into nourishment

Three times a day—you make the choice:

Food that overburdens, that even poisons your body, that wears out your digestive machinery—

Or

Food that your system can utilize: food that will build you a splendid body and give you all the power you need to run it.

"When the human body is deprived of needed nutrients it preys upon itself and uses up its reserve that should be drawn upon only in cases of illness or extreme nervous strain."
—*Human Foods*

"Since it is necessary for normal metabolism that the greater number of calories of body heat be produced by carbohydrate foods, it is essential that some kind of cereal food form a part of the daily food allowance."
—*Food and Its Preparation*

Grape-Nuts is made of pure wheat and malted barley. More than three-fourths of the content of Grape-Nuts are the precious carbohydrates.

"Only that portion of the food that is digested and absorbed can serve the purposes of growth and the maintenance of the vital functions. ...

"Not until the nutriments have been converted to available forms and have passed into the blood do they in the slightest degree furnish energy or building material to the animal organism."
—*The Principles of Human Nutrition*

"Thousands are slowly poisoning themselves to death by eating beyond their digestive capacity."
—*Right Food The Right Remedy*

In Grape-Nuts the carbohydrates have been *dextrinized*, that is, scientifically broken down into the form your body most readily and smoothly digests and transforms into strength and vitality.

"Proper mastication is always a signal to the secretions of the stomach and intestines to be ready for their share in the work."
—*Food Facts for the Home-Maker*

Grape-Nuts is in the form of crisp, golden kernels you must chew. This makes your mouth do its work which, if it doesn't do, your stomach must do in addition to its own.

THE power that daily renews your mental and physical strength and vigor is locked up in the *carbohydrates* (a great part of which come from the grains). They are your greatest source of vitality.

At least *one-third* of your nourishment should come from the *carbohydrates*. And yet many of us today do not get proper nourishment from them *in the form in which we usually* eat them.

More than three-fourths of the content of Grape-Nuts (made from wheat and barley) are these precious *carbohydrates*, and what is most important—in the form which the body can most easily digest and transform into strength and vigor.

Youth and health are stored for you in this delicious food

Served with cream or rich milk, Grape-Nuts gives you in most delicious form the essentials of a well-balanced ration.

In order for your body to get the full nourishment from *carbohydrates*—they must be carefully prepared to suit your body's needs. Otherwise, instead of supplying you with nourishment they may clog your digestive machinery and produce the poisons and acids that give rise to almost every physical ill.

In Grape-Nuts they have been *dextrinized*—that is, scientifically broken down into just the form you can best utilize. In this form they yield their full nourishment, without producing any of the acids and poisons that cause premature ageing and most of our commonest ailments.

Grape-Nuts has this great added value to your health

Grape-Nuts comes in crisp, golden kernels you must chew. You can't help chewing it and you enjoy it. This chewing starts the proper flow of the salivary and gastric juices. It keeps the whole mouth healthy. It starts digestive processes in the mouth—*the first step to sound digestion.*

There is no other food like Grape-Nuts in form or in taste. Eat it at least once a day. You will be astonished to see how much more vigorous you feel.

At breakfast, served with milk or cream, it gives you just the nourishment you need. All grocers have Grape-Nuts. Hotels and restaurants serve it in individual packages of a single portion. The Postum Cereal Company, Inc., Battle Creek, Mich.

JAILED ENTERTAIN POLICE

Prisoners Express Views on Causes of Crime After Chief Vollmer Opens Discussion

The police courts are unfair, the police themselves are too hard-boiled, the police reserves are awful, the vagrancy law is too elastic, the public defender is "an agent for the big house," employment agencies are valueless, the Midnight Mission and the Salvation Army increase crime; but Capt. John Shand, chief jailer, and Dan Long, jail chief at Lincoln Heights, are "all right." The foregoing is a summary of the opinions expressed by inmates yesterday at a luncheon in the Lincoln Heights jail where the prisoners entertained Chief Vollmer and his line officers and staff.

The luncheon tables were set in the mess hall of the new brick buildings, constructed last winter. They are Chief Vollmer's new "keyless, barless jails." The hall was decorated for the occasion, and about 600 prisoners ate with Chief Vollmer, his captains and lieutenants.

"Frisco Tommy," who boasted that he had done more plain and fancy thieving, and had been in more jails, than anyone present, acted as toastmaster.

Chief Vollmer explained, in a keynote speech, that he was there to find out what caused crime in Los Angeles, and how it could be decreased. He called on all the gentry present to air their views.

The opinions were slow in coming, until the prisoners realized that this was one time when they could say what they thought of the cops with immunity. For the next two hours they struggled for a hearing.

A wide variety of students of crime spoke, a half-dozen different races and nearly as many colors being represented.

The police reserves, formerly known as the "crime crushers," came in for a great deal of comment in respect to their "cleaning-up" methods. They were pilloried for their system of picking up idle men and carting them off to jail to serve a "stretch" as vagrants. The courts were accused of operating as an agency to keep the jails full and of panding out sentences without investigation of the justice thereof. An ex-bootlegger from Hollywood gave the assemblage a startling view of the profession's activities and intimated that the days of "protection" and "shaking down" are not yet passed.

The prisoners indicated that the city needs a free employment agency where jobs are readily forthcoming, and a municipal establishment to tide over those unable to find work.

When it was announced that half the time of sentence would be remitted by the parole board for industry and good behavior the rafters quivered with 'five minutes' prolonged cheering.

Too little care for the young boys arrested and thrown into jail was advanced by several of the speakers, who said that many hardened criminals were started out on their careers from association with hold-up men and safe-crackers while doing short terms.

Though the usual conditions were reversed and the police were forced to listen to the world's other half, everyone was in the best of humor when the luncheon party at last broke up.

BLUE BOOK EDITION

The first Blue Book of California to be printed since 1913-15 will be issued from the State printing office some time in July, according to announcement made yesterday. It will contain more than 600 pages. It will be printed on library text paper and will be a better piece of printing than any previous issue of the Blue Book, says State Printer Frank J. Smith.

POLICE BOND SAVING WILL REPAY COST

Chief Vollmer Declares Year Will See Return of Sum Invested in Issue

If the police bonds are carried May 6, the saving to taxpayers in one year will equal the amount of the bonds, is the opinion, expressed yesterday, by Chief of Police Vollmer.

At present the loss in burglaries, robberies, auto thefts and other crimes is conservatively estimated to exceed $6,000,000 yearly. The face value of the bonds is $1,600,000.

Chief Vollmer believes the volume of crime and resultant property losses can be cut at least 25 per cent if the police are properly equipped. Such a saving would approximate the amount of the police bonds.

If the bonds carry, eleven new divisional police stations will be built. This will make the antiquated village system of centralization of police in Los Angeles a thing of the past. With the police force decentralized and properly distributed every section of the city and every citizen will receive protection.

The assessed valuation of Los Angeles is approximately $1,000,000,000. The bonds represent an added taxation of only $.016 on each $100 of assessed valuation of property.

TRAVELERS TO ELECT

Travelers' Protective Association, Post B, California Division, will hold its annual election of officers and a dinner tomorrow night at the Rosslyn Hotel. The honor guest and chief speaker of the evening will be Col. N. W. Plaisig, a veteran of the Civil War.

Schools and Colleges

Information About Schools

The Times' School and College Bureau will help you secure complete information about any kind of School or Education Training. Carefully compiled data are on file, from which course suggestions may be made which will be helpful to you. THE SERVICE IS FREE. Address, write or call the TIMES' Information Bureau, First street and Broadway—telephone MEtropolitan 6700—or leave your name and address with the TIMES' Branch Office Information Bureau, 631 South Spring Street and the desired school data will be mailed to you.

LEARN ELECTRICITY

Electrical experts are in big demand at high pay. A complete course at Bullock's with thoroughly qualified men in charge of the electrical business. Most thorough course in America. SPECIAL—LOW TUITION RATES NOW IN EFFECT. Call or write for information.
NATIONAL AUTOMOTIVE SCHOOL
4002 S. Figueroa Street.

Machine Courses

Bank Statement, Bookkeeping Machine and Comptometer Operators are in demand. 101 weeks will prepare you for a position. Day and Evening Classes. Main 4995. 17Under 3193.
MACKAY BUSINESS COLLEGE, 9th and Main Streets.
18th Year. An Exclusive Private School for Future Executives.

AT THE TABLE

Another thing to worry about. More Chinese restaurants are being put in than those of any other alien nationality. Are we taking to chop suey and forgetting spaghetti?

A THOROUGH JOB

Robbers of an Indiana bank bore off a three-ton safe and its contents with the rest of the loot. They not only have storage for their spoil, but they can start a little bank of their own if they wish.

THE MAILS AT WORK

The postal receipts in our fair city are running 30 per cent greater this April than last. This is the stiffest percentage of gain in any month of recent years. Somebody must have sent out a lot of Easter cards.

BUSINESS AS USUAL

There is very little unemployment in the country and for two months the industrial pay roll of the nation has indicated a slight increase. This is an excellent sign, as the tendency had been downward during the closing months of last year. The country is in a hopeful condition and there is really nothing to worry about except the size of the Coolidge majority.

THE BEAUTIFUL SNOW

It cost New York nearly $250,000 to be rid of three inches of snow in a single day. The sun came out next morning and would have also done the job in a few hours, but the New Yorkers cannot endure snow and would not wait. So they put 12,000 extra men at work and made a rush order of it. Gotham has no use for the beautiful snow. That is why so many New Yorkers spend the winters in Los Angeles.

MOTORING IN JAPAN

More autos will pass the corner of Seventh and Broadway in one afternoon than there are in the entire empire of Japan and yet the Japanese are near the peak of modern advancement. The point is that we have fine roads especially constructed for motor traffic. These are still lacking in Japan. Furthermore, there is a social side to it. The automobile has never become genuinely fashionable in Japan and a man seems to forfeit his social standing if he undertakes to drive his own car.

DEADLY PERILS

There is still much to be done before the world is safe for our children. Hudson Maxim insists on following up his crusade against tea and coffee. There are as much as two grains of caffein in a cup of black coffee and there is tannin in tea. Both are powerful stimulants and narcotics. There is more kick in a cup of coffee or tea than a like amount of full-grown beer. If we do not put away these treacherous table companions we will all be dead in another 100 years. If the wets give up their beer the drys should be willing to give up their tea.

BLAMING MOTHER

Our schoolgirls are better than they were three years ago. This is the verdict of the heads and principals of the various finishing schools of the country as interpreted at a recent convention. There is nothing very much the matter with either the minds or morals of the rising generation. Some three years ago, in the immediate aftermath of the war, conditions were worse than they are now. There was a definite and dangerous laxity in morals. According to one famous disciplinarian the girls of today are every bit as good as those of former generations. She says that, measured by their temptations and opportunities, they are even better. If they are spoiled it is because they have grown dizzy trying to keep up the jazzy pace set by their parents. If there is much of anything the matter with the girls of today it may be squarely blamed upon the mothers. The old lady can put that in her cigarette and smoke it.

RAILWAY EARNINGS

Whilst almost all Americans appear eager for reductions of freight and passenger rates on the railways of the country, it is a matter of easy proof that low rates do not make for general prosperity. There will be no real progress unless it is shared by the railroads themselves. For several years they have not been able to make the improvements and betterments which good business would suggest. There was practically no railway building or construction for five years and now most lines are in the midst of expansion programs. They must spend hundreds of millions to meet the demands of business. The money for all this must come from the investing public through the sale of stocks and bonds of the various lines. It is easy to see that, unless railway rates are maintained upon a scale which would assure a reasonable return upon the capital invested, the investments will not be made. If the railroads are to be made competent to move the products of American industry they will have to charge rates that will earn interest on their securities. The one depends upon the other. There can be no distant markets unless a profit can be earned upon the movement of wares. The agitators cannot escape these facts. Those who approach the railroads with destructive gestures will positively get nowhere.

SUBSTANCE AND SHADOW

There is an irrepressible tendency in the American people to permit their enthusiasm to carry them so far that they have to walk back. This is exemplified in their reception of President Coolidge's address Tuesday to the representatives of the Associated Press. He spoke of a new limitation of arms conference; but qualified his remarks by adding, "It would appear to be impractical to attempt action under present conditions." Yet this reference to the further limitation of armaments has attracted vastly more attention than what he said about vital, pressing issues that demand immediate attention.

The President stated specifically that "with a certain and definite settlement of German reparations firmly established I should favor the calling of a similar conference to achieve such limitation of armaments and initiate plans for a codification of international law, should preliminary inquiries disclose that such a proposal would meet with a sympathetic response."

Plainly there is much to be done before such a conference could be called. The reparations proposal in the report of the international experts has not yet been codified into international agreements. The experiment of raising a private loan for Germany has yet to be tried. And we have yet to learn whether Germany and France will make the mutual concessions necessary to bring about ultimate success.

Meanwhile there are pressing recommendations in the President's address which apply to the immediate present. The President reminded the assembled publishers, and through them the people of the country, that there are now pending before Congress "bills that are seriously pressing for passing, not including the bonus, which would increase the expenditures of the Federal government for the next year by about $3,600,000,000. This would mean that . . . the present rate of expenditure would be more than doubled."

Members of Congress are already engaged in a lively discussion of the tentative proposal concerning a new conference for the limitation of armaments; but they are saying nothing about the menace of increased taxation. They prefer to keep the attention of the public directed on Europe that they may pursue their looting of the public treasury undisturbed.

As the President pointed out, "Each one of these items taken by itself is not large and its supporters argue that certainly the government can afford to make this small additional payment. But, taken in the aggregate, they make the stupendous sum I have mentioned."

During the second Wilson administration clever politicians managed to keep the attention of the President and the people centered exclusively on Europe; meanwhile they devoted themselves to political logrolling and trading between the lines. They traded votes for mutual support of appropriations; and the aggregate plunged the country into a condition approaching financial disaster. The President seeks to keep the attention of the public directed on the financial legislation now before the Congress; but the politicians prefer to talk about the political weather in Europe. They would grasp the substance, giving the people the shadow.

The address as a whole is one of the most important that the President has delivered. He gave a concise review of world conditions and accentuated the necessity for the co-operation of righteous people in all countries to combat wild, lawless forces that were freed from restraint during the World War. "A nation that is morally dead," said the President, "will soon be financially dead. The progress of the world rests on courage, honor and faith."

Knowing that he was addressing a non-political assembly, the President carefully avoided any utterance that could awaken political controversy along partisan lines. He did not make use of the opportunity to make a political speech, to further his campaign. He made no reference to parties or to partisan politics.

It was the kind of talk the people expected from Coolidge. He denounced no one, threatened no one, promised nothing. But the serene confidence that he expressed in the ability of the American people to work out their own salvation, to maintain American standards and preserve American institutions finds a responsive echo in the confidence whch the American people repose in Calvin Coolidge.

PROTECT THE CITY STREETS!

The highways of Los Angeles, paid for by the taxpayers, are menaced by the proposition numbered eleven on the ballot for May 6 next. The question to be voted upon is—Shall Ordinance No. 47,105 regulating the maximum gross weight of vehicles and loads operated on the public streets be adopted? This ordinance proposes to increase the weight limit from 22,000 pounds to 26,000 pounds.

The State law now fixes the maximum at 22,000 pounds, with a three-year privilege to trucks of 24,000 pounds if in use and registered on September 1, 1923. The Automobile Club of Southern California, after making an exhaustive investigation and study of the effect on highways of heavy traffic, declares that 22,000 pounds is the maximum that should be allowed. In fact, the club in making its recommendations says that, even with the limit kept down to 22,000 pounds, considerable damage is done to highways.

The question of raising the limit in Los Angeles above that recommended by the Automobile Club's engineers and above the limit fixed by State law came up last September, when the City Council passed an ordinance increasing the limit to 26,000 pounds. This ordinance was rendered inoperative by a referendum petition circulated by the Automobile Club and signed by more than 40,000 persons in five days. The question now comes to the voters for decision.

This ordinance, if carried, would damage the highways in which all the people are interested for the benefit of only a few who are interested in heavy duty trucks. It would permit further damage to the streets in front of private property and compel the property owners to replace them. Los Angeles has 3504 miles of streets, only 655 miles of which are pavement of the first class and capable of sustaining heavy loads. The other 2060 miles of natural material roadways and 789 miles of oil macadam are rapidly being rendered unfit for heavy trucking.

Proponents of the ordinance are using the weak argument that heavier trucking will cut down the cost of construction, foodstuffs, etc. The difference, as a matter of fact, in the cost of hauling in the very heavy trucks is exceedingly slight, especially when compared with the cost of frequently replacing highways and the annoyance of having highways frequently torn up.

There can be no question as to the wisdom of keeping the weight limit down to the 22,000 pounds as provided by the State law and as recommended by the Automobile Club. The only question is whether or not the people are justified in permitting loads as high as 22,000 pounds to use the streets which they have paid for and which they will have to pay for again if they are destroyed.

The present limit of 22,000 pounds is obviously high enough. It may even result that agitation of the question will create a demand for a lower limit. It is not difficult to imagine aroused property owners insisting upon a much lower weight limit and also restricting heavy trucks to certain streets and perhaps insisting upon pneumatic tires.

WILD AND MALICIOUS

The hoof-and-mouth excitement has given a free rein to various interests desirous of injuring Los Angeles in the eyes of the world.

The most absurd rumors are being spread throughout the East. These rumors are coming back to many persons in this city in the form of agitated inquiries.

Among other things, the report has been spread that tourists who come here even lose their clothes by confiscation; presumably are left to wander down in their pajamas begging to be allowed to leave town. Also it is rumored that thousands of people are clamoring, without success, to be allowed to get out; but are held here as prisoners.

Those receiving such letters should make it plain to their correspondents the truthful conditions: that life goes on here just as usual; that many tourists who have been out here for the winter are leaving for their eastern homes as usual; that we have inflicted upon ourselves a very severe quarantine which applies chiefly to the movement of live stock on the public highways; that we have closed the mountain canyons in order to prevent the spread of the disease to the wild deer which it would be impossible to inspect and destroy if infected; that the ravages of this cattle disease are no worse here than usual in such cases; the only difference is we are making much more rigorous and energetic efforts to check it.

A CRYING NEED

The dream of the "American Tree Association" is to beautify our country with noble trees and to this end it suggests that we plan now for the centennial of Arbor Day in 1972. This is the season of the year to plant trees and every man and woman who can possibly do so is urged to set out a young sapling. Few actions are so altruistic, since the majority of those who plant them do not live to enjoy the beauty and shade of the tree when it attains maturity.

Atlantic Coast cities learned long ago to love and tend their shady avenues of trees. Many European countries have enacted stringent regulations regarding tree life, and it is a difficult matter to secure a permit to cut a tree, with the result that Old World capitals have an added charm and beauty. But in Los Angeles the invaders who have come, actuated with but one thought, to make all the money possible out of real estate, have ruthlessly cut down numbers of magnificent trees.

One does not have to be decrepit with age to remember the time when a stroll through a residence street here was a feast for the soul. Block after block of spreading peppers and sweet-smelling acacias that have vanished now with all the other landmarks. Each new corner gas station usually calls for the destruction of from two to six trees. The pity is the greater, inasmuch as the climate lends itself so readily to the rapid growth of trees. One can only hope that our people will take the suggestion of the Tree Association and plant more arboreal street decorations. Failing this, at least they might spare the ones we have.

We All Have Our Problems

[Protected by George Matthew Adams]

THE SAGE OF CALABASAS

When travelers of a certain type visit a country they come back and write a book, which describes how unprogressive the natives are. One recent effort takes to task the Haitian population for taking no more time off sleeping and other amusements than is needed to pick a few bananas for personal consumption. But at least the Haitians are not wasting the natural resources of their country.

Discovery and utilization of crude oil are almost a matter of a generation and another generation is likely to see its exhaustion. The end of American forests is in sight. The annual wastage of coal is appalling; how to use it more economically is known, but the knowledge is not being applied. Wild game is virtually gone.

Indians lived off this continent 2500 years before white men came without diminishing these natural resources.

It is fashionable to make fun of the Chinese as backward, but for thousands of years they supported teeming millions and attained a pretty high degree of civilization and their land at the end of that time was about in the same condition as regards productivity as when they found it.

The fever for instant exploitation and utilization and future generations can go hang is an especially American characteristic. It is now called progress, but what our progeny may call it a couple of centuries hence may sound differently.

EDWARD C. KRAUSS.

HOW IT STARTED

BY JEAN NEWTON

"Dog Eat Dog"

When two people of unfavorable reputation or two unpopular causes come into conflict and threaten to destroy each other one hears the inelegant but appropriate phrase: "Let Dog Eat Dog."

The expression comes to us from the shores of the Bosporus. Constantinople has long been associated by travelers with the number of homeless dogs that roam its streets.

Since the faith of Islam forbids the killing of a dog, the Turks were long without a remedy for what threatened to be a menace to the health of the city. Then came the suggestion that the dogs be caught and segregated on a barren island where the lack of sustenance would drive them to devouring each other, in short, "dog eat dog." It was from this circumstance that the term came into common usage and found its way west to our shores.

RIPPLING RHYMES

PROFESSIONALS

The country's full of gifted hicks whose
only trade is politics; throughout their lives
they blithely hump to save our bulwarks
from the dump and our palladiums to guard
—but honest toil's forever barred. Their
hands unmarked by any toil save that of
clawing for the spoil, their backs ungalled
by any load save that by patronage bestowed, they gain the envy of the jay who
bears the burden of the day. I'd like to
see our statesmen come from factories
where bobbins hum, from harvest fields
where men perspire and prove they're worthy of their hire; and when they've served
a term or two and made our bulwarks good
as new I'd like to see them take their way
to clanging mills and fields of hay. The
chronic statesman doesn't know the men
who work, who plow and sow; in his pursuits he's never found the men who make
the wheels go 'round. We all admire that
ancient gent whose days with cabbages
were spent, who set his hens and groomed
his bees and sprayed his blooming nutmeg
trees. When Rome confronted deadly harm
they dragged the old man from his farm;
he set things right in seven shakes and
then went back to hoes and rakes, to plowing corn and stringing beans and harvesting his canned sardines. The worth of any
man's decayed when politics becomes his
trade. WALT MASON.

Water costs more than wine in Budapest, but people are not compelled to drink it.

A stranger marvels that we raise so much alfalfa in this section and yet have so little hay fever.

The Germans in the Latin countries to the south of us all try to pan America as much as they can.

Quarantine regulations cause drop in week-end burglaries. An unexpected industry adversely affected.

Birthday of Kant is being celebrated this week. But not by members of any booster organizations.

Possibly Washington couldn't tell a lie, but Washington has been listening to a lot of them during the last few weeks.

It does seem a bit thick to let in West Indian negroes and bar out Japs, but every Congressman has a Central avenue in his district.

British globe girdler is stuck in Bagdad. He might continue his journey on the magic carpet or use Aladdin's lamp in place of an engine.

All three of the men working in the Second-street tunnel took a day off the other day, which is likely to delay its completion till August 1.

Marie Corelli and Eleanora Duse died within a few hours of each other. Equally well known, but closer in death than they ever were in life.

Hanihara explains he didn't mean it, after all. The trouble with unfortunate utterances is it's easier to avoid making them than to explain them away.

Scientists say that we need not worry about finding germs on our paper money. In these expensive times even a germ cannot live very long on a dollar bill.

Peter Cooper changed his business six times in nine years, but that doesn't prove anything. When he got into the glue industry he stuck to it and got rich.

One "candidate" against Coolidge has canceled half his Cleveland hotel reservations. When a few more States are heard from he'll probably cancel the rest.

It used to take from four to seven hours to turn out an ordinary glass tumbler, but the Libbeys have a new machine that will produce 1,200,000 glasses a week. But what's the use?

William Cowper, the English poet, remarked 150 years ago that conversation had been killed by cards. The bridge fiends of today cannot be said to have brightened the prospect to any great extent.

THIS IS THE DAY

The first number of the Boston News Letter, the first permanent newspaper in America, was issued in the year 1704. James Campbell, postmaster of Boston and news vendor, was the founder. It was a weekly paper and ran for seventy-two years.

FLYING CHIPS

BY ALMA WHITAKER

Surely it is a supreme test of endurance to listen to five speeches over the ham-and-eggs at 7:30 a.m.

And after a sunrise service, at that, which entailed keeping awake all night to be up on time.

Yet such is the devotion of the Hollywood Bowl enthusiasts that they did just that.

And three of the speeches were really sermons, two of them with just a soupcon of the Chamber of Commerce tinge. One Hollywood gentleman assured us that he felt convinced that the second verse of the twenty-first chapter of Revelations really applied to Hollywood—"And I John saw the holy city, the new Jerusalem, coming down from God out of heaven, as a bride adorned for her husband . . ." which you must admit is some press-agent claim.

But nobody gasped. And little Mrs. J. J. Carter looked positively beatific.

* * *

Somehow it creates rather a shock to read that His Royal Highness of Sagan, better known to us as Anna Gould's last husband, has the right to put his little principality of 65,000 souls up to auction—right after the world has been made safe for democracy.

Sort of queer to find that 65,000 of us can still be sold off to the highest bidder, without even the privilege of indorsement or veto upon the little transaction.

But, after all, that is the frank, straightforward way. That 65,000 are not kidded into thinking they do the electing. And they are spared the hectic and expensive futility of election campaigns.

* * *

One of the mournful little denouements of the Easter sunrise service in the Hollywood Bowl was that many fair lawns and flower beds on Highland avenue were trampled out of existence by the scurrying crowds. One anxious little lady was excitedly defending her garden, begging the people not to trample down a year's loving labor. But I am afraid she did not save much of it.

It must take a stout Christian heart, indeed, to bear such heedless unkindness with spiritual resignation—even in so good a cause.

* * *

Several wives have lately confided in me about "their men." One little lady complains that her husband is a brilliant business man—but nothing else. He can make money and contributes that lavishly, but he doesn't bring anything else into the home—a hearthside carper, he.

In the selfsame week another complained that hers was too cautious, feared to take business chances, was content on small rations to save.

Still another wife's spouse could not render any circumstantial fellow, oh, yes, capable of holding business transactions the worst of it.

Then there is breaking her heart because her spouse is a scholar with the ladies, it, drat him.

While another hers is dumb, wishes to heaven her jealous, just for

And my best ways to tell them er husbands.

I can see where quite a time being their wives.

* * *

"NOW IT CAN BE TOLD"

[This army secret came out with the death of Gen. Joffre and new light on the plight of the Allied armies in 1917, when the U. S. entered the war. Carefully censored and hidden from the eyes of the world, the true story of the great disaster that overwhelmed the French offensive in that fatal month of April has at last been given to the world by the Manchester Guardian, England, from whose columns we reprint it.]

Gen. Nivelle succeeded Gen. Joffre as commander-in-chief of the French armies at the end of 1916, and it was his plan for what was known at the time as the Chemin des Dames attack in the spring of 1917 which ended in the worst disaster of the war for the Allies on the western front. The exact scope of that disaster, and how it led in the end to a serious and extensive mutiny in the French forces, was a thing very largely concealed during the war period, but a little more than two years ago some pretty full accounts were published in the French press.

The "Verdun School"

Nivelle at the time of his appointment represented the new hope of French policy; he stood for the "Verdun school" of a swifter, deeper attack than those which had become the custom on the Somme. His method had succeeded at Vaux and Douaumont; it must also succeed in the Chemins des Dames operations. These were to be the main blows of the Franco-British offensive for the year 1917, and Sir Douglas Haig, operating under Nivelle, was to attack from Arras to St. Quentin with the intention of drawing off the German forces from the real center of the French scheme between Rheims and Soissons.

Nivelle's Fatal Error

Nivelle's decision was made by the beginning of 1917. The British were to begin their subsidiary affair on April 9, the French were to strike the great blow, which would penetrate up toward Brussels and cut off the German northern armies, on April 16. Nothing could shake the fatal confidence of the French generalissimo in his own plan. To infect the troops with his own optimism he circulated freely among regimental officers full written details of the plan of attack, the date, the attacking strength, everything. This was done in January.

Germans Spring Trap

Within a fortnight the Germans knew all. Ludendorff's memoirs have since explained that a German raiding party captured, on the body of a dead French officer of the Second Division, the whole of Nivelle's plans. The enemy had some two months in which to make use of their booty and it was used to the full. Between Arras and St. Quentin they remodeled their line, thus nullifying in advance the British part of the scheme. The troops thus saved were sent down to the Rheims-Soissons front, where they became part of the living instruments behind the most elaborately planned trap of the war. On the high land of Vauclerc and Craonne, where Nivelle's great blow was to fall with full effect, there was organised such an aggregation of guns, concrete and metal as no troops ever had to face, before or after, in the war.

British Slaughtered

As the date for the great attack drew nearer the presentiment of failure oppressed many, but never Nivelle. For him, as, indeed, for those who had chosen him and were pledged to his scheme, no

drawing back was possible when April 9 was reached. The British were already lost in tens of thousands to keep the Germans off the time for any real of the great offensive was over and past.

...proved the music for Laurence Hope's cycle of Indian songs.

VOICE WINS PRAISE

An instructor of established ability, Maude Fenlon Bollman, proved that the training of her pupils was not entirely conditioned in theory, by displaying a soprano voice of coloring and a faculty for placing it properly. This latter quality was particularly noticeable in her singing of "Saper Voraste" from the "Bal Masque," by Verdi. Accompanied by Ivy Mae Travis, Maude Fenlon Bollman also sang several ballads.

There wasn't a motionless foot or shoulder in the studio last night. This was due to the jazz from the instruments of the Studebaker Radio Orchestra, which appeared through the courtesy of Glenn Thomas of Long Beach. This organization is composed of Charles K. Lindsay, director and violinist; Earl Livingston, saxophone; Joe Lindenbaum, drums; Bess Rudisill, pianist; Wallace Heglin, banjo; Tom Lindsay, baritone; Clint Campbell, trumpet, and Rhue Gill, soprano.

Felton Tompkins, whose service in the Army coupled with a remarkable sense of humor furnished him with the material for a care-dispelling monologue, told the folks out in Radioland all about it and while the laughs could not be heard, the telephone left enough information in the reception-room to prove that the hearers had not laughed for a long time. Mr. Tompkins has entertained the boys in France and in hospitals on this side. He hiked to Los Angeles from Philadelphia, performing en route.

ANTON CHRIS FILLS IN

Anton Chris, who appeared last night with his Hawaiian guitar in a program that enlarged his following, has the spirit of service in his name and heart. Called upon to fill an eleventh-hour vacancy in the KHJ program, he tore himself from a gathering in Glendale and presented himself at the studio prepared to contribute his best. His program included two of his excellent compositions.

Dr. Mars Baumgardt arrived with his solar specs, equipped for a long journey. After the doctor announced his destination, the inhabitants of Radioland clambered aboard and off they went into space up to Betelgeuse, one of the largest stars known to science.

Prof. Walter Sylvestor Hertzog's chapters of American history continued to abound in interest as he unfolded the life of Rev. Michael Schlater, the founder of the Reform Church of the Calvinists in Pennsylvania about 1740.

Rosalie Tuso, whose six years present no obstacles to her talents, sang the "Barcarolle" from "Tales of Hoffman," with utter confidence and followed it with "Rosafather." Baby Muriel MacCormac, screen juvenile, recited two pieces and told several jokes.

INFANT ENDEARS

Dick Winslow brought another of the tales which he illustrates with music and which the lads and lassies now look forward to every week. Aaron Blackman, 7-year-old pianist pupil of Esther Denniston, contributed two piano solos with an ease of manner one would rarely expect to find in such tender youth.

Retaining the interest of the noon hour audience is not a simple matter, but Wally Wallenius, tenor, accompanied by Edyth Petesch, accomplished it with four numbers that won many requests for encores. Dick Kennedy and his piano accordion furnished a type of music that has not been heard from KHJ for many days, and he naturally found a warm welcome awaiting him.

Fred C. McNabb of the Aggeler & Musser Seed Company, recovered from the illness that prevented his appearance last Wednesday, delivered another installment of his garden talks.

K-H-J The Times Schedule

TODAY'S PROGRAM

12:30 to 1:15 p.m. Program presenting Helen S. Elworthy, dramatic soprano. Doris Chilcott, pianist-composer.

2:30 to 3:30 p.m. Program presented through the courtesy of Barker Brothers. A piano recital by Claire Forbes Crane.

6 to 6:30 p.m. Art Hickman's Concert Orchestra from the Biltmore Hotel.

6:30 to 7:30 p.m. Children's program presenting Prof. Walter Sylvester Hertzog, telling stories of American history. Virginia Eberle, 10 years of age, and Nancy Parent, 13, piano pupils of Mrs. Walter M. Reckard. Bernard Berger, screen juvenile and professional reader and impersonator. Onolee Jones will read her own stories, "Radio Good-night Stories—from Playland to Radioland." Weekly visit of Dickie Brandon, screen juvenile. Bed-time story by Uncle John.

8 to 9 p.m. Program presented through the courtesy of the Fitzgerald Music Company. James T. Fitzgerald, president of the company, speaker. Alta Hill, pianist. Glen Ellison, Scotch baritone.

9 p.m. Capt. Edward A. Salisbury will lecture on "Java."

10 to 11 p.m. Art Hickmann's dance orchestra from the Biltmore Hotel.

HUSBAND LOVED MAID

So Mrs. Valerie Secrest Charges in Divorce Petition

A rather beautiful maid whom she had hired and her most intimate woman friend shattered her happiness and her faith in her husband, Mrs. Valerie Givens Secrest stated in a divorce complaint filed yesterday against Frank B. Secrest. The maid remained in her home for more than three months despite her efforts to discharge her, Mrs. Secrest asserted.

After the maid left, her friend, Mrs. Marjorie Hall Smith, came on the scene, Mrs. Secrest charged. She asks $250 a month alimony.

ESPEE ANNOUNCES SUMMER CUT RATE

Summer vacation passenger rates to and from Los Angeles and other Pacific Coast points will be put into effect by the Southern Pacific Railway Company tomorrow, according to announcement by P. S. McGinnis, assistant passenger traffic manager.

Tourist travel from Arizona, Texas, Oregon, New Mexico and the Northwest States as well as other sections of the State is expected to be increased by the low rates, Mr. McGinnis said. Season tickets, good for a three-months' visit, will be sold each day of the week. Week-end rates will be in effect on Friday, Saturday and Sunday of each week, with the return limit of sixteen days. Vacation tickets will be on sale until September 30.

Into the future of each human life stretch two broad Highways

One is the road of *malnutrition*—the road of ill-health and unhappiness

The other is the road of *nourishment*—the road of strength and health

To keep your feet firmly planted on this road of health you must give to your body only the kind of food that is easily and completely turned into nourishment

Three times a day—you make the choice:

Food that overburdens, that even poisons your body, that wears out your digestive machinery—

Or

Food that your system can utilize: food that will build you a splendid body and give you all the power you need to run it.

"When the human body is deprived of needed nutrients it preys upon itself and uses up its reserve that should be drawn upon only in cases of illness or extreme nervous strain."
—*Human Foods*

"Since it is necessary for normal metabolism that the greater number of calories of body heat be produced by carbohydrate foods, it is essential that some kind of cereal food form a part of the daily food allowance."
—*Food and Its Preparation*

Grape-Nuts is made of pure wheat and malted barley. More than three-fourths of the content of Grape-Nuts are the precious carbohydrates.

"Only that portion of the food that is digested and absorbed can serve the purposes of growth and the maintenance of the vital functions. ...

"Not until the nutriments have been converted to available forms and have passed into the blood do they in the slightest degree furnish energy or building material to the animal organism."
—*The Principles of Human Nutrition*

"Thousands are slowly poisoning themselves to death by eating beyond their digestive capacity."
—*Right Food The Right Remedy*

In Grape-Nuts the carbohydrates have been *dextrinized*, that is, scientifically broken down into the form your body most readily and smoothly digests and transforms into strength and vitality.

"Proper mastication is always a signal to the secretions of the stomach and intestines to be ready for their share in the work."
—*Food Facts for the Home-Maker*

Grape-Nuts is in the form of crisp, golden kernels you must chew. This makes your mouth do its work which, if it doesn't do, your stomach must do in addition to its own.

THE power that daily renews your mental and physical strength and vigor is locked up in the *carbohydrates* (a great part of which come from the grains). They are your greatest source of vitality.

At least *one-third* of your nourishment should come from the *carbohydrates*. And yet many of us today do not get proper nourishment from them *in the form in which we usually* eat them.

More than three-fourths of the content of Grape-Nuts (made from wheat and barley) are these precious *carbohydrates*, and what is most important—in the form which the body can most easily digest and transform into strength and vigor.

Youth and health are stored for you in this delicious food

Served with cream or rich milk, Grape-Nuts gives you in most delicious form the essentials of a well-balanced ration.

In order for your body to get the full nourishment from *carbohydrates*—they must be carefully prepared to suit your body's needs. Otherwise, instead of supplying you with nourishment they may clog your digestive machinery and produce the poisons and acids that give rise to almost every physical ill.

In Grape-Nuts they have been *dextrinized*—that is, scientifically broken down into just the form you can best utilize. In this form they yield their full nourishment, without producing any of the acids and poisons that cause premature ageing and most of our commonest ailments.

Grape-Nuts has this great added value to your health

Grape-Nuts comes in crisp, golden kernels you must chew. You can't help chewing it and you enjoy it. This chewing starts the proper flow of the salivary and gastric juices. It keeps the whole mouth healthy. It starts digestive processes in the mouth—*the first step to sound digestion.*

There is no other food like Grape-Nuts in form or in taste. Eat it at least once a day. You will be astonished to see how much more vigorous you feel.

At breakfast, served with milk or cream, it gives you just the nourishment you need. All grocers have Grape-Nuts. Hotels and restaurants serve it in individual packages of a single portion. The Postum Cereal Company, Inc., Battle Creek, Mich.

JAILED ENTERTAIN POLICE

Prisoners Express Views on Causes of Crime After Chief Vollmer Opens Discussion

The police courts are unfair, the police themselves are too hard-boiled, the police reserves are awful, the vagrancy law is too elastic, the public defender is "an agent for the big house," employment agencies are valueless, the Midnight Mission and the Salvation Army increase crime; but Capt. John Shand, chief jailer, and Dan Long, jail chief at Lincoln Heights, are "all right." The foregoing is a summary of the opinions expressed by inmates yesterday at a luncheon in the Lincoln Heights jail where the prisoners entertained Chief Vollmer and his line officers and staff.

The luncheon tables were set in the mess hall of the new brick buildings, constructed last winter. They are Chief Vollmer's new "keyless, barless jails." The hall was decorated for the occasion, and about 600 prisoners ate with Chief Vollmer, his captains and lieutenants.

"Frisco Tommy," who boasted that he had done more plain and fancy thieving, and had been in more jails, than anyone present, acted as toastmaster.

Chief Vollmer explained, in a keynote speech, that he was there to find out what caused crime in Los Angeles, and how it could be decreased. He called on all the gentry present to air their views.

The opinions were slow in coming, until the prisoners realized that this was one time when they could say what they thought of the cops with immunity. For the next two hours they struggled for a hearing.

A wide variety of students of crime spoke, a half-dozen different races and nearly as many colors being represented.

The police reserves, formerly known as the "crime crushers," came in for a great deal of comment in respect to their "cleaning-up" methods. They were pilloried for their system of picking up idle men and carting them off to jail to serve a "stretch" as vagrants. The courts were accused of operating as an agency to keep the jails full and of passing out sentences without investigation of the justice thereof. An ex-bootlegger from Hollywood gave the assemblage a startling view of the profession's activities and intimated that the days of "protection" and "shaking down" are not yet passed.

The prisoners indicated that the city needs a free employment agency where jobs are readily forthcoming, and a municipal establishment to tide over those unable to find work.

When it was announced that half the time of sentence would be remitted by the parole board for industry and good behavior the rafters quivered with five minutes' prolonged cheering.

Too little care for the young boys arrested and thrown into jail was advanced by several of the speakers, who said that many hardened criminals were started out on their careers from association with hold-up men and safe-crackers while doing short terms.

Though the usual conditions were reversed and the police were forced to listen to the world's other half, everyone was in the best of humor when the luncheon party at last broke up.

BLUE BOOK EDITION

The first Blue Book of California to be printed since 1913-15 will be issued from the State printing office some time in July, according to announcement made yesterday. It will contain more than 600 pages. It will be printed on library text paper and will be a better piece of printing than any previous issue of the Blue Book, says State Printer Frank J. Smith.

POLICE BOND SAVING WILL REPAY COST

Chief Vollmer Declares Year Will See Return of Sum Invested in Issue

If the police bonds are carried May 6, the saving to taxpayers in one year will equal the amount of the bonds, is the opinion, expressed yesterday, by Chief of Police Vollmer.

At present the loss in burglaries, robberies, auto thefts and other crimes is conservatively estimated to exceed $6,000,000 yearly. The face value of the bonds is $1,600,000.

Chief Vollmer believes the volume of crime and resultant property losses can be cut at least 25 per cent if the police are properly equipped. Such a saving would approximate the amount of the police bonds.

If the bonds carry, eleven new divisional police stations will be built. This will make the antiquated village system of centralization of police in Los Angeles a thing of the past. With the police force decentralized and properly distributed every section of the city and every citizen will receive protection.

The assessed valuation of Los Angeles is approximately $1,000,000,000. The bonds represent an added taxation of only $.016 on each $100 of assessed valuation of property.

TRAVELERS TO ELECT

Travelers' Protective Association, Post B, California Division, will hold its annual election of officers and a dinner tomorrow night at the Rosslyn Hotel. The honor guest and chief speaker of the evening will be Col. N. W. Flaisig, a veteran of the Civil War.

SOCIETY

BY JUANA NEAD LEVY

Exquisite in its settings of green, white and yellow, St. Vincent's Church at Washington street and Grand avenue was the scene yesterday at high noon of one of the most beautiful weddings for many years when Miss Cecile McLaughlin, elder daughter of Mr. and Mrs. Eugene O. McLaughlin, plighted her troth to Richard Tracy St. John. Rt. Rev. Bishop John J. Cantwell performed the ceremony, assisted by Monsignors Cawley and Tonnelli. Later, the pastor, Rev. Martin J. Hanley, read the nuptial mass. While the guests were assembling the Philharmonic Symphony Quartet—Sylvain Novak, Henry Svedrowsky, Emil Ferir and Ilya Bronson, with William Tyroler at the organ and Alfred Kastner, harpist—gave a musical program and also played the wedding music. Mlle. Laurel Nemeth sang the "Ave Maria" and "Agnes Dei."

The church was exquisitely decorated in the chosen color scheme of the bride, yellow, white and green. The three altars were massed with Easter lilies and greenery and myriads of lighted tapers shed a soft light over the scene. At alternating pews were tall green standards topped with immense clusters of jonquils, Scotch broom and Easter lillies, while at the other pew posts down the main aisle were tied great bouquets of the same blossoms. The side walls held immense baskets of greenery and ferns at the stations of the cross.

The bride, who was given in marriage at the altar by her father, wore an exquisite creation of chiffon embroidered in seed pearls over white satin. Her veil, which was worn by her mother at her wedding and also has been worn by three other members of the family, was held in place by a bandeau of duchess and rose point lace which was worn by her paternal grandmother, Mrs. Edward McLaughlin, at her golden wedding. The long white satin train fell from the shoulders with a broad band of rose point lace down the center reaching to the hem of the train, over which was the wedding veil caught by sprays of orange blossoms and lilies of the valley. She carried an arm shower of white orchids, orange blossoms and lilies of the valley. Miss Hortense McLaughlin assisted her sister as maid of honor, wearing a gown of green chiffon with ruffles of tulle. A picture hat to match completed the costume, and she carried Easter lilies and lilies of the valley.

Mrs. Edward H. McLaughlin (Edith Young) was the matron of honor, and the bridesmaids were Miss Eleanor MacGowan, Miss Olga Simpson and Miss Nora Morres. They were gowned alike in yellow chiffon with tulle ruffles and picture hats to match, and carried arm baskets filled with maidenhair ferns and jonquils. Green tulle streamers with bouquets of jonquils and lilies of the valley were wound through the blossoms and fell to the ground. Young Richard Terry, nephew of the bridegroom, in a white satin suit, preceded the bride, carrying the wedding ring on a white satin cushion. Henry Grandon served Mr. St. John as best man and the ushers included Edward H. McLaughlin, brother of the bride; Clyde Burr, Barton Stebbins, John B. Winston, Howard G. Rath and Francis Marion Terry. A wedding breakfast was served the bridal party and relatives at the home of the McLaughlins in Figueroa street, and Mr. and Mrs. St. John left for a wedding trip. They will be at home after July 1 at 510 Crescent Drive, Beverly Hills. An interesting feature of the wedding was that Mr. and Mrs. McLaughlin were also married in St. Vincent's Church and the bride was christened there.

At Country Club

One of the most attractive affairs of the week will be the luncheon with which Mrs. Franklin Booth of Inverness avenue will entertain this afternoon at the Los Angeles Country Club, honoring Mrs. Charles H. Reiber and Mrs. William C. Walter. Mrs. Rieber is an artist of international fame and has had an exhibition of her portraits at the University of California, Southern Branch. Among a number of portraits of this talented artist is one of Dr. Samuel McChord Crothers, celebrated essayist, and two of Miss Elizabeth Vincent, daughter of, Dr. Vincent, president of the Rockefeller Foundation. Mrs. Rieber is the wife of the dean of the University of California, Southern Branch. Spring flowers in bronze, yellow and blue tones will be combined with foliage in decorations of the luncheon, where covers will be laid for Mrs. Booth, Mrs. Rieber, Mrs. Walter, Mrs. Hansen Moore, Mrs. Norman Bridge, Mrs. James Harvey Adams, Mrs. George P. Griffith, Mrs. James Reed, Mrs. Joseph Brent Banning, Mrs. Percy Booth, Miss Adah Hudson, Mrs. Alice Lynch, Mrs. Robert Linton of Pelham, N. Y., Mrs. Carl Adam, Mrs. Frank Furnival Peard, Mrs. Melville G. Eshman, Mrs. Chappel Q. Stanton, Mrs. James P. Moore, Mrs. Cosmo Morgan, Mrs. Oscar Lawler, Mrs. Robert London, Mrs. Harry Chandler, Mrs. Theodore C. Lyster, Mrs. John Newton Russell, Jr., Mrs. John W. Kemp, Mrs. Waller Taylor, Mrs. William Mead and Mrs. Alexander R. Barret.

Returned Home

Mrs. Roland P. Bishop and her sister, Mrs. Burton Edmund Green of Beverly Hills, who went East to enjoy the Easter holidays with their son and daughter, respectively, Roland Bishop, Jr., and Miss Dorothy Green, who are at school in the East, have returned after a delightful visit in Washington, D. C., New York and Chicago.

For Visitors

Mrs. Charles W. Upton of 344 Pasadena avenue, entertained yesterday afternoon with a luncheon party at the Vista del Arroyo, honoring Miss Nell Prendergast of Chicago and Mrs. Addie Deutsch of Grand Rapids, Mich. The guests were taken to the matinee "La Golondrina," at the Mission Playhouse in San Gabriel afterward.

Luncheon Party

Mrs. A. Skene Moody entertained friends at a luncheon Wednesday afternoon at the Mary Louise. The decorations were attractively carried out with a profusion of spring flowers and ferns and unique place cards of jonquils marked covers for Mrs. Moody, Mrs. Fred Richmond, Mrs. Dan Beecher, Mrs. G. D. Robertson, Mrs. A. L. Smith, Mrs. J. L. Van Norman, Mrs. Alden West, Mrs. Roy Reignier, Mrs. Arthur Brown, Mrs. Ray Cordary, Mrs. Alfred Bartlett, Mrs. C. Braun, Mrs. Eugene Valk, Mrs. George Emmons, Mrs. Humphrey Marshall, Mrs. J. Holbrook, Mrs. Rose Hartley and Mrs. E. Palmer Tucker.

For Europe

Leaving their home at Beverly Hills Hotel June 1, Mr. and Mrs. Willis Douglas Longyear and daughter, Miss Gwendolyn Longyear, will sail June 7 on the Majestic from New York for Europe. They plan an extensive motor trip through England and the continent. They will return in September. Mr. Longyear, who now is on a business trip in the East, will return home May 5.

In the North

Mrs. John D. Fillius and her son-in-law and daughter, Mr. and Mrs. Benjamin K. Edwards (Marian Fillius) left Tuesday evening for the north, where they will remain for several days visiting in Oakland and San Francisco. They will return to Los Angeles, where they have been wintering at the Ambassador.

For Fleet Officers

Honoring the return of the Pacific Fleet, two elaborate balls will be given this evening at Hotel del Coronado and the Virginia. The former will be in honor of Admiral Robert E. Coontz, commander-in-chief of the United States fleet, and naval officers who returned Tuesday to their home port in San Diego, while the Virginia is entertaining in ohonor of Admiral Samuel S. Robison and officers of the United States battle fleet. Both balls will be brilliant affairs, and officers will be in full regalia. At Hotel del Coronado there will be a special entertainment featured in honor of the returning officers, and a number of large parties from Los Angeles and Pasadena are going down to attend. The ball at the Virginia will be a formal affair and there also will be entertainment.

Luncheon Party

Mrs. Charles W. Upton of 344 Pasadena avenue entertained yesterday afternoon with a luncheon at the Vista del Arroyo.

More Hotpoint Irons in use than any other make

The Hotpoint Percolator
Price $16.75

Why your neighbor thinks so highly of her Hotpoint Iron~

The New Hotpoint Stove
Price $4.95

IT is hardly surprising that dealers feature the Hotpoint Iron—and that more of them are sold than any other make.

For in the Hotpoint Iron your money buys more real comfort and help than you ever got before.

The Hotpoint Iron costs $6.75.

Now consider what this $6.75 buys:

Strength-saving *Cantilever Handle*—saving exertion all through body.

Attached Heel Rest—no iron stand—no lifting.

Hinged Cord Plug with *Ball Joint*—gives the cord extra flexibility, and prevents it from snarling, fraying and breaking.

All-way-through Handle Bolt—no more cracked or jiggly handles.

Heavy Duty Plug Receptacle—no breakage if the iron falls.

Everlasting Steel Cord Bushing with *New Floating Contact*—two features that add materially to the *service life*.

Better ironing—because the point is *even hotter* than the rest of the iron.

* * *

The Hotpoint Iron is a true Servant—designed with thorough consideration, with experience and authority.

It is *the* electric iron.

MEAT CAKE

Mix one and a half cupfuls of finely chopped cooked beef with three-quarters of a cupful of rich gravy and heat through. Just cover two cupfuls of stale bread crumbs with water, let stand twenty minutes, beat into them two well-beaten eggs, three tablespoonfuls of flour mixed with half a teaspoonful of salt and one teaspoonful of baking powder; mix well, pour half the batter into a buttered frying pan, cook until it sets, cover with the meat mixture, pour over the balance of the batter, set the pan in a hot oven and bake until nicely browned and firm. Cut in pie-shaped pieces and serve on hot plates.

MOCHA CAKE

Beat the yolks of four eggs to a cream and beat into them half a cupful of sifted granulated sugar; beat two minutes, add half a cupful of sifted flour, sifted with half a cupful of cornstarch and half a teaspoonful of baking powder; beat two minutes, beat in a half teaspoonful of vanilla and two tablespoonfuls of strong black coffee and the stiffly beaten whites of four eggs. Pour into a buttered and floured deep-layer cake tin and bake in a moderate oven thirty minutes. Turn out on a wire cake rack, cool, split open and fill with coffee cream. Cover with coffee icing and sprinkle with grated cocoanut.

COFFEE FILLING

Mix in the top of a double boiler half a cupful of sifted flour, half a cupful of sugar and a few grains of salt; stir in two cupfuls of strong black coffee and stir and cook until thick and smooth; add two well-beaten eggs and stir and cook two minutes, do not boil. Add one teaspoonful of vanilla, cool and use.

COFFEE ICING

Beat the white of one egg to a stiff froth and gradually beat in one and a half cupfuls of sifted confectioners XXXX, two tablespoonfuls of strong black coffee and one tablespoon of melted butter.

ROCK BASS HOLLANDAISE

Clean and wash a three or four pound rock bass, place in a fish kettle, add one sliced carrot, one sliced onion, one sliced lemon, three branches of parsley, one crushed clove of garlic, six whole cloves, a bay leaf and cold water to just cover; bring to a quick boil, reduce the heat and simmer ten minutes. Lift out the fish onto a hot platter, garnish with boiled potatoes dipped in melted butter and chopped parsley and slices of lemon dipped in paprika. Serve Hollandaise separate.

HOLLANDAISE SAUCE

Place in a saucepan half of a finely chopped onion, six whole black peppers and one cupful of vinegar, cook over a slow fire until reduced nearly dry; set the pan over hot water, add the slightly beaten yolks of six eggs and stir in, a small piece at a time, three-quarters of a pound of butter; stir until each piece of butter is dissolved and do not allow to boil. When the sauce is thick remove from the fire and add two teaspoonfuls of cold water, the strained juice of one lemon and a seasoning of salt, cayenne pepper and a grate of nutmeg. Strain through a piece of cheese cloth and serve.

R. F. Taylor, Resident Here Long Time, Dies

Ridley F. Taylor, a prominent figure in the building industry for years and a resident of Los Angeles for more than thirty years, died Tuesday at his home at 1757 North Gardner street. He was 53 years of age.

Mr. Taylor was active in Masonic circles and was a Thirty-second degree Mason. His fraternity will have charge of the funeral.

He leaves a widow, Mrs. Fleta Taylor; a son, Everett Taylor; a daughter, Ruth Graydon, and a brother, Esau Taylor.

ANSWERS TO CORRESPONDENTS

A VALENTINE

"Dear Doctor Lu,
I'm still true!
Girls like you are very few.
Now please tell me what to do;
What to eat, what to eschew,
For a hyper-acid tummy.
—Gratefully, H. F."

Hyper-acid tummies, dear, by many things are caused; bolting, 'bacco, excess fear, all breaking Nature's laws. The list's too long to give you all, but two more I should stress: constipation 'n alcohol will head the list, I guess. What to do? Just cut these out, reform if thus you've done. Send for the piece which I have writ; 'twill cure your acid tum. When asking for this article, forget not to enclose a self-addressed stamped envelope; 'tis only thus it goes. Thanks muchly for your valentine, 'twas very nice to do—the "girl" and "true" sure sounded fine! I send my love to you.

"Dear Doctor: I am making a collection of your articles, but they are mostly on reducing and I knew them by heart. Now you are beginning on the gaining, which suits me. But everything is milk, milk, milk. What can I do about a substitute, for I cannot use it?"

You can use cottage cheese or take the milk in the form of custards and cream soups. Perhaps a malted or buttermilk will suit you. You must enjoy the reducing articles—else you wouldn't read 'em, n'est-ce pas?

"Dear Dr. Peters: I first tried your caloric method of treatment, with the result that I got rid of twenty pounds in two months. An untimely visit stopped the process and I've tried ever since to get at it, but so far it has been ineffectual spurts.

"Last summer I started in with you with our newspaper class. I found I had gained two pounds at the end of three days' liquid diet! I've mostly tried to wish it off since. It doesn't work. And, ye gods! how I need it off! I'm nearing 40 and weigh—say, I never mind telling my age (I don't mind telling my age to observers (because you're believing) but it's as much as it is keeping one of my nut jar! Listen, and please tell anyone else—I'm very unusually well-built, good shape (considering), tall (but not tall enough) and 220 pounds! Well, I do! Think that off my mind a pound.

"Tonight I've promised my age to the sticking point and going in hard for reducing not use one mouthful of food until I get your reducing diet and word from you that, at least, think I might go camping time soon! I hope you follow be able to take my pen light, so there! Yours in action—V."

On your three-day you certainly your more calories than or else your system I imagine the scales I hope you follow ducing pamphlet fear you are still diet and by this lost ton.

If you do stamped, self-addressed with your address ably did not forget let. I get so of letters that an extra effort opes, so we have point.

Tomorrow—

THE NEW

IN STORES AND HOMES

NOVELTIES, IDEAS AND PRACTICAL SUGGESTIONS

By Olive Gray

Up-to-Dates:

Hints from Paris aver that for summer, hosiery will become even more than ever transparent, some being fashioned from lace, some from cobwebby weaves bet set with silver and with gold lace, others of fish-net weave in silk, studded with beads. For modesty's sake, flesh colored stockings will be worn beneath the more open-work ones!

Why Not?

Why not name the forthcoming Parisian hosiery "foot suits"? They seem of the same weave in many instances, as were those mitts of grandame's day. Who bother to have heels or toes on such evanescent footwear? Manufacturers, take notice!

The Eternal Question

If one were a Parisian buyer of garments and merchandise for American patrons, one would eternally beset by some confusing question such as "Will the short skirts take?" or "Will the fuller silhouette, or the more slim?" Such problems keep buyers awake o'nights. The disturbing question now is: "Will ostrich take so great a hold upon feminine America as it has upon Parisiennes?" It is doubtless that ostrich, especially in the form of fringes, has usurped all other dangling trimming, even supplanting monkey fur. Grace a Dieu! Long may it wave! Anything in place of the long-tolerated monkey fringe, say I.

Which Is Which?

Problem: Which is the [illegible] which the walking-stick? So greatly attenuated are many of the gowns upon our promenades, that one glances twice, in order to distinguish them from the svelt younger-sticks that they carry. So are so identically colored in dress, that the question is even more beclouded. The girl who postered in white and black, possesses a stick in white enamel with touches of black artistically applied and having a black silk cord, tassel and perhaps a hand strap in black. If she chooses to reverse the popular combination, black with touches of white to appear as her walking stick in colors, it is the same; and one may easily find in our shops the stick which seems to have come into being for the very purpose of finality to one's costume color scheme.

Reptilian Touches

She who would flee at the mere glimpse of a reptile, does not hesitate to adopt the snake skin or lizard skin shoe, or one trimmed with this leather. In fact it is one of the season's fads to wear shoes thus enhanced. Not surprising that men—the brave ones—are free of the species—should wear reptilian footgear, and many of the modishly extreme shoes for masculine use, somb in presence, are examples of new or the perennial pacaderm skins, even alligator having brought back to favor.

Ribbons Odd Freaks

One of the latest odd freaks in ribbons is that of becoming the feathers of the Parisian millinery bird. The bird, itself, is more than likely to be in one of the new tints of radio—lacquer, spark, or some other—and his tail, falling far to one side of the narrow brimmed hat and almost resting upon the shoulder of the wearer, will be fringed ribbon, either in a matching shade to the bird, or in a striking contrast.

In Lighter Sartorial Vein

Paris indorses plaids with [illegible] emphasis.

MARRIED TWELVE YEARS BEFORE BABY CAME

Gladly Recommends Lydia E. Pinkham's Vegetable Compound

Louisville, Nebraska.—"I was married twelve years before my boy was born. I had a lot of female troubles and had been treated by a physician for them but they continued much the same. Then I read your advertisement in the newspapers and thought I would give Lydia E. Pinkham's Vegetable Compound a good trial, for if it had helped others, why not me? I have taken 36 bottles of the medicine and am never without it in the house. My baby boy is three years old now and I sure am happy since I got relief from my troubles. When any one has troubles like mine, or any ways like mine, I am always glad to recommend the Vegetable Compound so that they will get the right kind of medicine."—Mrs. JOE NOVAK, Box 662, Louisville, Neb.

In a recent country-wide canvass of purchasers of Lydia E. Pinkham's Vegetable Compound, 98 out of every 100 report they were benefited by its use. For sale by druggists everywhere.

Heal Skin Diseases

Apply Zemo, Clean, Penetrating, Antiseptic Liquid

It is unnecessary for you to suffer with Eczema, Blotches, Ringworm, Rashes and similar skin troubles. Zemo, obtained at any drug store for 25c, or $1.00 for extra large bottle, and promptly applied, will usually give instant relief from itching torture. It cleanses and soothes the skin, and heals quickly and effectively most skin diseases.

Zemo is a wonderful, penetrating disappearing liquid and is soothing to the most delicate skin. Get it today and save all further distress. Zemo Soap, 25c—Zemo Ointment, 50c.—[Advertisement.

ASKS ALL JOIN INDUSTRY MOVE

L. W. Craig Speaks Before Greater City Body

Would See Every Citizen Active Member

Urges Demand for Locally Made Articles

More than forty merchants and bankers met with the directors of the Greater Los Angeles Association yesterday at a luncheon in the grill room of the Biltmore Hotel. The chief speaker was L. W. Craig, assistant vice-president of the Security Trust and Savings Bank.

L. W. Craig

Mr. Craig called attention to the importance of getting every citizen enrolled in the Greater Los Angeles movement. He also pointed to the vast sums already invested in real estate, in municipal improvements, and in private undertakings, based on the belief in the permanence of the city as a manufacturing and industrial center.

BUILDING PROGRAM

"There are thirty new office buildings now actually under construction, or in process of being financed, which will cost in the neighborhood of $40,000,000," said Mr. Craig. "This is but a small item compared to the sums that are going out of the city for manufactured products.

"Every citizen can help in the Greater Los Angeles movement by demanding Los Angeles-made goods. The greater the demand, the greater the need for workers to meet it. The retail merchant sells what the people want. If they go to his counters and ask for products carrying a home brand, he will have to put those goods on his shelves.

"There are many people in this city today who do not know that some of the best shirts and collars are made in Los Angeles; that three shoe factories have already been established; that nearly every food product from coffee to lard is being prepared for the market here; 50 per cent of our furniture is manufactured here—and there's no reason why it shouldn't be 100 per cent.

"If buyers will demand clothing, hats, gloves, shoes, carrying the brand, 'Made in Los Angeles,' we will very soon have wheels turning that will insure employment to every man and woman in need of work."

At a meeting of the Board of Supervisors on Monday, a resolution was adopted emphatically indorsing the Great Los Angeles Association, and expressing full confidence in its officers and managers.

GLENDALE BACKS PLAN

Pledging themselves to the largest membership outside of Los Angeles 200 bankers and business men of Glendale gathered at the Oakmont Country Club last night and enthusiastically indorsed the Greater Los Angeles Association movement.

Charles B. Guthrie, a well-known realty man of Glendale, acted as toastmaster. The speakers were Boyle Workman, president of the City Council; D. W. Pontius, president of the Pacific Electric Company; Henry B. Barber, president of the California State Realty Association; Henry H. Merrick, president of Greater Los Angeles Association, and others.

A volunteer membership organization of 150 workers will start work at once. All the diners were keenly alive to the need for more and better factories for the making of products to carry the Made-in-Los-Angeles brand and are determined to do their utmost to encourage manufacturers to come to Southern California.

Aims of the Greater Los Angeles Association will be presented to business men and financiers of Hollywood tonight at the Masonic Temple. George L. Eastman will act as toastmaster, and officers of the association will make brief speeches. Tickets will be on sale at the Hollywood Foothills Association, 4583 Hollywood Boulevard.

DRUGGISTS TO DINE

The Retail Druggis' Association will have a banquet today at 6:30 p.m. at the Elks' Club.

WARNING

It has been called to the attention of officers of the Greater Los Angeles Association that in a few instances unauthorized individuals are soliciting cash subscriptions for membership. All payments should be made by check, payable to the order of W. D. Longyear, treasurer. Authorized solicitors for memberships for the Greater Los Angeles Association are equipped with proper credentials.

GREATER LOS ANGELES ASSOCIATION,
By Harry H. Merrick,
President.

MAY ADD TO PARKING BAN

Further Restrictions Will Be Recommended to Public Utilities Board by Sub-committee

Stringent parking regulations in the congested district of Los Angeles, sharply abbreviating privileges now enjoyed, will be recommended to the Public Utilities Board today in a report to be presented by its special committee appointed to make a comprehensive survey of the entire parking problem.

If adopted by the board, the report will pass to the City Council for legislative action.

Signatures attached are those of R. W. Pridham, vice-president of the Chamber of Commerce; A. E. Adams, Retail Dry Goods Merchants' Association; George M. Babcock, Business Men's Association; P. B. Hill, Los Angeles and Pacific Electric Railway companies; W. R. Kilgore, Associated Secretaries, representing among others the laundry proprietors; Richard Sachse, Traffic Commission, and F. A. Lorentz, engineer to the Board of Public Utilities.

Pending the receipt of one more member's signature, the text of the report is withheld, but an outline of its general nature was obtainable.

Between the hours of 7 a.m. and 6:15 p.m., all parking will be forbidden on four main thoroughfares running north and south through the length of the congested district. Hill street is known to be one of the four.

For the same hours, all parking will be forbidden on seven streets running east and west through the same district. Second street is known to be one of the seven. Conjectures as to the identity of the others vary.

These regulations will clear up the situation existing at Pershing Square, where the parking of sight-seeing and tourist busses now congests Fifth and Sixth and Hill and Olive streets.

Taxicabs will be allowed less freedom. It is proposed that they be tied down in such fashion that their whereabouts and what they are doing can be known at all hours.

No change will be made in existing regulations governing parking in the congested district at large between the hours of 4 and 6:15 p.m.

Additional traffic officers and greater police powers will be asked. In part, the report ascribes congestion to an inadequate police force, as evidenced, among other ways, by the fact that the transit companies find it necessary to detail traffic officers of their own to strategic points not regulated by police officers.

A number of recommendations will be made relating to unloading zones. In general, it is understood that commercial vehicles will receive preferential treatment over so-called pleasure or touring cars.

EX-EDUCATOR PUT ON TRIAL

Joseph R. Abernathy, former superintendent of schools at Anaheim, was the chief promotor of arrangements whereby $25,000 was stolen from a registered mail pouch in that city on December 27, 1923, J. Lloyd Findley, government witness, testified at the trial of Abernathy and Charles R. Wheeler yesterday before Federal Judge Bledsoe.

Abernathy, Findley and Wheeler are charged with robbing the mails. Findley has pleaded guilty.

Postoffice Inspectors Lowe and Jarvis, who investigated the robbery and caused the arrest of the defendants will testify for the government today. Evidence obtained by them during the course of the investigation is said to include bits of sealing wax from the registered packages that they reported finding in Abernathy's garage.

Findley, who drove a mail truck between the Anaheim postoffice and the railroad station, testified that he and the other two defendants frequently discussed the proposed robbery. He said it was decided that Wheeler, a clerk in the registry division of the postoffice, should let the other two know when registered packages such as they wished to get were mailed.

On the day of the robbery, Findley said, Wheeler told them of money being mailed by an Anaheim bank. The witness quoted quoted Wheeler as saying, "For — sake, let's get it."

Thereupon, the witness explained, he took a substitute pouch and placed the registered pouch in Abernathy's automobile when the latter drove up to him while he was going to the railroad station. He said Abernathy advised him to go into the country and pretend he had been held up.

Findley testified that later Abernathy told him his share of the money would be $7350. He said that Abernathy explained he had thrown the empty mail pouch in Santa Ana Canyon. "All I ever got of the money was $45," Findley testified, "but Abernathy told me he would play fair but that he wanted to negotiate the small bills before the money was divided."

HARDING'S AUNT WILL BE GUEST

Mrs. Frances Wyant to be Honored at Meeting of Coolidge Clubs

Mrs. Frances Wyant of Sawtelle, aunt of the late President Harding, is to be a guest of honor at a meeting of the women's division of Southern California Coolidge clubs in the Angelus Hotel this afternoon. The meeting will be conducted by Coolidge women of Redondo Beach, Inglewood, Hermosa Beach, Manhattan Beach, Venice, Ocean Park, Santa Monica, Sawtelle, Westgate and Sherman.

Mrs. Ellen French Aldrich, chairman of the South Bay section of the women's division, will be the chairman of the meeting, according to Mrs. R. T. Brain, secretary of the campaign body.

Final arrangements for the luncheon at the Alexandria May 1, in honor of the women on the Coolidge primary ballot, will be announced this afternoon. These plans were completed at a meeting of Mrs. Christopher Gordon, Mrs. F. C. Magauran and Mrs. Estelle Omdalen yesterday.

Members of the Ninth Congress District Coolidge executive committee will also meet at the Angelus Hotel headquarters this afternoon to make final plans for the drive, which is to be made in the southeastern part of Los Angeles county in behalf of the President. This meeting has been called by Galen H. Welch of Long Beach, and Cadet Taylor of Pomona.

Coolidge supporters of the Highland Park district of Los Angeles are scheduled to meet at the home of Mrs. George Wilson, 616 North Avenue 66, this afternoon. Mrs. S. H. Creager, member of the Southern California Coolidge speaking bureau, is to address this meeting.

NEGRO SUSPECT HELD IN WIFE SHOOTING

George Smith, 45 years of age, negro, was arrested in Pomona yesterday and lodged in the County Jail here in connection with the probable fatal shooting of his wife. Smith was captured after a hot chase of his automobile by Pomona officers who had been notified by local police to watch for him. The wife, Clara Belle Smith, 34, was shot in her arm and side with a rifle, following an altercation at their home at 1619 Redwood street Tuesday night, according to the police.

CHILDREN LOCKED IN CLOSET BY ROBBERS

Two well-dressed strangers who pretended at first to be making a business call got into the home yesterday of T. A. Hunsinger at 616 South Serrano avenue, locked Thomas A. Hunsinger, Jr., 14 years of age, and Jean Hunsinger, 18, in a closet and ransacked the house. They stole about $500 in jewelry and silver, and left, after cutting the telephone wire. The children were released when their parents returned. Officers Sketchley and Vanaken of the Wilshire station were told both men produced pistols as soon as they got beyond the front door.

Coolidge Rally Will be Tonight at Burk's Hall

Officials of the South End Community Welfare League have called a meeting for tonight in honor of the Seventy-first Assembly District Coolidge Club, at Burk's Hall, Moneta and Slauson avenues. Fred Frank, manager of the organization department of the Coolidge headquarters, will be the toastmaster. Assemblyman Henry E. Carter is to be the guest of honor.

C. E. Whiteside is president of the organization, Thomas J. Jennings recording secretary and Mrs. A. W. Hampton corresponding secretary.

The following persons make up the committee of arrangements: Mrs. Jeannette P. Philpott, Mrs. Grace Henze, Mrs. Harry E. Horner, Mrs. Gladys Welty, Mrs. Effie Alexander, Mrs. Annie L. Hancock, Mrs. Susan L. Ladd, Mrs. Maiebelle B. Jennings, Alvina E. Whiteside, Elmer E. Bellows, Roy Alexander, George F. Palmer, Alfonse Oliver, James Burk, Paul Nolan and Charles B. Horner.

Von Stroheim Files Demurrer to Novel Suit

Erich Von Stroheim and two surety companies named as co-defendants filed demurrers yesterday to suits brought by Selma and Gladys Lewis on account of the novel version of "The Merry-Go-Round," and the Citizens' Print Shop filed an answer denying Von Stroheim's assertions in his suit against it.

The first court hearing will come the 28th inst. when Von Stroheim will ask for an injunction against the Lewis girls and the printing establishment to forbid further publication of the novel.

The suit of Gladys Lewis asks a dissolution of partnership with Von Stroheim, an accounting and damages, and Selma Lewis asks damages for asserted injury to her reputation as a publisher. Von Stroheim asserts the novel was published without his consent.

Police Detail for Municipal Links Sought

Daylight thievery of all descriptions has grown so bold at the clubhouse and grounds of the municipal golf course that Police Commissioner Birnbaum yesterday requested Capt. George Home of the detective force to detail a special squad of men to protect players and their property.

Professional thieves drive out in their own cars to strip or drive off in the automobiles of players, and to rob them of clothes, playing clubs and other personal effects, left aside for a few moments in the clubhouse or on the course. Inasmuch as there are between 150 and 600 machines parked in streets adjoining the grounds, at present without protection, pickings have been good, it is said.

Chief Vollmer, with whom Commissioner Birnbaum discussed the situation, said it would be difficult with the present force, to spare men from more important duties.

ORATORICAL HONORS GO TO L. SMITH

Youth Will Represent Los Angeles High in National Contest

Lloyd Smith was the winner in the contest conducted by the Los Angeles High School yesterday to decide a tie as to the representative of that institution in the semi-finals of the National Oratorical Contest, which will take place May 3.

Smith tied for first honors with Arthur White at an elimination meet about ten days ago. His oration was entitled "The Spirit of the Constitution," while his opponent spoke on "Lincoln and the Constitution." The judges were Mrs. Lloy Galpin and Profs. J. B. Aimee, E. F. Henley and George Lyon, all members of the school faculty.

At the contest of Tulare county orators, conducted yesterday at Visalia, Raymond Ray of Exeter was declared the winner. His subject was "John Marshall and the Constitution." The other contestants were Ila Miller, of Lindsay; Grace Double of Porterville; William Irwin of Tulare and Louise Elvay of Strathmore.

The judges were Mabel E. Ward of Strathmore, D. E. Perkins of Visalia, Rev. Benjamin J. Gould of Tulare, Eugene U. Blalock of Porterville, W. S. Frantz of Lindsay, and W. S. Clawson of Exeter. The meeting was attended by an enthusiastic audience.

QUITS POST AS COUNTY LIBRARIAN

Miss Celia Gleason to Relinquish Control on First of May

The resignation of Miss Celia Gleason as county librarian was received and accepted by the Board of Supervisors yesterday, effective June 1. It was stipulated, however, that Miss Gleason relinquish control of the library May 1, which will give her a month's vacation. It was said that she was entitled to this because of having taken no vacation last year.

Charges were filed against the librarian recently on the ground that she had purchased piecemeal the Fisher portfolio of prints, which the Supervisors had refused to purchase when it was offered them as a unit and had paid $1000 more than the price at which it was offered.

Corn cobs are rich in acetic and lactic acids, according to professors at the University of Wisconsin.

SALE
USED AND SAMPLE
PIANOS

Complete Clearance and the Greatest Piano Values we've ever Offered

NOTE THE MAKES AND THE PRICES GIVEN BELOW—THEN COME IN AND BE CONVINCED

Open Evenings until Nine during this sale.

ROEMER BROS. BABY GRAND, brown mahogany, satin finish. Used but eleven months. A fine piano and a big saving..... $585.00

Plenty of hot water

AFTER all, a hot water heater is there for the purpose of providing hot water. That is the main reason for having such a thing.

But there is a deal of satisfaction in knowing that you will always get plenty of hot water, at any time and year in year out uninterruptedly.

This is where the RUUD has proved itself time and again. There are many models of RUUD heaters, but they are all built to the one standard—reliability.

WILKES BUSY

SIGNS RAYMOND HITCHCOCK FOR MUSICAL SHOW

By Grace Kingsley

It had better be a cool summer this summer or Thomas Wilkes is likely to find himself all petered out. For Mr. Wilkes is planning to be even busier if possible during the coming few months than ever before.

For one thing, Mr. Wilkes is going to produce a new musical comedy called "The Caliph," during the dog days, and while the show is to be put on in San Francisco, originally, it will be brought to Los Angeles later, and will likely be shown at Philharmonic Auditorium, for which theater Mr. Wilkes is now negotiating for the summer months.

Raymond Hitchcock, no less, is to be the star of this musical comedy, he having just signed with Wilkes for the part. Basil Ruysdael, who has been singing the role of Uncle Tom in "Topsy and Eva," will also have a leading part in the new piece.

A whole lot of Columbusing is being done by Wilkes these days, and one of his newest discoveries is a beautiful Follies girl and Howard Chandler Christie model who not only can look, but who can also think and write. Morine Montagu is the young lady's name, and it is she who has written "The Caliph." Not only did she write the words, but the tunes as well! And Mr. Wilkes, just to show you what he really thinks of the musical comedy, says that he bought the piece before he had even seen the author!

If Mr. Wilkes does take over the Auditorium, he is planning to bring "Topsy and Eva" back for a limited engagement at that house, before the Duncan Sisters show, which has been breaking all kinds of records in Chicago, and has been proving the red-hot hit in the midst of a generally somewhat frostly theatrical season there, takes up winter quarters in New York. The Duncans are reported as planning to produce another musical show, starring Frances White.

Mr. Wilkes has decided not to produce the Charlotte Chisholm Cushing comedy, "Romyet and Julio," co-starring Margaret Lawrence and Wallace Eddinger, at least for the present. Instead, following the run of "All Alone Susan," which is proving a great success at the Majestic, Mr. Wilkes will bring Leo Carrillo from San Francisco to play his new Booth Tarkington piece, "Magnolia," in which Carrillo may appear in revivals of "Beau Brummel" and of the Hattons's comedy, "Lombardi, Ltd.," in which the star scored his greatest hit. It is likely that the Lawrence - Eddinger combination will be taken back to New York at once in their new success.

Domestic Note

Sarah Padden, at the Orpheum, is knowing the delights of domestic bliss this week. She is, in private life, wife of Manager George C. Sackett of that theater, and they are domiciled in a brand new apartment for the length of her stay here.

Players to Flit

Finding little rest for the sole of his foot, these days, Bert Lytell no sooner returns from Europe than he is scheduled to go right back to New York to play the leading role in the First National production, "Born Rich," which William Nigh will direct.

Claire Windsor likewise finds little time to devote to learning how to make salads in her own bungalow kitchen, inasmuch as she, too, having just returned from abroad, is to go East to play in the same picture, opposite Lytell. Lytell leaves today, and Miss Windsor will leave in a day or two.

It looks as though Mr. Lytell and Miss Windsor were going to be the Pyramus and Thisbe of picturedom, inasmuch as both played opposite each other in "A Son of the Sahara," over in Algiers.

Mr. Lytell has just purchased a big residence site in Beverly Hills, and as soon as he completes work in "Born Rich," he will come back and build a home. Billy Lytell, father of Bert and Wilfred Lytell, and himself a famous actor in his day, has been visiting his son, and will return to New York with him.

Julia Blanc, noted character actress, who has been identified with many leading Morosco productions during the past twenty years, is lying very ill at the Clara Barton Hospital, where early last week she underwent an operation.

Laurette Taylor Today

Laurette Taylor and her author-husband, J. Hartley Manners, will arrive in Los Angeles today. The stage and screen star is coming west to start work on "One Night in Rome," an adaptation of Manners's stage play of the same title which Clarence Badger will direct for the newly amalgamated Metro-Goldwyn-Mayer interests.

"One Night in Rome" will be Miss Taylor's most pretentious motion-picture undertaking. She has made two previous pictures for Metro release, viz.: "Peg o' My Heart" and "Happiness," both directed by King Vidor, but these were comedy dramas not requiring as much outlay as will "One Night in Rome."

Hobart Henley's First

Hobart Henley, who recently signed a long-term contract with Louis B. Mayer, will be the first director to start production under the merger of the Metro-Goldwyn-Mayer companies, according to announcement by Harry Rapf.

The director will film "Free Love," an original story by Benjamin Glazer, a prominent author and translator of Molnar's plays.

Adolphe Menjou will play a similar type of part which won him such fame in "A Woman of Paris" and "The Marriage Circle," in Henley's picture. Eleanor Boardman will play the leading feminine role opposite Conrad Nagle.

Florence Vidor as Frietchie

Now the school kids have something to look forward to, for one of their best-loved heroines is to come to life on the screen.

After months of careful consideration of candidates, Thomas H. Ince has signed Florence Vidor for the title role of "Barbara Frietchie." A favorite stage classic of two generations, film rights for the Clyde Fitch play were purchased some time ago by Ince after extended negotiations with the playwright's widow and the estate of Charles Frohman.

Sets being prepared for the picture, which will go into production in the near future, are among the most elaborate which have been planned for any recent Ince production. With the studio administration building, which is a reproduction of George Washington's Mount Vernon home, as an inspiration, the producer is planning to transform an entire end of the Ince lot into a bit of the romantic Southland of "before the war" days.

A feature of the production will be the staging of the fight which occurred between the Monitor and the Merrimac, the aid of the United States Navy having been enlisted to make the screening of this sequence an historical event.

William S. Hart With Us

William S. Hart has returned to his home in Hollywood, following a parley with the heads of Famous Players-Lasky in New York, where it was decided on the part of Hart not to sign again because he would not give way to the firm's objection against his selection of his own stories.

Just what Hart's plans are at present is not known, but it is rumored that he will sign no contracts for the present at least.

Opening City's Newest Play Center

Doris Keane,

Who will appear in "Romance" at the new Playhouse, opening May 5. Miss Keane will arrive here tomorrow, after spending a few days in the Grand Canyon.

Fine Program Is Offering by Ellis Club

The Ellis Club was heard last evening in another of their gratifying concerts at Philharmonic Auditorium. A variety of small numbers were sung for the first half of the program, with three pretentious compositions, with orchestral accompaniment, making the second part of the evening's entertainment.

Fred C. McPherson, baritone, was soloist; his numbers included "Pilgrim's Song," by Tschaikowsky, a number of Stickles, Damrosch's "Danny Deever" and the lengthy "Farewell of Hiawatha" by Foote. Mr. McPherson is the possessor of a baritone of smooth texture, even throughout range, and thoroughly pleasing to the ear. One doubted in one or two instances during the evening if he were in his best voice. His interpretations of the songs which he sang were imbued with life. The "Danny Deever" was given a soldierly treatment, and was well received.

The number of outstanding importance was perhaps "Land of Hope and Glory," by Elgar Foote. This was heard with orchestral accompaniment. A grandiose rendition, stirring throughout, was given.

"Sea Fever" (Andrews,) a strongly rhythmical number, gave proof that people want music with strong rhythm even more than melodic charm; the number won a repeat. Leoncavallo's "Gentle Friend Pierott," was rendered with charm.

The accompaniment in this is particularly mentionable, for it was of unusual beauty. Mrs. Hennion Robinson, accompanist, really outdid herself last evening, for her work was more musicianly and attractive than usual.

Other numbers were interesting: among them were "The Call of the Spring," (Barthlolmew;) "Morning Hymn" (Henschel;) "Sylvia" (Speaks,) and "The Dawn" (Hammond.) The orchestral accompaniment in the last-mentioned formed a strong and colorful background.

MANY TO APPEAR AT VAUDEVILLE BENEFIT

Just to acquaint the public with what it is going to see at the National Vaudeville Artists' benefit in the Philharmonic Auditorium Monday night, the following names are listed as among the stars actually to participate. The list will also include hosts of vaudevillians. The names listed include Nazimova, Mme. Elinor Glyn, Pauline Fredericks, Lew Cody, Snowy Baker, Conway Tearle, Adele Rowland, Sophie Bernard, Ethel Clayton, Theda Bara, Percy Pollock, who will step over from the Biltmore, and Herbert Rawlinson.

SIGN FANCHON FOR REVUE

Fanchon, one of the best-known theatrical producers in the West, has been engaged to produce the follies production at the Plantation May 7. Negotiations were closed yesterday between Fanchon and Manager Sam Wolf whereby the producer will be given free range to obtain the best of talent. According to present plans, the premiere of this production will be the gala event of the season at the Plantation.

Bessie Chapin Closes Series of Musicales

The last of the series of morning musicales which Bessie Chapin, violinist, has been presenting this winter, took place yesterday morning in the ballroom of the Alexandria Hotel with a large audience in attendance. Miss Chapin was assisted by George Shkultetski, Russian basso-cantante, who made his first Los Angeles appearance at this concert.

The program on this occasion included violin solos by Miss Chapin, arranged in groups according to the nationalities which they represented. In the first group were three Spanish numbers, the Introduction from the "Symphonie Espagnol," by Lalo; a Spanish Dance by Granados, and the "Zapateado," by Sarasate, which was brilliantly performed.

Mr. Shkultetski possesses a well-placed bass voice of a rich quality and a very good range, and his singing exhibited a great deal of artistic worth.

Miss Chapin's playing disclosed many musicianly qualities and her performance was characterized by fluency and grace. Her rendition of "Danny Boy," from the arrangement by Kreisler, lost some of its effectiveness because the violin was not in tune with the piano.

Her closing number was a Hungarian selection, the "Hjer Kati," by Hubay. This contained some brilliant technical passages and Miss Chapin captivated her audience by her interpretation of it. The accompaniment furnished by Marguerite Bitter, pianist, also contributed much to the success of the program.

Reign of Jazz on Wane, Says Orpheum Star

"The wane of jazz."

Odd title, that, for an interview with Sarah Padden, who never did a jazz thing in her life, yet who is co-starred on the Orpheum bill with Abe Lyman's ultra-jazz band. But Sarah Padden means it—and verifies her opinion with the facts.

"I have toured the whole country this season," she continued, "and I found a more serious note creeping into the public mind. There is more interest in higher thought, in cleaner living; more deeply religious an aspect.

"That doesn't necessarily mean hymn singing or church going, though the churches have gained tremendously in membership. But it does mean that the people are getting over the post-war hysteria, and are settling down to a normal life of work and study. That is what is marking the wane of the jazz craze.

"Don't mistake me, there will be jazz always, it is America's contribution to the music of the ages. Some day, a symphony will be written in jazz, and it will be a very wonderful symphony, for there is real music concealed in the jazz husk. But the jazz life, as we know it now, is a passing craze.

"Following the strain of the war, it was natural for people to go to the other extreme in their relaxation. But they went too far. It will right itself, as all evils do. Then there will be a sober time, when the reorganized and rehabilitated world will take stock of itself and catch up. The flapper of today will give way to the wholesome, companionable girl who has profited by her wild liberty to attain a plane not hers before, but who has regained her womanliness, her sweetness and her loveliness. She will not crave the negroid jazz of today, but will delight in the syncopated music that that era will develop.

"This is already reflected in the stage. There is a more serious note in plays; and dramas of that phase are accepted with delight where a few years ago they would never have had a hearing. I might cite 'The Fool' as an example; that was preceded by 'The Servant in the House,' 'The Passing of the Third Floor Back,' and a few more. And don't forget that 'Lightnin',' the most outstanding success, so far as runs are concerned, in the history of the stage, is clean, wholesome and uplifting. And I might speak of your own 'Mission Play' that I think has never been exceeded for a run in a single theater.

"My own plans? I have this little play, which I delight in, though it is not to be taken too seriously. Yet it has a hint of a moral concealed in it, that any husband might find—or any wife might show him. Beyond this, I am considering a fine play; I may do that next. I don't look to far ahead.

"I have just one great sorrow now—the death of Duse has cast a pall over the stage of the world. She died as she wished—at work. She was the world's greatest living actress. Let us all drop a tear for her passing."

GIVES SCENES FROM SHAKESPEARE PLAYS

Commemorating Shapespeare's birthday, Robert B. Mantell's performance at the Mason last night was made up of big scenes from five of the board's best-known plays.

Mantell appeared in bits of "Hamlet," "King Lear," "Romeo and Juliet," "Julius Caesar" and "Macbeth."

Tonight "As You Like It" will be the bill.

WILL READ TRAGEDY

"Nightmare," a tragedy by Dr. Lottie Parke, will be read before the Playcrafters, at their weekly meeting tomorrow evening, in Rowland Hall, 313 West Third street.

The clothing industry
(*In General*)
OFFERS YOU:
"A Reducing Glass"

Foreman *and* Clark
(*From Coast to Coast*)
OFFER YOU:
"A Magnifying Glass"

—to examine the hidden details of clothing construction THIS season

Copyright 1924, by Foreman & Clark, Inc. All Rights Reserved.

Did you ever see a reducing glass? It looks like a magnifying glass but the lens curves in instead of out. It makes things look smaller instead of bigger. If an artist knows there are defects in his drawing, he shows it to a buyer through this glass to "reduce", or hide the mistakes. This Spring, the clothing industry at large would welcome such a glass for any clothing buyer who is interested in the facts beneath the surface . . . a reducing glass to hide the inner workmanship that "isn't there!" Never has there been a season of such slackness in the hidden details that really make or mar a garment!

Foreman & Clark offer you a magnifying glass. Yes, or a high-powered jeweler's lens. Or a triple-prism microscope! There is no scrutiny too fine for Foreman and Clark guaranteed workmanship! All the style on the surface of Foreman and Clark clothes is anchored to honest construction underneath the surface! Real hand-workmanship! Linen thread hand-needled into collar and shoulder, into lapels and button-holes. Silver lining hand-worked into lapels and inner front! Pure wool twill and curling in fleecy threads through the warp and woof of every Foreman and Clark fabric! Foreman and Clark standards have stood fast (and while) the advent of another fad while ordinary clothing production went to pieces) are higher and finer in many respects than ever they were before!

America's greatest
Suits & Topcoats
. . . direct from our factories as the world's largest makers-and-retailers of men's clothes.

SENATE REP... FIGHT FOR...

Party Spokesm... Passage of ... Attacked

[BY A. ...

WASHINGTON, April ... by in the Senate in the tax ... income tax rates being given ... of Republican organization ... schedule was indicated in ... boost of the Finance Com... the rates.

Senator Jones, New Mexico, ... Democratic member of the co... action, retaliated with a denun... tion of the proposed 50 per c... cut in the maximum surt... as a plea for greater tax redu... not even than proposed by t... economy.

The revenue bill—over which t... has extended and controversi... legislative fight of the session ... anticipated—was brought up u... an inauspicious circumstance ... despite the enthusiastic declara... of the two speakers, le... by a score of Senators were ... the floor throughout their a... session. Twice a point of ... quorum was made to draw an a... call, but shortly after the ro... that most of the Senators, tir... of the long debate of yesterday ... the Jones bill, retired.

LONGER SESSIONS

Chairman Smoot called for ... meeting of the Senate one hou... earlier than usual tomorrow an... resumed reading of the bill fo... amendments would be started im... mediately. This could be deferred ... however, for speeches. Considera... ble of controversial amendment... likely in any event be sidetracke... for later disposition. Mr. Smoo... said this is expected to de... only for more than a week a short... time on the income-tax schedule ... In reply to Mr. Smoot's defens... of the Mellon rates which would ... cut the maximum surtax from ... 50 per cent to 25 per cent, Sena... Jones called attention tha... Republicans "had repu... ated" this schedule and adopted ... surtax plan, calling for a lo... reduction.

"But over here where only one... out of the members must go to ... the people for re-election this fall," ... Senator Jones continued, "you pro... pose just exactly what the Re... publican leaders want. I hope be... fore the election the people of this ... country will learn just how in... defensible this bill is and what the ... President and his party stand for."

LIMIT REACHED

Mr. Smoot pointed out that the ... committee bill had gone the limit ... in reduction, so far even that ... deficit of $50,000,000 would oc... cur on the basis of present esti... mates. This, he predicted, how... ever, would be taken care of by ... increased returns which would re... sult from the stimulus of tax re... duction on the basis of the Mellon ...

Senator Simmons, North Caro... [Continued on Page 2, Column 2]
